A. W. SCOTT

There are some young walnut trees, silver birch, maples and other varieties in the nursery grounds at the park and any citizen is welcome to help themselves to any of these trees if they wish to plant some out this spring. These trees were secured a few years ago when only a foot high, in the hopes that citizens would avail themselves of their use in a few years. They should be transplanted this spring, and there are many places in town where a tree would greatly improve the appearance of things. Let the slogan be, "plant a tree this spring."

## Farmers' Information

**Free Trees Available**  
Many farmers are taking advantage of the opportunity to secure trees from the Forestry Branch this spring for reforestation purposes. The former limit of 3,500 trees for one individual has been rescinded and the land owner can secure as many as he wishes for reforestation work. The limit of 500 trees for windbreak purposes still applies. The trees are sent out the latter part of April, so that interested farmers should act quickly. Write to the Forestry Branch, Parliament Buildings, Toronto, and secure an application form with the necessary instructions.

**Weekly Crop Report**  
Bruce County reports fall wheat to have come through the winter well, although showing some browning on top. Quite a percentage of clover in Elgin, particularly sweet clover, has heaved badly. About 35 per cent of cheese factories are running in Frontenac. Moore seed grains have been sown at the local cleaning plant in Grenville than ever before. Fall wheat and clovers are in good condition in Huron. Several southern counties report sales of dairy cattle to United States at good prices. Preparation for spring work is the order of business on most farms at present. All machinery is being repaired, with purchases of new equipment at a minimum. Eight carloads of agricultural limestone were brought into Peel County in the past year. A considerable number of hogs are being marketed in Peterborough. Sheep owners in Prince Edward report a splendid lamb crop. In Waterloo fall wheat, alfalfa and clover have come through the winter in good condition. Prices received for livestock generally are disappointing. Many orchards in Welland County are being pruned.

**Dairymen Organize**  
Eastern Ontario Dairymen producing milk for the manufacture of cheese recently organized a new association with the object of (1.) Working for the consolidation and amalgamation of present manufacturing plants and having these operated throughout the year instead of during the summer months; (2.) the establishment of storage facilities for cheese and to arrange for "a more equitable and up-to-date system of marketing"; (3.) to work for the elimination of duplication of milk and cream transportation costs; (4.) to improve the quality of the raw material supplied to cheese factories.

**Care of Hatching Eggs**  
This is the time of the year when the farmer with a good poultry flock finds hatching eggs in big demand. Too much care can not be exercised in culling eggs which are intended for hatching use. A metal bucket should not be used because the slightest contact with a hard surface may cause a check or crack in the shell. Straw or burlap gives protection. There should be plenty of nests available to the hens, from 12 to 15 nests per 100 birds. When culled, hatching eggs should be kept in a cool room. Germ growth starts at a temperature of 69 degrees and the room in which the eggs are kept until delivered to the hatchery should not be more than 50 to 60 degrees. Eggs should be delivered to the hatchery as soon after they are collected as possible.

**Clean the Henhouse**  
With the coming of spring the chicken-house should be cleaned thoroughly. Doubtless there are breeding places for lice and mites that should be routed out and destroyed before the warm weather comes to increase the pests by thousands. Firstly, remove all perches, nests, feeding hoppers, water containers and other movable equipment. Clean out all the litter and sweep the floor and walls to remove dust, cobwebs and other dirt. After the first job has been completed, the interior of the chicken house should be washed with hot, soapy water. A broom is a good tool for doing this task well and quickly. Spray the walls and floor with some good disinfectant. The house should be thoroughly dried and ventilated after the spraying before the chickens are allowed to enter.

**MONGOLIA**  
We heard of a very interesting meeting over on the 9th line which took place last week, and for something unique we think it "takes the cake" as the saying used to run. Mr. and Mrs. Ben. Widowsow one day last week celebrated their wedding anniversary day, it being their 44th. They entertained on that occasion guests from Toronto in the person of Mr. and Mrs. Spencer who were also celebrating their 44th wedding day. That's not all! Other guests present were Mr. and Mrs. Duncan and Mr. and Mrs. Webber of Toronto. This latter two couples were each celebrating their 19th wedding day. Now, if any one can surpass this for something out of the ordinary we want to hear from them right away.

## Miniature Flower Show

The Horticultural Society purpose holding an exhibition of daffodils, tulips, etc. when they are in their best bloom. The exhibit will be displayed in the windows of Shaw's Store. Will those possessing such bloom furnish to the president, secretary or one of the committee: Mrs. Nolan, Miss Eva Hoover, Miss Cora Wideman, H. W. Watson, the following information: 1. Your names of varieties. 2. The names of varieties, colours that you grow.

