**A Jack Rabbit's Speed**

If you were asked, "how fast can a rabbit run?" would you be able to hazard an intelligent guess? Many people could not, but if you ask Charlie Harper he'll give you a pretty good idea. Driving his car a few days ago along a swamp road Charlie came across one of the fleet footed hoppers, which was not disposed to give him any ground. Instead of scampering off into the bush, Mr. Benjamin Bunny ran along for a mile or more right in front of the car, and

it was not until after Charlie's speedometer was raised over 35 miles an hour did he really overhaul the little creature. With the engine on his heels the bunny hopped off into the swamp, where he probably had a good laugh.

**WHERE IS HIGHWAY No. 1?**

Where is king's highway No. 1 in Ontario. The answer is that there isn't any such road, never will be, simply because when they were numbering the highways every city wanted to be on No. 1. At any rate, the official list starts with king's highway No. 2 which begins at Windsor and runs to the Quebec boundary, not so far from Montreal, 544.4 miles. The numbered list runs up to 34, and besides this, there are three highways that have names and not numbers. No. 2 is the longest of the lot. But do not look for No. 1.

**WANTED—Employment** by the year or for the winter months. W. Greenbury, east end.

**TAX PAYMENTS UP TO 1930**

So much talk has been heard about people being unable to pay their taxes this year, that the returns received by collectors are being watched with keen interest by municipal councillors and others. In Markham and Whitchurch Townships the bank collections and amounts received by collectors were not available at time of going to press. Indications however, point to Whitchurch tax payers doing as well this year as in 1930. Collector F. H. Steckley was of the opinion on Tuesday that the total was well up to previous years. A great many are making payment by instalment, paying the added penalty of 5 per cent of course.

No figures were available from Markham for this issue.

**GOODWOOD**

Goodwood students were well to the fore at the annual Commencement Exercises of Uxbridge High school on December 4. Miss Edna Foskett was at the piano, while Miss Blanche Todd captured a medal in athletics. Bert Ashenurst won two cups and three medals in shooting and athletics. Bert cleared the pole at over 10 feet, and covered 100 yards in 1 1/2-5 minutes. Then for studies he obtained nine papers with honor standing on eight of them. A fine record indeed.

Now why not a rink this winter! The new smithy shop on the "American" side appears to be busy, as we hear the merry anvil ringing. Thos Downswell is making fair recovery following a painful mishap, whereby he fell on a recent morning going down the street. It was feared his leg was fractured.

Mrs. Donald Pines was a welcome visitor in her accustomed place in the United Sunday School recently. Glad to have old teachers return especially when they take their class again. Thank you, Mrs. Pines. Well, its Cassie and Davies again for the reeveship, or your reporter misjudges things badly.

**RINGWOOD**

Christmas' groceries at Groves Store. Miss Velma Farrow has taken a position in Toronto. Gordon Deeth is all smiles.—It's a boy.

Don't forget our school concert on the evening of the 23rd. Albert Maskell is engaged with Geo. Talbot for the winter. The snow fences between Stouffville and our burg are all in place, so let it snow and blow.

