Farmers' Information

Sow Thistle Decreasing
 At the annual convention of Kent County Wood Inspectors held recently at Chatham, several delegates reported sow thistle to be decreasing in extent, according to A. H. Martin, assistant director, Crops and Markets Branch, Provincial Department of Agriculture. Thomas Skinner, weed inspector for Camden Township, reported a 30 per cent. decrease of sow thistle in one year. Mr. Skinner says that this successful battle against sow thistle was brought about by the whole-hearted co-operation of the farmers and road superintendents with the weed inspector.

Control measures in Kent County, on small patches, consist of spraying with chemicals.

Care of Baby Chicks
 Proper care and management is essential to the successful raising of baby chicks. They should have a generous supply of pure water always available. Drinking vessels harbor germs and often the water will become contaminated and may spread disease through the entire flock. Then there is the danger of some infected chicks in every hatch, danger of diarrhoea in some form or other, loose bowel and intestinal trouble. Don't permit a few chicks to infect your entire flock.

X—X—X—X—X

March Weather
 The value of snow in protecting crops and providing a reserve of moisture for the spring and summer is recognized this year as never before. The entire province enjoyed open weather until the first of March, so open in fact that it roused apprehension as to the effect on certain crops. Reports were received from a number of agricultural representatives noting that damage was being done to clover and to fall wheat. Then came a heavy snowfall, providing the most desirable kind of blanket against sun, wind and frost. Growth cannot be expected for several weeks and in the meantime it is desirable that roots be protected. While fruit tree buds may suffer to some extent from the low temperature, any loss of this nature is likely to be balanced by the killing of insects that are stirred into too early activity. Several species, among them the San Jose Scale, have increased in numbers with the recent mild winters. Nature's method of control is a near zero weather

GOODWOOD

Miss Ida Latham of Toronto was home for the holiday.

Mrs. Glendenning of Orillia visited Mrs. Jos. Middleton at Easter time.

The secretary of our school, Collector D. McDonald is in Toronto for the trustees convention this week.

Miss Marion Reid of Lindsay, Mr. Harry Stedman of Toronto, also Madam Queen were visitors at J. Reid's for the holiday.

Jim Wagg has his sugar bush tapped and the evaporator in full swing. How about a taffy pull! The fun in this year is none too good.

With the local stores paying the farmers 13c a dozen for eggs, and 13c a bag for potatoes, the plight of the farmer who depends on these two crops is deplorable.

Mr. S. Byam had an auto load of visitors from Toronto who motored as far as here and left their auto in Wm. Todd's. They had a sleigh ride the rest of the journey.

We are glad to report Mrs. J. P. James somewhat improved from the attack of pneumonia, although not yet out of danger as her heart is very weak.

Mr. Geo. Todd is loading two cars of potatoes. The price of 13c a bag is received by the farmers, but Geo. will get mighty little more on the present demoralized market.

Mr. Thos. Dowsell took suddenly ill on Sunday. They sent for his daughter Mrs. Everett Watson of Greenbank who arrived on Monday. We are glad to report him much improved and expect he will soon be able to be out again.

The county plow came through from Uxbridge Saturday afternoon, and the snow was so hard to get out it broke the frame of the plow, which then had to be taken apart at the Latham Garage and repaired, then the outfit was moved to Uxbridge Tuesday on Mr. Robert White's truck. Now the roads are a mire of mud since Tuesday afternoon.

It was on a week ago Monday eve. That a few of our sports from town took leave.

To attend a bout in the city far Travelling in Jack Rae's sedan car. There was Walt, Perc, Reuben Jack and Harvey.

We had a "hunch" they wouldn't get back.

For weather must change And storms will come, And sure as you live They didn't get home For it stormed and blowed And drifted and snowed

And the car they forsook On the side of the road With fine clothes on

But with faces sour They hoofed her to town At the noon-tide hour All ready for dinner

But it might have been worse Had it happened at night. Now the best thing to do In the future we know Is to wait for the summer

And miss all the snow For J. F. our good agent Has promised to me. To wait for July His sweet heart to see.

And then if we're careful We'll all surely learn which direction he travels And what time he returns. Now won't that be funny Well we would say yes!

For and out we will If it does take some gas. For he's a good sport But so are we all.

And we think we will find out If it takes us till fall. But should he get married Ere that time is here.

We'll find some thing else For the rest of the year. To write into poems And add to our glee Now if you don't think so Just leave it to me

(Apologies Again)
