Hurried through the Legislature as an emergency measure, Royal assent has been given to the Ontario Mortgagees' and Purchasers' Relief Act generally referred to as the mortgage moratorium bill. Provisions of the act, will require that before any act of foreclosure due to arrears of payment on principal accounts, consent must be obtained from a court. The bill does not apply to mortgages securing bonds or debentures.

Based on the corresponding bill of 1915 the act does not prevent action brought against a mortgagor who is in arrears of interest or taxes. In case of arrears of payments on account of principal, it does not prevent action being taken providing that a judge, upon hearing facts of the case, has given consent to such action.

4TH LINE UXBRIDGE

(Last Week's News)
Sorry to hear of so much cold and flu on this line and about.
Mr. and Mrs. George Jones visited at A. Ashenhurst's last Saturday. Our fine weather has taken an end just the same time as the blow up came last year.
One of our farmers one day last week sold a huge truck load of potatoes but oh my—13c isn't a very decent price.
Goodwood Ladies' Aid held their social evening at R. Feasby's one evening last week. All report a good time. After playing games all enjoyed a splendid lunch.
Mr. and Mrs. Alex. Schneider (Annie Woodland) are expected home this week from the north to take possession of their farm near Claremont, weather and roads permitting.
Sorry to hear that Wm. Dickson has been removed to the hospital for treatment for his stomach. Hope he will soon recover.
Mr. and Mrs. Bert Maidonald held a celebration last Monday evening in honour of their 25th wedding anniversary. Some pretty presents were given after which all enjoyed crockinole and euche, and when prizes were given to the winners.

Peel County Council has reduced the salary of its members to \$4.50 per day.

THE "INN" CRAZE

Mrs. E. A. Duncan, wife of the editor of the Warton Canadian Echo, gives the woman's viewpoint of their trip to Florida. She concludes that "Inn" is the most over-worked word in the United States. "Besides the ordinary Sunnyside, Riverview and Hillcrest Inn, there were Pull Inn, Wobble Inn, Stay Inn, Welcome Inn, Wee T. Inn, Drop Inn, Dewdrop Inn, Drive Inn, Shoot Inn, Slip Inn, Hot Dog Inn, Waltz Inn and endless other Inns. In fact, the only Inns we didn't see, that I can think of, were Steppinns.

Over 30 sectionmen were laid off this month on the Allandale (Barrie) division of the C.N.R., while the local section through Stouffville has been depleted until there is barely enough men to cover the stretch of tracks. However with the C.N.R. falling behind last year at the rate of more than a million dollars a week, its time steps were taken to reduce forces. The reduction in the number of section men, is a plan that has been followed all through the service. Stations like Locust Hill taking in \$10,000 to \$15,000 per year have been closed where possible, and staffs cut every way. All this is fine, and will eventually wipe out the railway's deficit, but hark! have you heard of any but a slight reduction in Sir Henry Thornton's \$75,000 per year salary and expenses? A just reduction in Sir Henry's salary, would save the C.N.R. more money than 30 laborers he fired on the Allandale line. A mere drop of \$10,000 per year doesn't mean much from so large a salary. It is not comparable to the laborer that gets reduced to say three days a week.

Saturday evening we had the opportunity to attend the Toronto-Boston hockey match in the big new ice palace, the Arena Gardens, Toronto. The attendance that evening was over 13,000, while on the Saturday evening previous the paid admissions were 17,000. The tickets average \$1.50 for these professional games, hence on the two evenings referred to Torontoians contributed in the neighborhood of \$45,000 for the privilege of seeing just two hockey matches. Undoubtedly they were thrillers, and so are many of the games staged in Stouffville Arena, but the difference in cost! We might have mentioned that in addition to the 13,000 people in attendance last Saturday, a still larger crowd filled the Gardens in the afternoon for the Newmarket-Marlboro contest. What we cannot understand is where all the money comes from, and yet it does come, hard times, want, and despair to the contrary. That the Ontario Government overlooked laying its hand still heavier on this after all unnecessary waste, instead of clogging the wheels of legitimate business with still greater taxation, is another thing to wonder over.

