

Look ahead—open a Bank of Nova Scotia Savings Account now

A time will come when you will need money for a business investment or some other special purpose. A Bank of Nova Scotia Savings Account lays the foundation for a fund to meet such emergencies and protect you in your old age.

Regular saving paves the way to future independence. Enquiries are invited at any of our branches.

Interest compounded half yearly

Capital \$12,000,000; Reserve Fund \$24,000,000; Total Resources \$265,000,000

Stouffville Branch: F. Marshall, Manager

STOUFFVILLE HORTICULTURAL SOCIETY

Will hold their 8th Annual Exhibition in the Stouffville Arena, on

Thursday, August 27th

PRIZE LIST FOR 1931

CUT FLOWERS

COMMITTEE—Mrs. F. C. Rowbotham, Mrs. T. Rae
Mrs. Doten, Mrs. K. G. Tarr, Mrs. Nolan

1. Ageratum, 5 flower heads	50	25
2. Asters, white, 5 blooms	75	50
3. Asters, pink, 5 blooms	75	50
4. Asters, rose, 5 blooms	75	50
5. Azure blue, 5 blooms	75	50
6. Asters, mauve, 5 blooms	75	50
7. Asters, purple, 5 blooms	75	50
8. Asters, red, 5 blooms	75	50
9. Asters, single, 5 blooms	75	50
10. Balsam, 3 specimen	50	25
11. Buddleia, 1 spike	50	25
12. Calendula, 10 blooms	50	25
13. Calliposia, Annual, 3 sprays	50	25
14. Coreopsis, Perennial, 10 blooms	50	25
15. Carnations, 5 blooms	50	25
16. Cockscomb, 3 spikes	50	25
17. Cosmos, 10 blooms	50	25
18. Dahlia, decorative 1 bloom	50	25
19. Dahlia Cactus 1 bloom	50	25
20. Dahlia show 1 bloom	50	25
21. Dahlia Single 1 bloom	50	25
22. Delphinium, 3 spikes	50	25
23. Annual Larkspur 5 spikes	50	25
24. Gaillardia, perennial, 10 bloom	50	25
25. Gladioli, white, 1 spike	50	25
26. Gladioli, white, 3 spikes	50	25
27. Gladioli, white, 6 spikes	75	50
28. Gladioli, light or mauve, 1 spike	50	25
29. Gladioli, light or mauve, 3 spikes	50	25
30. Gladioli, light or mauve, 6 spikes	75	50
31. Gladioli, pink, 1 spike	50	25
32. Gladioli, pink, 3 spikes	50	25
33. Gladioli, pink, 6 spikes	75	50
34. Gladioli pink 3 spikes	50	25
35. Gladioli pink 6 spikes	75	50
36. Gladioli red 1 spike	50	25
37. Gladioli red, 3 spikes	50	25
38. Gladioli red 6 spikes	75	50
39. Gladioli Salmon 1 spike	50	25
40. Gladioli Salmon, 3 spikes	50	25
41. Gladioli Salmon 6 spikes	75	50
42. Gladioli orange or yellow, 1 spike	50	25
43. Gladioli Orange or Yellow 3 spikes	50	25
44. Gladioli, Orange or Yellow 6 spikes	75	50
45. Gladioli Violet or Purple, 1 spike	50	25
46. Gladioli Violet or Purple 3 spikes	50	25
47. Gladioli Violet or Purple 6 spikes	75	50
48. Gladioli, Bronze or smoky 1 spike	50	25
49. Gladioli, Bronze or smoky, 3 spikes	50	25
50. Gladioli, Bronze or smoky, 6 spikes	75	50
51. Gladioli, 6 spikes, distinct colours	1.00	75
52. Gladioli, 12 spikes, different colours	2.00	1.00
53. Best single spike of the show	50	
54. No entry required		
55. Gladioli primulinus, show 3 spikes	50	25
56. Geranium, 5 flower head with foliage	50	25
57. Gypsophila Annual, in vase	50	25
58. Gypsophila, Perennial in vase	50	25
59. Hydrangea, 1 bloom	50	25
60. Liatris, 1 spike	50	25
61. Marigold, African 5 blooms	50	25
62. Marigolds, French 10 blooms	50	25
63. Nasturtiums, collection	50	25
64. Pansy, 10 blooms	50	25
65. Petunia, single 10 blooms	50	25
66. Petunia, double 5 blooms	50	25
67. Phlox annual collection not less than five colours	50	25
68. Phlox, perennial collection not less than five colours	50	25
69. Rose, white 1 bloom	50	25
70. Rose, yellow, 1 bloom	50	25
71. Rose, pink, 1 bloom	50	25
72. Rose, red, 1 bloom	50	25
73. Rose, collection	75	50
74. Saipunglossis, 5 spray	50	25
75. Salvia, 6 spikes	50	25
76. Scabiosa, 10 blooms	50	25
77. Snapdragon, 10 spikes	50	25
78. Straw flowers 5 sprays	50	25
79. Stocks, 5 spikes	50	25
80. Sweet peas, 5 stems	50	25
81. Sweet Peas, basket design	50	25
82. Verbena, 10 flower heads with foliage	50	25
83. Zinnia Collection	75	50