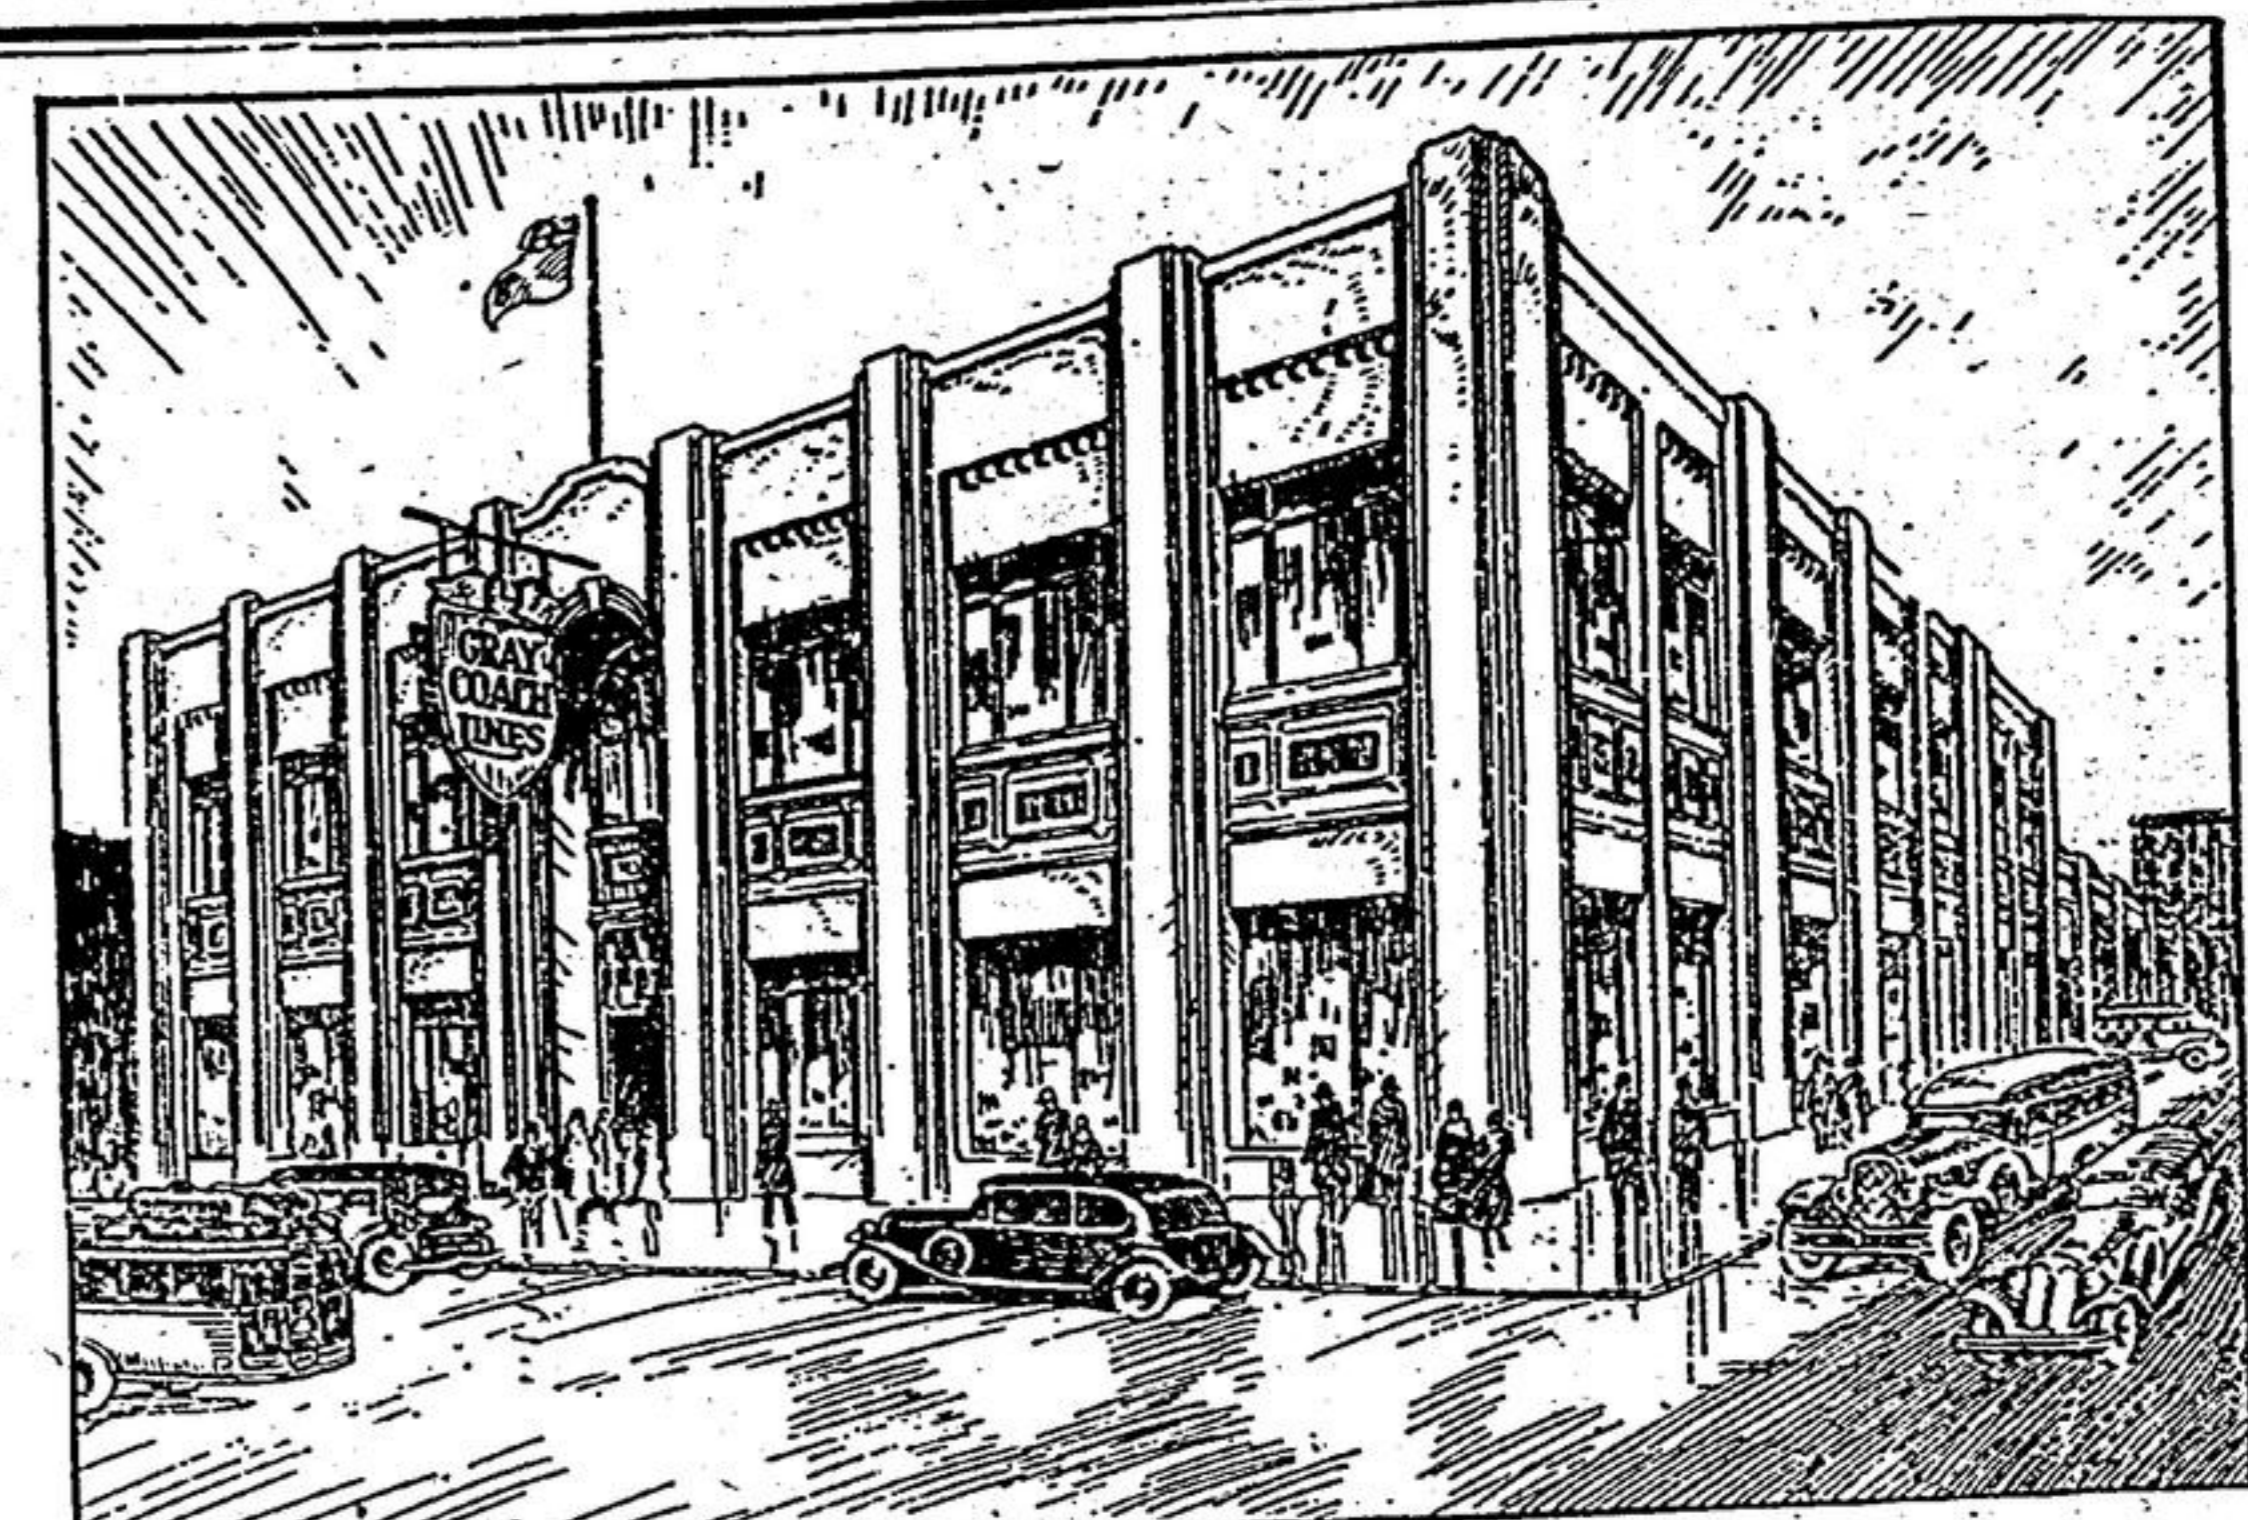

Russell Dreyway and family moved into Mrs. Wm. Anderson's house on the 8th line south. Mr. and Mrs. C. F. Mitchell of Cleveland, are spending the winter at Mr. J. A. Mitchell's. Mr. and Mrs. Elias Hoover and daughter Eva of Stouffville, were Sunday visitors at T. Groves's. Miss Cortrude Fisher and Mr. Isaac Pipher are both on the sick list. We hope soon to see them out again. The shooting match held at Delos Graham's on Saturday was well attended, and a second match will be held next Tuesday.

Walter Vague has installed an Electric Radio. Earl Brillinger took fifty barrels of apples to North Bay recently. He reports very little trouble disposing of them. Apples do not grow within a good many miles of that district.

We are glad to report that Mrs. Ross Vague is improving nicely following her recent operation in the General Hospital. Mrs. Vague expects to be home in about two weeks. Her many friends wish her a speedy recovery.

**GOODWOOD BLACKSMITH AND WOODWORK SHOP**  
(East of Jack Rae's Garage.)

**TORONTO COACH TERMINAL**  
Bay at Dundas Streets, Toronto

Above is reproduced a sketch of the new "Toronto Coach Terminal", to be opened on Saturday, December 19th, the first building in Canada designed and constructed solely for the accommodation of motor coach passengers. Keeping pace with the rapid development of