**DEPARTMENTAL EXAMS.**  
The time-table for the annual Departmental Examinations has been announced by the Department of Education. The Middle and Upper School exams. commence on Monday, June 20th; the Lower School on Thursday, June 23rd, and the Entrance examinations in the local High School will conclude on June 30th. As an economy measure, the department has decreased the pay for presiding officers as follows: H. S. exams.—Presiding Officer, \$12 to \$10; assistant, from \$9 to \$7.50. Entrance Exams.—Presiding Officer, \$9 to \$7.50; assistants, \$7 to \$5.50 per day.

**GOODWOOD**  
The L.O.L. 572 will meet in the hall on Monday night, April 18th, for new business.

Dr. Rawleigh Middleton still has plenty of medical dope to sell, when the roads clear up.

Our township council meets next Saturday April 16, with over \$2,000 of unpaid taxes to tinker about.

Mr. and Mrs. Banks of Mount Albert have moved into this village as Mr. Banks is working for Fred Baston.

Miss Gladys Wagg has gone to assist her aunt Mrs. Kendrick of Toronto who accidentally fell while papering.

We understand that Mr. W. T. Robinson who has farmed here for a number of years has handed the reins over to his son Fred, and daughter Louie.

This place was isolated on Sunday on account of muddy roads. Some motorists from Toronto and other distant points, got within a mile or two of Goodwood, then became fast in the mud. Some turned back, while some secured teams and were pulled through. Likewise the restless inhabitants had to stay at home.

H. Elson has moved from the late Jos. Alsop farm to the R. Rhodanz place, while Mr. Wilson has vacated it and gone to the Gourlie farm which was vacated by E. Mantle who has moved to the Wm. Whittleton's farm; D. Elliott who gave up farming last year on the second and took up Rawleigh Agency, at stayner, has returned to the farm he vacated a year ago. Talbot Bros. have rented the Alsop farm and Mr. Mortson has rented the Jackson farm vacated by Reg. Hopkins.

A fair young lady you all know All dressed in finest Calico, Walks in from the country side to shop, At the corner store she did stop, A shy young clerk he did take her eye Much more than anything she could say, She threw out hints that none could miss Save a shy, shy boy with ignorance bliss. 'Twas apparent she wanted company home Only this young clerk for her chaperone For the night was dark and the way quite dreary, My! my! what company for this sweet dearie, Still he hesitated and refused to go Although he longed for the lady so, But the road was mud and his shoes quite low So he last decided not to go.

The subscription rate for The Tribune is \$2 per year, and \$2.50 to United States points. The label on your paper indicates the expiring date of your subscription. See that your subscription renewal is attended to before the expiring date.

## Here and There

Forty British sportsmen will make up five parties which have arranged to fish trout and salmon on the Miramichi River, N.B., during 1932, according to announcement by the provincial director of information and tourist travel.

Canada shipped more than 5,000,000 pairs of rubber and rubber-soled boots and shoes valued at approximately \$4,408,100 to more than 80 countries during 1931, according to information given out by the Dominion Department of Trade and Commerce.

Travelling Canadian Pacific across the Dominion from Detroit and visiting Niagara Falls, Toronto, Ottawa, Montreal and Saint John prior to sailing by S.S. Melita for their home countries, eight European Ford Motor dealers were lavishly entertained at all cities they stopped at.

S.S. Montclare, the ship that inaugurated Canadian Pacific ocean passenger service at Halifax this winter after a lapse of twenty years, sailed the port with a shrill blast of her whistle Good Friday evening when she ended her last visit to Maritime ports for the 1931-1932 season.

Scotland will send an official Trade Mission ship to Canada this spring with a view to developing closer business relations with the Dominion. Over a hundred Scottish firms have already booked space on the ship which has been fitted out for the purpose by the Corporation of Glasgow.

Her Majesty, Queen Mary, and her two sons, the Duke of York and Prince George, showed great interest in the Canadian Industries Fair at Olympia, London, on the occasion of their visit. The Royal party was received by Hon. G. Howard Ferguson, High Commissioner for Canada.

The highest Canadian mountain ski ascent was made in March when Russell H. Bennett of Minneapolis, Clifford White of Banff, and Joe Weiss of Banff, accomplished the unprecedented feat of climbing to the peak of the Snow Dome, centre of the vast Columbia ice fields. The peak is over 11,000 feet above sea level.

Bargain rates are forecast for western lines of the Canadian Pacific Railway, said C. E. Foster, passenger traffic manager of the railway, on his recent arrival in Winnipeg after an official visit to the Pacific Coast. The successful experiment in popular low rates excursions in Eastern Canada this year has invited consideration of extension of the project to the West, he added.