SPECIAL

Com.—Miss C. Wideman, Mrs. Quantz	
1. Dahlia collection	\$1.50
2. Collection Perennials not less than 12 varieties in separate containers	\$1.50, \$1.00, 50c
3. Display of annuals, not less than 12 varieties	\$1.50, \$1.00, 50c
4. Basket cut flowers quality and arrangement to count	\$1.00 75

After 4 p.m. Sandwiches, Tea, Cake and Ice Cream will be on sale

Township May Control Golf Hours

Whitchurch Township council has a legal right to close up Tom Thumb golf courses from operating in the municipality on the Sabbath Day according to a judgment just handed out by Chief Justice Rose in supreme court.

The situation at Lake Musselman in closing the course there on Sundays was similar to that in other parts of the county where courses were forbidden to operate on the sabbath. The owners of these courses have contended the right of the municipality to legally enact such bylaw as to close a course, hence a stated case was heard before the chief justice.

A letter received by the municipal council of Whitchurch from C. F. Moore, assistant crown attorney sets out the position of the township. It reads as follows:

"In September 1930 a prosecution took place under bylaw of Township of York for the regulating of Tom Thumb Golf and Driving Courses.

There was a conviction made against the defendant and a stated case was granted by the magistrate which was argued before Chief Justice Rose of the supreme court. The judgment was given last week, dismissing the appeal or stayed case, holding that the township had the right to pass the bylaw complained of for the purpose of regulating this play, which bylaw forbids playing between the hours of twelve midnight and eight a.m. Monday.

With the above in view I think it might be wise for you to advise all these courses in your municipality that prosecutions will likely commence against them unless they are willing to give their undertaking to you that they will not keep open on Sunday.

If they do not agree to close up it will then be within your power, if you so desire, for you to have information laid against them, and proved through the police court in the ordinary way."

SEVENTH LINE MARKHAM

And the question of the hour is, "Who put the steam roller over Beauharnois?" Speaking in the House of Commons on May 22nd, 1930, Hon. R. B. Bennett, then leader of the opposition spoke thus, "I do think and I say it to the Prime Minister that this matter should be the subject of judicial inquiry, etc." Over a year later the much-touted judicial inquiry resolved itself into a committee, four from the opposition and five from the conservatives and to use the words of T. L. Church ex-M.P. Toronto N.E., "Peter White K. C. supplied the "white", the committee supplied the "wash" and the net outcome is a coat of whitewash for all concerned!" and so it goes.

After yelping and yappling for a complete probe, "Honest Bob" Gardiner becomes suddenly stricken with laryngitis—or some other "itis," and bleats feebly, what more could we have done?" You know, people, our opinion counts for little or nothing and our feeble voice is confined to a very small territory but we are living in hope that someday, somewhere, some bodies going to round up every crook in this country be they rich, poor, great, small, grit, tor or progressive; put them out of circulation for the rest of their natural lives; gather up the few remaining honest men and start afresh. As Hamlet said long ago, "There's something rotten in Denmark!"

We were very sorry to hear of the accident which befell Mr. Elmer Wells on Wednesday last. It seems as if Elmer became entangled with a pair of colts and ended up by being thrown to the ground, landing on his head. We hope no serious after-effects.

Rather a strange incident over at Melville. A farmer strolled out bright and early to find a strange cow tied in his stable. Thinking the owner would put in an appearance our friend let the matter rest until night when he began making inquiry. As far as could be learned some practical joker had taken the cow from her home stable about a mile away and parked her in the aforementioned location at least that is the theory advanced by those who claim to be in the know. Cobain!

A number of our farmers have finished cutting grain before the end of July which is something for the book. Messrs. A. Jarvis, Jacob Wideman, Allin Lewis and Henry Miller all finished on the 31st while George Hoover just failed by a nose. However let us say that George has his "wheat all threshed so that accounts for the deficiency." Cheering.

