**"They're Off!"—In Old Quebec**

The Eleventh annual Eastern International Dog Sled Derby—crowning event of the 1932 Winter Sport season—is scheduled for February 22-24. For these three days, all eyes turn to Quebec City, where each day the fight between the best dog teams in America over a course of 40-odd miles a day is staged. Emil St-Godard, Leonard Seppala, hero of the rush with diphtheria serum to Nome a few years back, are among the contenders, of whom last year there were eleven and this year there will likely be even more. In all, the race covers a distance of 123 miles and the finish is in Quebec itself through crowds of thousands of fans, lining the streets and cheer on the victor.

Handsome cash prizes are awarded, but this year interest is much above the usual. St-Godard who has won the race four times in the last five years, has two legs on the Speed Cup and another win this year will give it to him permanently. Seppala has two legs on the Gold Cup for the best conditioned dog and stands to win it permanently this year. Prizes total \$2,150 with a first prize of \$300; second prize, \$600; third prize, \$300; then \$200, \$100, \$75, \$50 and \$25 in that order. In addition there is the Gold Cup for the best conditioned dog and the Speed Cup awarded to the team making the fastest time for a lap during the three days of racing. The event winds up with the Dog Derby Costume Ball held at the Chateau Frontenac, the

Canadian Pacific's great hotel, on Wednesday, February 24 at which prizes and cups are awarded to the winners. The picture shows: Upper left, typical huskie, and right Chateau Frontenac, Quebec. Below, centre, last lap of the race and lower right Emil St-Godard and his lead dog, Toby.

**It's a Long Time**

Since Stouffville played that famous game of baseball with the Toronto Park Nine. If I am not mistaken it was just mid-summer of 1892 (40 years ago.) Baseball was a popular sport at that time in our town. The Stouffville boys lined up as follows:—W. J. McCarty, pitcher, Arthur Sanders, catcher; Arthur Steele, 1st b., Frank Rae 2 b., Charlie Pringle 3 b., Ad Burkholder Charlie Urquhart, Harry Sangster fielders. The teams were very evenly matched in size and also in playing ability. Up to the end of the eighth innings it was said to be fine baseball, with no errors on either side. Then came the fun. With 7 runs to tie the Park Nine went to bat. The first man batted a fly to the outfield, which was badly handled, when the home team became demoralized and indulged in some very loose playing which the visitors took advantage of by running in 9 runs before the side was retired, and thus turning our big lead into one of two runs for the Park Nine. Two runs were then scored when the home boys came up to bat, the score stood even, and an innings to go for both sides. The excitement was intense. In the first half of the last innings the Park Nine were retired with a run, then the locals came up again, and with two men out secured the necessary run to win the game. The Park Nine struck out six of our men that day, while Bill McCarty victimized 16 of the visitors. The baseball diamond at that time was just south of Pennock's livery barns, where the old race track was located, and the crowd was large, with the ladies just as plentiful and enthusiastic as the men and boys. I appreciate the old home letters from time to time appearing in the local press, and add this contribution in the hope that others too will make an effort to write

Yours truly  
Frank Rae.

**4TH LINE UNBRIDGE**

Wm. Redman and family visited at Mrs. M. Norton's on Sunday.

Mr. and Mrs. N. Linton spent Sunday at Dan Norton's.

The roads certainly are O.K. for either cars or cutter now.

Mr. and Mrs. R. Faulkner visited at R. Feasby's last Saturday.

M. and Mrs. Bert Tindall and family were at R. Feasby's on Sunday.

Miss Marjorie Maye of Goodwood spent Saturday afternoon with Mary Jones.

The fifth line Ladies' Aid held their meeting at the home of Mrs. A. Ashenhurst last Thursday afternoon.

Wm. Maye's pond is sure an attraction for the young folks for both skating parties and hockey matches are all the rage just now.

Wm. Maye's also Mr. and Mrs. H. Forsyth and mother motored to Whitevale on Sunday to attend the funeral of Mrs. Maye's and Mrs. Forsyth's sister, Mrs. Sebeck.

**PICKERING COUNCIL.**

Standing committee on power and light paid the following: Hydro Elec Greenwood st. lights \$30.38.

**VANDORF**

Mr. S. P. Foote, accompanied by Mrs. Foote and Mrs. W. D. Richardson celebrated their birthdays Feb. 1st by a birthday dinner at the home of Mrs. W. D. Richardson.

Mr. and Mrs. Norman Steckley are highly favored in having so many friends interested in their future happiness and comfort.

A second bridal shower was held at the home of Mr. and Mrs. Ross Winterstein on Friday evening of last week by the sixth line neighbors. Friends from Bethesda and Lemonville also joined to wish the young folk happiness in their new home. The gifts were all lovely and very useful. Everyone enjoyed the impromptu programme followed by lunch and social chat. To finish up a good time properly the boys held a charivari musicale which was enlivening if not altogether musical.

