FARM STOCK BRINGS GOOD PRICES

Largest Credit Auction This Season Realizes a surprising total of Cash Sales

The postponed public auction sale of farm stock and implements belonging to A. E. Gray and E. C. Fielding was held last Friday on the farm about two miles south of town on the 10th concession. Although the weather was warm in the morning, it turned quite cool during the afternoon and rain fell before the sale was half over. This didn't prevent a tremendous crowd from attending and staying right up to the last. Prices for both stock and implements ruled fairly high, and the total proceeds will run into a sum between \$4000 and \$4500.

Although there was some speculation as to whether there would be a sale made of the almost new tractor, several buyers were in the ring, and the coveted piece of gasoline power was dropped off to Ted Appleton of Pickering township at \$600. The tractor plow sold for \$75 and the cultivator for another \$75, the latter going to Reeve H. Kidd of Whitchurch. Although the ten months terms of the sale were offered the buyers, all three paid spot cash. A feature of the whole sale was the large amount of cash paid in. The binder brought \$65, not a high price, but in these rather tough days for the farmer, he isn't just buying a suit of beach pyjamas in the fall, or a suit of woollen under wear in July as it were. Nor does he need a binder before next July.

Considerable interest centered around the sale of swine. There was a lot of porkers, small and large. Young porkers weaned only a few weeks brought up to \$3.50, with sows bred bringing \$20. Good prices we say with pork down to \$4.75 a hundred weight. The milk cows didn't seem to appeal to the ring too well, the top notcher going at \$75 but heifers went better at \$45 and \$50. The best team of horses sold separately for \$85 and \$100 respectively. One cent a bushel was the price

for mixed grain, and 58c per bush for wheat.

This sale was first advertised to take place on Thursday November 12th, but owing to an injunction being served on Mr. Gray, it was called off just after the sale was opened by F. W. Silversides and his assistant Alvin Farmer. The first date higher prices would no doubt have been the order for at least swine and grain, as the big markets presented a highly encouraging picture at that time, but have since slumped badly. The farm once the property of Mr. Arthur Williams is likely to be rented if not sold in the meantime.

In these two New Majestics

5 Tubes

do the work of 7 Tubes

ELLSWOOD MODEL
Early English design Lowboy with 5-tube Super-heterodyne Chassis with Spray-Shield and Pentode Tubes. Modulated circuit, variable tone control, and Grand Opera Speaker. Price, complete with Rogers Guaranteed Tubes \$39

HAVENWOOD MODEL
Manitowish model of Georgian design, 5-tube Super-heterodyne Chassis with Spray-Shield and Pentode Tubes. Modulated circuit, variable tone control, full dynamic speaker. Complete with Rogers Guaranteed Tubes. \$69

Five tubes actually do the work of seven and do it more efficiently in these new Majestic Models. The "224" tube acts both as oscillator and detector—a new double function never before introduced in a radio set—thereby eliminating one tube. The new "247" tube has a power output equal to two ordinary "245" tubes—thus eliminating another tube. Saving these two tubes saves dollars for you!

Majestic first introduces in these radios the new "Spray-Shield" Tube—entirely self-shielded—eliminating the usual metal shield "cans." Another absolutely unique development in radio!

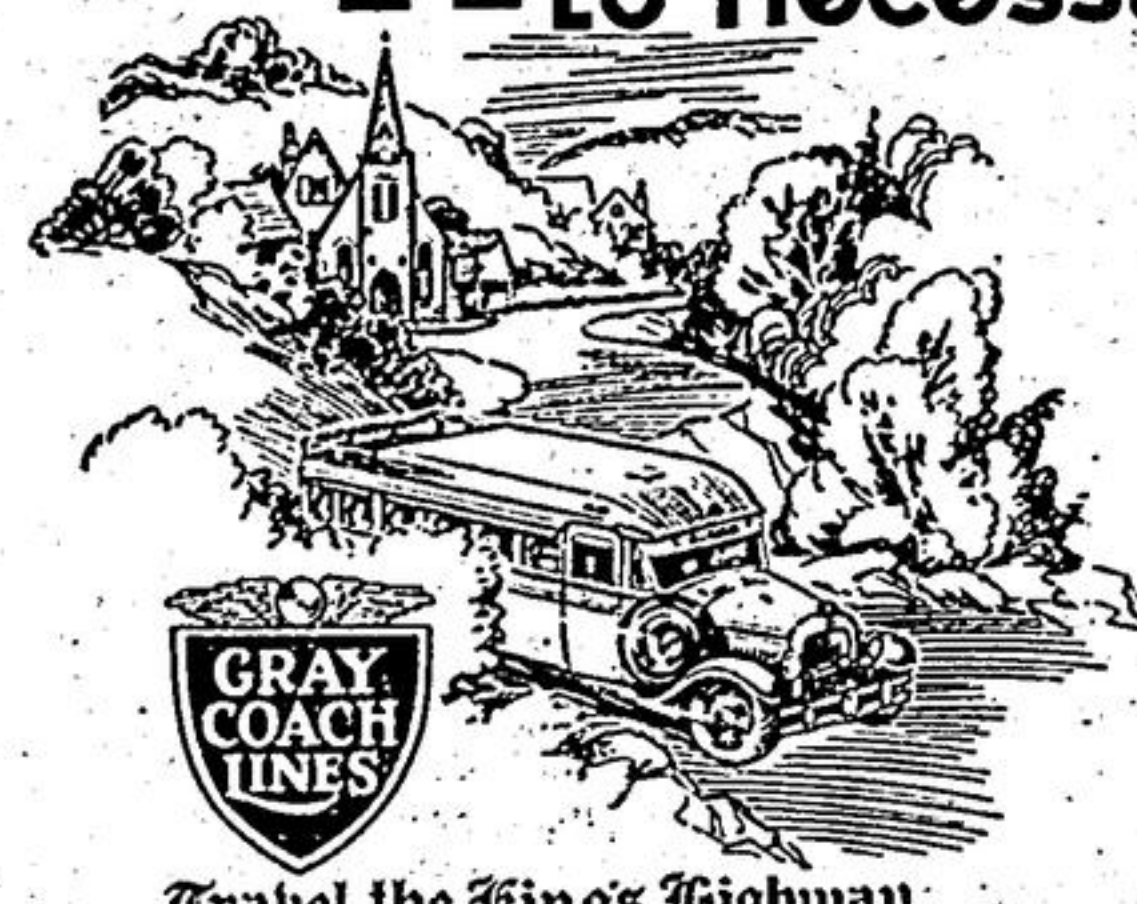

Majestic Radios for 1932, not only have these noteworthy improvements—they are the lowest-price, greatest-dollar-value Majestics ever produced.

The 1932 "Made in Canada" Majestic RADIO

is here!