modern highway travel service the new Terminal will provide adequate and much-needed facilities for the thousands of passengers served daily by Gray Coach Lines and other coach routes converging in Toronto. The "Toronto Coach Terminal" marks

another milestone in the romantic history of public transportation on the King's Highways, and in the pulsing revival of the pioneer stage-coach, transformed into its luxuriously counterpart—the motor coach. You are invited to inspect the new Terminal on your next visit to Toronto.

**Still on Top at 81**

A few days ago we espied Mr. Abraham Raymer going by the office window sitting high up on a load of hay or straw, and we began to wonder if he was young enough to be away up there, driving a team of horses. On looking up Mr. Raymer's age we find he is nearing his 81st birthday, but he apparently never thinks about his age. Few men who have seen his length of years will be found driving a load of hay, or taking a chance climbing to the top of a tree.

For long years this honorable citizen farmed in Whitchurch township, but even though he retired to Stouffville a few years ago, he enjoys a day's work far better than days of idleness, and thus he just has to keep going.

**CREDIT AUCTION SALE**  
Farm Stock, Implements, Roots, Etc.

**The Hatching Season**

Is now just around the corner. Prepare your flock for high production of eggs, greater fertility, greater hatchability, and sturdier chicks through the use of our cod liver oil containing winter mash.