**BIRTHS**

LEHMAN—At Gormley, on January 31, 1932, to Mr. and Mrs. Gordon Lehman, a daughter.

LATTER—At Vvian on February 2, 1932, to Mr. and Mrs. J. Latter, a son.

JONES—On February 4, 1932, to Mr. and Mrs. Harmon Jones, 9th con. Markham, a son.

DADSON—On February 4, 1932, to Mr. and Mrs. Chas. Dadson, 9th con. Whitechurch, a daughter.

BROWNSBERGER—At their home near Ringwood, on February 5, 1932, to Mr. and Mrs. Edgar Brownsberger, a son.

HEISE—At lot 3, con. 6 west, Whitechurch, on February 6, 1932, to Mr. and Mrs. Earl Heise, a daughter.

**IN MEMORIAM**

HOPKINS—In loving memory of my dear husband and father who passed away February 11 1930. We often sit and think of you. And think of how you died. To think you could not say good-bye.

Before you closed your eyes. Sadly missed by wife and family

**Farmers' Information**

**Raising Prolific Sows**

Sterility in pigs is difficult to cure but most forms of it can be prevented by proper management. Fertility is heritable, therefore always select breeding stock from large litters. Breeding sows must have more protein and calcium than fattening stock in order to build up flesh and bone in their young. The important sources of supply of these are meat and protein meal, milk and degummed pastures. Exercise is essential for regular production. Show condition sometimes causes sterility, but this is when the pigs are over-fat and lack exercise. Exposure in winter will delay breeding. Contagious abortion is spread through afterbirth, dead piglings and discharge contaminating the food, water and beddings.

**Late Corn and Fertilizers**

Many farmers are talking late planting of corn this year and fertilizing in an attempt to control the corn borer. In this connection, O. A. C. officials conducted a test in Essex County, planting corn at three different dates, a week apart. Suitable fertilizer was applied at 200 pounds per acre. The fertilizer increased the yield of ears 700 pounds per acre in the earliest planting, and 715 pounds per acre in the latest planting. Late planting meant a larger per cent. of immature ears at harvest in all cases; but from the plots planted last there was 33 per cent less soft ears in the fertilized area than there was on the unfertilized. The gain of fertilized corn over unfertilized had not only been maintained but had increased where the corn was planted latest, and had been fertilized. This was in addition to barn yard manure. Good soil preparation, good seed and proper cultivation must be provided if best results are to be attained.

**An Attractive Home**

"Oh what an opportunity if I only had the time!" This is the remark of a lady at the Ontario Agricultural College recently. She had come to the College to make enquiry about certain perennials which she wished to plant in the yard of her farm home, and was told about the short course of instruction in landscape gardening to be given at the College from Feb. 15th to 19th. On looking over the program of this short course she saw that there were to be instructions and demonstrations in garden planning and the selection of the most suitable kinds of trees, shrubs and flowers, and she longed to take the course.

The opportunity is there for her, and for many others, and no better way could be found for farm women, or men either for that matter, to spend a happy, interesting week in the middle of winter in studying and making plans for the beautification of their farm homes so that their lives might be more enjoyable in the years to come.

All persons interested in this course should understand that there is no charge for instruction and that a program of the course may be had for the asking.

**Improving Live Stock**

Addressing a banquet of 600 live stock breeders and exhibitors tendered by the C.N.E. directors, Hon. Thomas L. Kennedy and Hon. Robert Weir offered the utmost assistance of their departments to raise standards and obtain cheaper feed, urged quality breeding and stated that the markets were open for high-class stock in uniform quality. Hon. Mr. Kennedy declared: "We are going to try to get a large export market by producing beef of a better quality than in any country of the world, and no tariff walls or exchanges will be able to keep it out of the United States or the export markets of the world. Every day buyers from the United States are searching the eastern part of the province for purebred T. B. tested animals and the only reason Canada does not send more across the border is that there are not enough purebreds." The Minister also paid tribute to the Junior Farmers' teams and clubs which encouraged the young farmers to appreciate their opportunities and which taught them all the knowledge that had been obtained for improvement of the industry. He said: "These young farmers will improve the live stock of Canada to such a degree that the countries of the world will come to us. We shall not have to go to Denmark or any other country for our purebred bacon sires, for there will be no place in the world where we can get the stock e will have in Canada."

**Seceds Are Weed Menace**

Studies carried out by Canadian weed specialists show strikingly the menace of weeds through the multitude of their seeds. For instance, a single plant of wild mustard, sinkweed, foxtail, pigweed, or campion, produces from 10,000 to 20,000 seeds; worm-seed mustard about 25,000; shepherd's purse about 50,000; and the tumbling mustard about 1,500,000. Moral: Weeds should never be allowed to go to seed.
