

### TO THE ELECTORS OF Whitchurch

Will all the friends who so kindly supported me during the recent election please accept my thanks for their efforts on my behalf. Although unsuccessful as a candidate for council, I am still at the service of the ratepayers. I congratulate the new council on their election and wish them and the electors of Whitchurch a happy and prosperous new year

> Sincerely Yours Percy Cutler.

CARD OF THANKS Mrs. C. Perry, takes this opportunity of thanking her many friends wedding on Sunday Jan 10th. both far and near, for their wonder- wish them many more happy years ful kindness. throughout Christmas and New Year holidays, minster Guild for this year was also the ladies of the United Church, for the beautiful flowers, the W. I. and the O.E.S. societies for their nice treats. It is comforting to know happy and prosperous year. Mrs. C. Perry Sld\$

### IN MEMORIAM

Johnson-In loving remembrance of Lillian Doris Johnson who passed away in Toronto General Hospital January 10, 1929 aged 17 years.

When evening shadows are falling and we're sitting all alone In our hearts there comes a longing If you only could come home Oh why was she taken so young and so fair

When earth had so many it better could spare Hard was the blow that compelled us to part.

From one we loved so dearly So near to our hearts Beside your grave we often stand

With hearts so crushed and sore Oh Dear Lord may our Doris be link in the chain To bind us together, till we meet

her again.

Ever remembered by

### Farmers' Information

Cleaning Out Couch

The eradication of couch grass otherwise known as quack. twitch or scutch grass, is one of the oardest problems with which the farmer has to deal. Few people realize the enormous quantity of couch grass roots which exist in infested Tests conducted by the Central Experimental Farm at Ottawa show weights of roots ranging from 1,531 to 6997 pounds to the acre-as much as a heavy crop of hay. No wonder it is hard to clean out' when it spreads by roots as well as seed. Thoroughly cleaning out the roots is the one effective way of getting rid of couch. In small areas this may be done by hand. In larger areas by shallow plowing and working thoroughly with the cultivator to keep the roots turned up to the sun long enough for them to "kill." Only as large an area as can be thoroughly cleaned up at one time should be undertaken, as halfmeasures are only lost time and effort.

Canadian Eggs Best

The per capita consumption Marketing Board, a record duces the best eggs. Mr. Carroll gives as the underlying reason the fact that Canadian eggs are government graded, and declares: "Guesswork is eliminated. The annoyance and disappointment of paying for a high quality product and receiving an inferior, one, is a thing of the past in Canada, so far as the egg business is concerned. The old expression, "let the buyer beware," is obsolete in this country when eggs are being purchased. The Canadian consumer decides the quality of eggs he or she purchases, not the Catherwood, Deputy Reeve Robert dealer, providing the eggs bought by grade. As for the effect of this huge consumption on gener- Hockley. al prosperity, consider these figures. The farmer received an average price of 23 cents a dozen for his eggs, or a total revenue of \$69,940,-000. The consumer paid an average price of 38.5 cents a dozen or a of \$117,176,000. difference of \$47,234,000 is the sum contributed to "business" in the way of transportation, storage, merch

### Hay Market Quiet

The hay market is reported as extremely quiet throughout Canada. The domestic demand during December was light as compared with other years, owing to the mild weather. The usual movement hay to lumber, mining and road construction camps was not brisk as in other years. port demand for hay continues to be poor and unless it improves no real substantial movement is ex- they concurred in the movement. pected of the large supplies of needs of the trade are much lower positions as auditors. than in other years.

meal; equal parts of shorts, ground oats and ground bartey; equal parts of low grade flour, ground barley and ground oats; equal parts of ground whole wheat, ground whole oats and ground whole barley; equal parts of ground barley, ground buckwheat and bran.

Barley Crop Important Barley has competed strongly with wheat as a revenue producer on Ontario farms. This grain holds an important place, for several reasons. It is a comparatively high yielder. Experiments show mixed with early oats returns from the combination exceed highest yields obtainable from either grain separately. Also, in analyses, it is shown that in carbohydrates and protein, barley compares very favorably with field corn. Barley is also the north country corn. In northern counties, where early large crops of corn, barley is found toes in storage on his farm, while these two points, barley does best we all hope the price will come back of all cereals on ground which is just a little at least. The lowest we insufficiently drained and hence is have heard quoted for them here is cold and backward in spring.