"Reputedly debts owing to British investors", as ordinarily understood, do not include the money loaned to the Confederate States of the civil war period (1861 to 65), for the creditors would have no legal or moral claim to the repayment of money lent to a rebellious state. The debts referred to were incurred for the building of railways, establishing bank, etc., before and after the civil war period. Unfortunately, the 11th amendment to the U.S. constitution closes the doors of the courts to the owners of state bonds, for it declared (Jan. 8, 1793) that "the judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another state or by citizens or subjects of any foreign state." The following states are cited as still in default to British investors for sums borrowed by them in the British market for "public improvements," and which have never been repaid:

Arkansas \$1,740,000
Florida 1,400,000
Georgia 2,540,000
Louisiana 1,200,000
Mississippi 1,400,000
North Carolina 2,520,000
South Carolina 1,200,000
Total \$12,000,000

It was stated in the British House of Commons on April 13, 1923, by Colonel Howard Drury, that the interest on the above debts then amounted to £66,000,000, or a total indebtedness of £78,000,000.

Secondary education, in our opinion, has been made too free in this province, and it is the cause of a great deal of our burdensome tax bills. Few people object to every child securing his public school leaving absolutely free, but beyond this, the parent should contribute something direct to the cost of educating his child. If such were the case there would not be hundreds of boys attending high school today

simply as a past time, or because their parents do not know what else to put them at. Think too, of the hundreds of farmers who are being turned out of house and farm because they cannot pay their taxes, a great portion of which is demanded for the purpose of educating rich men's children, or perhaps for educating boys in the section who are only attending high school to waste away time. Hon. Dr. Cody introduced the free high school in Ontario, and other governments since his day as Minister of Education have followed in his footsteps.

Dufferin Old Age Pensions Board met in the Court House, Orangeville, on Monday of this week, when they made a comprehensive survey of the situation in the County and ordered changes in the pensions list. There are between 185 and 190 persons receiving pensions in the County. Of this number the Board changed ninety-five, all of which were reduced. Seventy per cent. of these were dropped from \$20 per month to \$15, and thirty per cent. changed from \$15 per month to \$12.50. About \$400 per month is thus cut off the pensions in Dufferin by effecting this close scrutiny.

AUCTION SALE

OF FARM STOCK, IMPLEMENTS, HAY, GRAIN, ETC. ALSO THE FARM PROPERTY.

The undersigned has received instructions to sell by public auction at LOTS 21-22, REAR CONCESSION 6, MARKHAM, (South of Peach's Corners) on

SATURDAY, MARCH 19, 1932
The property of
ROBERT SMITH

School Children Nearly Drowned

WHITCHURCH WEST

Miss Roxy Marshel who was very ill with measles is recovering we are glad to report. The outbreak is about at an end here now.

Assessor J. P. Forester for the west half of Whitchurch is nearing the completion of his work. We understand all the young ladies of voting age will be placed on the roll this year—perhaps they are all on now, as it is said they have previously been assessed in this township.

Little Norman Nigh had a nasty fall resulting in a fractured arm.

Four little school girls had a narrow escape from drowning last Thursday as they ventured their way from the Mt. Pisgah school. Loretta Scholard, aged 8 years, Madeline Bell 7, Phyllis Allen 7, and Regina Scholard 5, were having a slide on the ice, which suddenly gave way with their combined weight. The first three mentioned were just able to wade out of the water, but little Regina Scholard was less fortunate, and was only saved from drowning by the timely assistance of her little brother Alfonso aged 9. The older children saved themselves by clinging to the fence. The water was deep enough to be up to the necks of the eldest of the lot. Kenneth Sabine aged 7, ran for help, but seeing that they were getting out, returned and took some of the party to his parent's home where dry clothing was provided. Others of the party ran for home a distance over a mile. None of the children are feeling any ill effects of their cold ducking, and narrow escape.
