**Ford Re-SALE Depot—Lowest Prices**

Our policy is such that we can AFFORD to sell used cars for just what they're worth in unused mileage. The value of the new Model Ford is so high—so close to the cost of production—that we have no leeway for making excessive trade-in allowances when we accept used cars in trade. Thus when we resell a used car, we have no incentive to mark up the price to save us from taking a loss. When you buy a used car from us, you pay for the miles of unused transportation in it—FOR ITS ACTUAL WORTH—and nothing else.

**SOME UNUSUAL BARGAINS IN USED CARS**

1 Ford Coach, 1929	3 Ford Coaches, 1930
1 Ford Coach, 1928	1 Ford 1/2 Ton Truck, 1929
1 Roosevelt Sedan, 1929	
1 Essex Coach, 1928	Also a number of other good used cars
1 Fordson Tractor, 1928	

A number of Trucks and other used cars all at a very low price and easy terms arranged.

**Notes and Comments**

The M.P.'s and Seniors have been paid their seasonal indemnity of \$4,000 each, less 10%, and will be back home this week to rest 'till the special session after the Imperial Economic Conference when they will get another handsome contribution that will more than offset the 10% reduction. Our 245 elected members and 96 drones cost this country a lot of money. Truly we are greatly over-governed.

It is seldom that an election gives such happy results as the polls indicated in West York last Saturday when Harry Price was elected to the provincial seat as the Conservative candidate to fill the vacancy caused by the death of Hon. Forbes Godfrey. This Tory stronghold which could roll up 2500 of a majority mustered 911 for the government in the election. W.J. Gardhouse the Liberal candidate while defeated takes real satisfaction out of the fact that the total vote against the government was much larger than for the Henry administration. There was also a labor and socialist candidate in the field which no doubt accounted for the win for Mr. Price.

Results:—  
Price—6,715  
Gardhouse—5,804  
Buckly (labor)—3,788  
Reid (socialist) 102

**ANOTHER SCANDAL**

This time it is in Quebec, the native rearing place of most of Canada's public scandals. It happens to be this time the Montreal Bridge that costs the dominion more than half a million yearly. Estimated to cost \$6,000,000 this structure cost over \$19,000,000 and about that Mr. Bennett refused to have an investigation because he thinks it would result in more mud-slinging. Well, if people play about in the hog-trough, it is their own fault if mud is thrown even though it does not do much good afterwards. One particularly stupid thing about the deal was that the guarantee by the dominion applies to payment in American currency and that item alone costs us to the tune of 150,000 dollars. Fine financiers we have in dominion affairs, or have had when that deal

**Looking Backward**  
From Tribune Files of 1895  
MR. H. JOHNSON

(How many of our citizens remember "Hi" Johnson? Well, let's learn of this former citizen by reading this article written 37 years ago. Mr. Johnson owned and occupied the A. S. Collins' residence on Main street, east.)

Reeve Johnson, of U. E. Loyalist stock, was born in 1844 in the Township of Markham on the old homestead, the birthplace of his father. His grandfather, born in the County of Frontenac, made an exploring tour from his native place to the primeval forests of York as early as 1806, and settled on the farm in Markham in the year 1809. The three generations have seen the country develop from a dense wilderness to the beautiful, cultivated country of to-day. Mr. Johnson spent his first eighteen years on the old farm, and since leaving the homestead has devoted his time principally to mercantile interests. For the past twelve years he has been a resident of Stouffville, engaged in the grocery and bakery business. Mr. Johnson does not carry on a "one-horse" trade, for it requires three horses to deliver bread to his numerous customers. He also does a considerable wholesale business in confectionery and biscuits. For twenty years Mr. Johnson has energetically served the community in various ways. In 1875 he was made a Justice of the Peace, and in the following year received the appointment of Commissioner for taking affidavits in the High Courts, and also as Notary Public for the Province. H. Johnson sat at the Council Board for three years, and is now acceptably serving his second year as Reeve. For a number of years he has been a director of the Whitechurch Agricultural Society and has for some time held the office of Secretary-Treasurer, and is at the present time Secretary of the Stouffville Creamery Company. He is a prominent member of a number of the fraternal societies of the town. In his municipal as well as in his social and business life Mr. Reeve is held in high esteem by the citizens of Stouffville.

