TOWN DELIVERY

You Pay Less For More.

RE-SALE

Depot—Lowest Prices

Our policy is such that we can AFFORD to sell used cars for just what they're worth in unused mileage. The value of the new Model Ford is so high—so close to the cost of production—that we have no leeway for making excessive trade-in allowances when we accept used cars in trade. Thus when we resell a used car, we have no incentive to mark up the price to save us from taking a loss. When you buy a used car from us, you pay for the miles of unused transportation in it—FOR ITS ACTUAL WORTH—and nothing else.

SOME UNUSUAL BARGAINS IN USED CARS

Ford Sport Roadster, 1930	Essex Coach 1928
Ford Tudor 1929	Durant Touring 1925
Ford Light Delivery, 1929	McLaughlin Tg. 1923
Dodge Light Delivery 1928	Maxwell Touring 1921
Roosevelt Sedan, 1929	Fordson Tractor 1928

A number of Trucks and other used cars all at a very low price and easy terms arranged.

Notes and Comments

The plan to issue new currency in Canada, of the same size as the present U.S.A. money, is still in the tentative stage. Before such a change can be effected, it will be necessary for the government and the banks to agree on a definite policy in the matter. It is believed that the government is in no haste to effect the proposed issue as there is a supply of the present notes on hand and the contract with the bank note companies to make the present bills does not expire until 1934. The banks also have supplies of their present notes which will last for some time, and two banks have only recently commenced the issue of a new series.

PARTY POLITICS

(Simcoe Reformer)

Partisanship was never so rampant as at the present time. Leaders of the two parties at Ottawa never before displayed such bitterness in their attacks upon one another. Surely this does not represent the condition of political affairs in Canada today. It is no indication certainly of the mind of the average citizen. He desires, above all, to see a return to more prosperous business conditions in Canada. He realizes that this can only come by forgetting partisan politics and by the uniting of all parties in a supreme and determined effort to lift the country from its morass of debt and taxation. Instead, the citizen sees the politicians at Ottawa engaged in picayune quarrels and meaningless debates. Beauharnois remains a sorry blot on the political escutcheon, the railways go deeper into debt with the passing of every hour and the prices of farm produce drop to unprecedented levels. Meanwhile, the legislators pour millions of words into Hansard and extract millions of dollars from the helpless taxpayer.

PRIZES TO AID BARLEY GROWERS

Minister of Agriculture Announces Donation for Competition

Hon. T. L. Kennedy, Minister of Agriculture, announced last week a donation of \$2,500 from the Brewers-Warehousing Co. to be applied as cash prizes to Ontario farmers growing the best seed or malting barley.

Combined field crop and threshed seed competition will be held four in eastern and four in western Ontario. To each contest will be allotted \$105. At 50 fall fairs will be offered cash prizes of \$10, \$5 and \$3; \$900 in all. Through four of the largest spring seed fairs is too be allotted \$25 each and a handsome tray, and \$18 each to the smaller fairs.

"In addition to these cash prizes," Col. Kennedy says "the department is seeking an opening in the British market for Ontario barley in the hope of displacing California barley, of which 22,000,000 bushels each year are imported into the Old Country."

Ontario yearly consumption of malting barley is about 25,500,000 bushels.

Explaining the object of the competition, Fred Isard, general manager of the Warehousing Co., said that only the best of barley can be used in the brewing industry, and the hope in that these prizes will encourage Ontario farmers to improve their product, secure the home market for themselves and give support to the efforts of the Department of Agriculture to obtain a foothold in Great Britain.

GET READY FOR THE TOURIST TRAFFIC

While spring has only just arrived and there is still a tang of frost in the air in the morning, nevertheless the time is not far distant when there will be a coming of the visitors from the United States to Ontario, and they will be here as usual in large numbers. Those license plates from Michigan, New York, Ohio and Pennsylvania, and from other states are always welcome sights to the people of Ontario for it means increased business all along the line, and it is a business we should not fail to cultivate to the limit.

It has been truly said the touring has become one of Canada's greatest industries, that the \$250,000,000 spent in the Dominion by visitors from the neighboring republic last year exceeded by many millions of dollars the value of wheat and flour exports on which Canadians so dependently lean.

It will be the wish of everybody that our American cousins receive full value for their expenditures, and leaving at the expiration of their vacations, take back with them the urge to come again and to tell their friends of the scenic delights and the sociability which Canada has to offer those who visit her. Therefore, much will depend on the manner in which they were treated when last here whether they will come back, and whether they will induce their friends to come. Our individual contacts count for much in this matter. We should be courteous, even go out of our way to please, to freely give information, to make our cities and towns as presentable as possible and to welcome them in our parks and our tourist

camp. Canadians want more than the money of our American visitors they want their friendship and their good-will and to get better acquainted with them.

Examination Fees

A school board up in Bruce County sent in a protest to the Minister of Education for this province against the increased fee to \$1.50 to be charged pupils for writing on the High School examinations. The old fee was \$1. The Minister makes an interesting reply, but he failed to point out that hundreds of teachers are employed in the holiday season at FAT salaries reading papers, which chiefly accounts for the province being out \$250,000 on the examinations last year.

So far as this paper is concerned we think that pupils should bear the whole cost direct for these examinations. Free schooling until the child has passed the entrance, after which the privilege should be discontinued, is what we stand for. But getting back to the Minister of Education, here is what he says concerning the reason for increased examination fees:

"I am directed by the Minister of Education to acknowledge your letter of the 14th, instant, enclosing a copy of a resolution passed by the Chesley High School Board, and in reply to state that the number of candidates writing the Departmental examinations has so increased that last year the cost to the Department of Education, after deducting the amount received in fees, exceeded \$250,000. Many who do not require certificates choose to write. It does not seem to be fully understood that only students who are proceeding to the universities or institutions of higher education need Departmental certificates. Students who desire a general High School education only may be promoted from form to form throughout their entire school career without writing a single Departmental examination.

For students who require certificates the Department has sought to ease the examination burden. In the first place provision has been made for local High School Entrance Boards to accept teachers' recommendations in lieu of the High School Entrance examinations; then Lower School pupils attending High or Continuation schools are granted certificates when they have done good work throughout the year and are recommended by their teachers. This year the Minister has further extended this privilege of securing certificates without examinations so that next summer Middle School students of regularly inspected schools who have completed the year's work in a subject and are rated at 66 per cent by their teachers will be granted certificates on their year's work without examination. The remaining candidates are pupils of the Upper School and pupils of the Lower and Middle Schools who, for the most part, are not thought fit to pass the examinations, or who have not taken a high standing on their year's work. It would seem reasonable that these students should pay a larger share of the actual examination costs. You are doubtless aware that 40 per cent of the fees collected from candidates at each centre is handed over directly to the local school board.

A. H. U. Colquhoun,
Deputy Minister of Education
