this store will be open on Tuesday Thursday and Saturday evening. Closed Wednesday day at noon.

Big special in lard, 20 lb pail for \$1.95. Tait Bros.

The preliminary skirmish in connection with the appeal to set aside the last will and testament of the late Adam Betz, took place last week in Toronto, when several parties were examined prior to the Judge's trial.

Cranking his car on a city street last week Mr. Alex. Scott received a fractured wrist when the engine back-fired. As a result of this unfortunate turn of events he will now carry on business with his right arm in a sling for a few weeks.

A request has been received from the Roman Catholic church for permission to hold early morning Mass in the United Church building at Lake Musselman throughout the summer season. At the annual business meeting of the church officials Mr. C. Lauder was appointed to interview the Home Mission Board informing them that the wish of the local committee is that consent be granted, and the use of the building be extended to the applicants. At this same meeting an unanimous invitation was extended the Rev. A. J. Ward to serve as preacher during the season of 1932.

People who find it difficult to withstand any great amount of heat were almost prostrate as the great heat wave which set in on Wednesday of last week gradually grew worse up until Sunday, and the thermometer stood daily around 94 in the shade. As every cloud has a silver lining, so had this visitation of heat waves. Had it arrived earlier in the season, crops would have been destroyed, and more difficulty would thus have been added to the farmer's perplexing situation. About six o'clock on Monday morning a shower of rain came as welcome relief, to five days heat and drought, although it scarcely penetrated the ground the rain seemed to have been the forerunner or signal for a little cooler weather.

A truck belonging to the R. Hamilton pop works, in Toronto backed into a small hydro pole in front of R. Strong's garage on Monday, causing the pole to snap in two. Being partly hollow and also light weight the wires held the upper half of the pole suspended until repairs were at hand. The driver for the bottle dispensary claimed that had the pole not been so frail, it would have withstood the little unintended bump he gave it. On this argument the strong may bump the weak on the street, knock them over and get away with it. No, no, we think settlement would be forthcoming in all cases. The Hamilton firm or their driver, promises to settle any reasonable demand.

According to a radio broadcast one day last week Mr. W. B. Kester of Calgary, and son of Mrs. George Kester of Stouffville, had a thrilling experience with a couple of thugs who ordered him to "stick 'em up." W. B., according to the radio, satisfied the would-be robbers that there was no use in attacking him as he had no money for them, and was in need of gasoline. As misery likes company the two assailants were impressed by the hard luck story and even purchased some gasoline to help him on his way. Fortune was with our former townsman for he had a roll of \$200 with him at the time. Mr. Kester is the western representative for an Ontario clothing house and was travelling between two western towns at the time of the attempted hold-up.

If ever a mail courier was justified in not delivering the mail at a farmer's gate it was last Saturday when Herb Porter reached the box at the entrance to John Nicely's farm on the 6th of Whitechurch. Approaching from a distance the courier observed something unusual about the box, and on drawing closer discovered a swarm of bees had taken possession. John had a sort of box full of mail which arrived by air route, and possibly the longer it remained the sweeter it would get. James Brodie was appealed to go out and remove the swarm, but he hesitated wondering if he had the right to take things from another farmer's mail box. If John Nicely ever got any sweeter mail in his courting days than that which he received last weekend, it must have been a thriller.

At the parliament buildings in Toronto last week the reeve of Alliston village was informed by officials that no provision had been made to register the names of unemployed in villages. The information came in response to an enquiry made by the chief magistrate of the Simcoe village as to why Alliston had received official request to make up a register. But wait, over in the employed were registered just as they were in towns and cities, and we presume the municipal council of the Hill village received authority to enlist the workless hence some further explanation is due from Queen's Park. In any case surely every village in Ontario is able to take care of the few who might need help over the winter season. Most of the townships will look after their own destitute, excepting those places with sub-divisions adjacent to large centres such as Markham and other municipalities close to Toronto.

A new definition of depression: "A time when people do without things their parents never had."

Mr. Reg. Button who has completed his High School graduation is preparing to enter Varsity which opens the latter part of this month.

Keep in mind that The Tribune can furnish you with counter check books, any style or quantity. Let us quote you on your requirements.