Mr. Henry Walker of this line is confined to his bed by an attack of stomach trouble, and Mr. Walker is sort of "man-of-all-work". Henry is greatly missed and we all join in wishing him a speedy recovery.

Mr. Garnet Kirk and friend visited Niagara Falls on Sunday last. Garnet was greatly enthralled by the sights in the city of the big roar.

Master Gordon Shaebright of Toronto is visiting with his grandparents Mr. and Mrs. R. A. Smith of this line.

Farmer's Information

County Sheep Dipping Week Haldimand County has set a good example in the way of a County Sheep Dipping and Drenching Week which was conducted this spring. Fifteen demonstrations in dipping and drenching were made at the various dipping tanks in the county, more than 3,200 sheep were treated for external parasites and about 80 per cent for internal parasites.

Fertilizer and Sow Thistle

The O.A.C. Department of Botany is conducting an experiment to test various methods for the eradication of sow thistle. In the experiment one-half of each plot received complete fertilizer, while the other half was left unfertilized. In the unfertilized portions the sow thistle plants were more numerous and were always larger and more vigorous than those in the fertilized sections. The plants in the latter plots were dwarfed and showed no indication of flowering this season.

Government Turkey Farm

Dr. G. I. Christie and Professor Graham of O. A. C. visited the Government turkey farm at Forestville in Norfolk County recently. This project was started five years ago on a farm consisting almost entirely of blawsand. At present there are some 1800 birds at range with 500 more expected. Some of the oldest birds at nine weeks old had attained the weight of 7 pounds and were expected to be ready for market by September.

The system employed on the farm is to move the young birds, which are incubator hatched, into field houses at the age of two weeks. These houses are placed in fields of young rye in which the birds are allowed free range. By this method and with the help of green manure crops ploughed under, a relatively good soil is being built up.

Buying Raw Materials

George R. Paterson, in charge of feed and fertilizer distribution for the Department, points out that cost of raw materials is an important item in the farmer's cost of production. The farmer requires feeds, fertilizer, limestone, bindertwine, oil, lumber, machinery and a host of other things to manufacture farm products. The farmer also has to consider the weather which is a very uncertain factor. Therefore cost of production of farm products is an unknown quantity, as every case is different.

While he cannot control the weather, the farmer can control costs of raw materials. The game opened up rather poorly for Stouffville, and owing to a number of errors the Elizabeths managed to pull the score up to 5 to 2. In the fourth innings owing to splendid hitting by the citizens team Stouffville tied the score while in the sixth and seventh gained two more making it 7 to 5. But this lead was short lived as the Elizabeths retaliated in the eighth with 2 more to their credit. Each pitcher felt the tenseness of the ninth innings and both made good therefore calling for overtime. Stouffville came up for the first bat in the tenth but failed to break the tie sending Chappel in for another round for which he proved capable. The eleventh innings proved the locals downfall as failing to make their own hitting tell, they allowed the rivals to fill the bases and acquire the much needed run advantage before required. Bulk buying is best. It costs the feed man more to sell a bag of feed than a ton. It will cost the farmer less to take his own delivery in most cases. The credit system is conducive to extra costs and should be avoided. Farmers will do well to stick to proven commodities and standard materials until new ones have been tested.

In 1927 Ontario exported 20 carloads of apples. In 1929, 120 carloads went overseas and in 1930 it had increased to 390 carloads. This year the Government confidently looks forward to a total export of 800 carloads, nearly all of it destined for the English market.

Spray Service Invaluable

Prof. Howlett of O.A.C. has secured reports from agricultural representatives and spray supervisors as to the results being obtained in results obtained in an orchard near Iroquois. In 1928 they harvested one thousand barrels of apples which were 35 per cent clean. In 1929 they had twelve hundred barrels of apples which were almost 100 per cent clean. In 1930, they harvested 1700 barrels and in the whole crop found eight apples with scab."

Will Select Junior Judges

Ontario will be represented by a team in the junior grain-judging competitions to be held at the World's Grain Exhibition in Regina in 1932. This decision was reached at the recent annual convention of agriculture representatives at Guelph. The teams will be selected by elimination contests, probably at four different points in the province.

The five boys obtaining highest scores at each of these contests will be taken to O.A.C. and there given further training. The three boys who score highest out of the twenty will represent the province.

REMEMBER JACOB YAKE

is open for business in the Silvester Block for watch repairing and cleaning. Springs of all kinds from 50c to \$1.00. Celuloid frames from \$1 to \$2. Broken frames repaired, lens replaced with perfect vision.

Real estate has gone to the wall, but any advise is freely given.