Recent Central Experimental farm tests show—all other things being equal—an increase of four eggs per month per hen; 3.0 per cent greater fertility; 13.0 per cent greater hatchability and 10.3 per cent reduction in mortality in chicks through the use of cod liver oil to breeding stock.

Our mash contains 2 lbs. pure cod liver oil to each 98 lbs. other ingredients—the ratio which has proven most satisfactory.

Manufactured and sold exclusively by

**Due to Twin-Power Detection**

**9 Tubes do the work of 11 Tubes**

**Majestic RADIO**

**BRENTWOOD MODEL**  
Jacobean Console with 9-tube Super-heterodyne Chassis including Spray-Shield, Multi-Mu and Pentode Tubes, Twin Power Detection, Grand Opera Speaker. Complete with Rogers Guaranteed Tubes. \$159

**NOW—Completely MADE IN CANADA**

From "the Perfect Quality Receiver" in the Science Museum at South Kensington, London, comes the principle of Twin-Power Detection found in the 1932 Majestic Superheterodynes.  
Due to this principle, nine tubes do the work of eleven in these models. Two of them are the new "247" Pentode Tubes, each of which has the power output of two ordinary "245" tubes. These new Majestics have all the power and efficiency of an 11-tube set with the low cost of a 9-tube set.

**Make this Christmas memorable with a Majestic . . . See today**