Last week John Atkinson of Stouffville sold the 56 acre farm at Bethesda advertised in The Tribune for several weeks. The property is located at east half of lot 11, con. 5, and was purchased by a man named Hall from Newmarket, and will be worked by Hall's son-in-law. Mr. Atkinson says he sold the place in keeping with conditions today, meaning, of course, that he sold under his valuation of a couple of years ago.

For the past month Mr. Joseph Mowder has been unable to leave his bed, and is suffering from gangrene in one foot. Mr. Mowder is one of our oldest citizens, but we are not willing to spare him from our midst yet, consequently a host of admirers and close friends are anxiously waiting better news concerning his condition.

Thus far this year Stouffville has not had any outbreak of disease of a contagious nature, and the local Board of Health has never held a meeting, although the law requires the Board to organize in February. On the year's record, probably it is better that the municipal council see that the milk and water are tested and kept safe for use.

While engaged in making some adjustment on his binder for which purpose he crawled under the machine, Pat. Murphy was severely injured one day last week, when the horses ran away pulling the machine over his body. Pat. suffered a broken leg, and body bruises, and the team ran about the field for a couple of hours while Mr. Murphy was being removed to the house, but was not badly damaged. The accident happened on the Murphy farm on the 6th concession of Whitechurch.

The well-known Stafford farm at Goodwood, on one corner of which is located the United church, was sold last week to Mr. George Maye. The farm consisting of 100 acres was owned jointly by Calvin and Amos Stafford and had been in the family for more than half a century, but in selling to Mr. Maye it is not exactly passing from the Staffords, as George is a son-in-law of the first mentioned Calvin. It is intended to have the place worked on shares by the unemployed of Goodwood, so Mr. Maye informs The Tribune. As his other farm on which he lives adjoins the Stafford place, he will be able to superintend the work on both places nicely.

A group of Lindsay people were in town Saturday evening offering tickets at 25c with a chance to draw an automobile free with the lucky number ticket at a dance to be held by the Lindsay Kiwanis Club. The car was also on exhibition, and the man in charge said they had set out for Uxbridge from Lindsay but received a poor reception in that place where a car had recently been sold under similar conditions. The Uxbridge car and tickets, were held up by the police at Guelph, and it may be that our northern neighbors wish to forget about these unpleasanties.

This term Continuation School pupils who in the opinion of their teacher, have obtained a standing of 66 per cent on the year's work, will be given middle school standing without the necessity of writing the departmental examinations, according to an amendment to the school act dealing with the courses of study and examinations. Under this new arrangement pupils will have the highest incentive to stand up well in their classes through the whole term, giving lessons first place over sports and a good time, for which they will be well rewarded at the end of the school year by escaping the ordeal of writing the exams. When the principal of the local school informed the board on Friday evening of the change in the act, members expressed their approval of the change.

Ex-Councillor J. Borinsky was struck on the head with a brick one day last week, but fortunately the blow landed on his mental dome at gliding glance, or the result might have been very serious. Mr. Borinsky is remodelling the rear of his residence, and the men were engaged in tearing down a brick wall. The lump of clay fell from the upper part as the former councillor stood on the ground, and as a result of the accident he was wearing a plaster which might make some imagine he had been in an encounter with those Chicago racketeers. The crematory man who is now quite recovered from the shock intends to construct a new rear kitchen at his residence with garage facilities underneath which will make a decided improvement to this O'Brien Avenue home.

The Stouffville district school fair will be held in the arena and Memorial park here on Monday next, Sept. 21. The public are invited to view the exhibits and hear the afternoon program.

Boys' suits, \$ to 12 years, with extra knickers for only \$5.95 at Waldon's. 10 to 15 years boys' serge suits at \$11.95 with two pairs long pants. Other lines at just as low prices. West of Mansion House.

A man went into a shop to buy a fountain pen. The young saleswoman gave him one to try, and he covered several sheets of paper with the words "Tempus Fugit." The saleswoman offered him another pen. "Perhaps," she said, "you'd like one of these better, Mr. Fugit."

Between 60 and 70 men of the Ontario Christian Conference, met at the Bloomington church at a banquet Monday night. Dr. W. H. Rollins of New York City, was with them to speak about some things pertaining to missions and the work of the church in general. All present felt that the entire service was one of real and great benefit.

Mrs. Myrtle Beebe Monks will reopen her studio in Stouffville for piano and theory pupils Saturday Sept. 19. Special rates for beginners; All pupils receive individual instruction. Some pupils in former terms were obliged to wait until a vacancy occurred so would ask them and others to phone 503 or apply personally. Will be in studio in Toronto Tuesday and Wednesday each week.

W. Norbert Millar, young Peterborough flier won the 450-mile Tip Top Aerial Derby last week. Millar won by seconds in a thrilling finish at the Canadian National Exhibition Tuesday night. He beat a field of 29 planes, many of them driven by Eastern Canada's best pilots. A number of Stouffville and district residents made a guess for a prize on the time it would take the first plane to make the return trip from Toronto to Windsor, the route of the race. Millar made the trip in 4 hours, 15 minutes and 27.45 seconds. Did you win the prize?

Next Sunday the anniversary services of Lemoville United church will be held. Special music and specially prepared sermons will feature the two services, while on Monday evening Sept. 21, a harvest home supper will be served by the Ladies' Aid, also there will be a fine entertainment. As the Lemoville people are noted for their good cooking and generous treatment, there is likely to be a good representation of people from Stouffville and other adjacent districts in attendance at the supper. They are also invited to hear the new pastor Rev. E. C. French on Sunday.

Two Arrow busses and 40 motor cars passed through Stouffville in procession last Sunday afternoon enroute to the Catholic cemetery at Uxbridge where a pilgrimage was made to the graveside of Rev. Father McCabe late priest of the St. Clair parish, Toronto. Several priests were present to take part in the ceremony there, and were joined by Rev. Father Cairne and a large number of Uxbridge friends. The procession which came up from Toronto consisted of the Sunday school and other members of the St. Clair church where the late Father McCabe was so highly regarded.

A business man when giving us an order for 3000 envelopes with corner address printed was good enough to inform us that he had recently been canvassed by a city firm for printing and they had quoted him a price considerably in advance of the local printing for this 3000 envelope order. Travelling salesman must get their expenses off the customer from whom they secure orders or they could not stay on the job. We appreciate the loyalty of the Stouffville business concerns in patronizing the local office, where as low or lower prices usually prevail than in the city print shop. Also we can turn out very small orders for letter heads, bill heads, etc. which the city man would not accept at all, unless at a very high rate per hundred.

On Wednesday morning Mr. Robert Bryan passed away very suddenly at the family residence in Aurora. Although not in the best of health for some time Mr. Bryan had been attending to his barbering business until Thursday of last week when he was taken worse. Early Wednesday morning he called the family and before medical aid reached him had passed away.

Mr. Bryan was well known in this district and was highly respected. He is survived by his widow, two daughters, Mrs. Robt. Leggett of Aurora, Miss Verna Bryan, R. N. of Toronto, and one son, Hillard, of Toronto, and one son, Hillard, manager of the bank of Commerce at Maple. One brother William also survives.

At one time Mr. Bryan barbered in Stouffville and also in Claremont. He was a member of Aurora Lodge No. 148-I.O.O.F. Last week in this column reference was made to the manner in which the bus lines are putting it over

the railroads in the matter of rendering service, thus leaving the train coaches running up and down the tracks almost deserted. Notwithstanding all this however, it must not be forgotten that we are linked up with the railroads in an economic way, hence their failure to cope with this situation is a loss to the country at large. Referring to the situation right here in Stouffville it is pointed out that the C.N.R. is a great asset to the community as against the bus line. The railroad for instance pays into the coffers of the municipality some \$175 in general taxes each year, plus \$800 per year for water privileges at the station. For this sum of money we allow the company to water the big steel horses, all they can drink, and they have some thirst to quench too. Hence it is at once realized that a concern which pays us about \$1000 per year in taxes and also gives employment to the heads of several local families, is some asset. By pointing out their failure to cope with a real rival for business the good that may accrue is to spur the officials into action in the matter of competing against this thing which is sapping their business and profits.

Wholesome BREAD

No matter how good the bread from your own oven may be, is there enough difference in pure wholesomeness to warrant heating up the home

Our bread is good bread. It is freshly baked every day. Large loaf 16c small loaf 8c

A. STOVER