**TELEVISION ARRIVES IN SPITE OF THE EXPERTS**  
(Toronto Telegram)

On June 1st television will throw on a twelvefoot screen in a London theatre the running of the Derby at Epsom Downs. Two thousand people will watch the contest as it is staged sixteen miles away.

The announcement is of interest in view of Sir John Aird's warning to the Canadian Government to go slow in the investment in radio plants which may soon become obsolete, a warning which had already been offered by The Evening Telegram. It is of equal import with regard to the Government purchase of existing private equipment which with the coming of television will be hopelessly out of date and valueless.

When Sir John Aird's warning was given it was pooh-poohed by those who were interested in rushing through the measure which provides for expropriation of privately owned plants. Interviews were sought with "eminent engineers" who were quoted as saying that television just doesn't exist, and that it may take years before it is practicable, if it ever becomes so.

It now appears that television is within the range of practicability. The present is obviously just the wrong time for the Canadian Government to launch upon an extravagant purchasing of radio plants. It would be well for the Government to give heed to the warnings which have been presented to it.

**CENTENARY OF AN IDEA**

This year marks the 100th anniversary of an incident which led to the invention of the telegraph, although it was not until four years later that a workable instrument was produced. On October 1, 1832 Samuel F. B. Morse, a painter who had been studying the old masters in Europe, sailed from Havre, France, for New York. On the voyage he discussed with fellow passengers the properties of the electro-magnet and the famous discovery of electro-magnetic induction by Faraday the year before. As a result, he got the idea that signals might be transmitted by means of electric sparks, and while still on shipboard he made rough drafts of the necessary apparatus, which he showed to his companions. It was not until 1836, however, that he completed an instrument that would work. After many discouragements he finally succeeded in getting the government to build a telegraph line between Baltimore and Washington, which was used for the first time on May 24, 1844, to send the now historic message, "What hath God wrought?" From that time on the spread of telegraph lines was rapid, and Morse was acclaimed by the world as a benefactor of mankind. He received the highest honors from other countries as well as his own, and in 1858 ten European nations joined in an appropriation of \$80,000 in recognition of the benefits conferred by his invention. Morse died April 2, 1872, in New York, where a bronze statue in his honor was erected in Central Park.

**THE HELL OF IT**

The York County Post remarked last week, and justly so:—"On Wednesday morning we were casually informed by a father that his children were not able to attend school because of lack of food and clothes. We are informed that school boards have ceased to give free milk during school hours, just at a time when it is most needed. No one can contemplate without indignation the glaring contrast between the extravagance of opening Government House for the Bessboroughs during the Races; the orgy of graft in high places that runs into millions and the "economy" measures forced on the poor and needy by our council and governments. It was over much less than these things that Isaiah and Micah hurled their thunders long ago. If the Major Prophets lived today, they would get a free deportation ticket, if not jail. Prophets are not popular now-a-days: only profits are in high favour!"

Hear the Wideman Quartette at the Anniversary Service hear on Sunday evening.

Dr. and Mrs. Frank Canning of Toronto spent Sunday with Mrs. M. Canning and Mr. Hugh.

We are real sorry to hear that our minister and his family are leaving this August.

Attend the supper in the United Church, on Monday evening, June 6. A special programme is provided after the supper.

Mr. and Mrs. Crawford Macklem and daughter Miss Nora, accompanied Miss Seynitha Cook and Gordon Lemon, to the funeral on Saturday, of Miss Betty Davis, 13 year old daughter of Mr. and Mrs. Elwood Davis, at Newmarket.

Mrs. W. B. Sanders of Hollywood, California, spent the weekend with Mrs. M. Cook, Mr. and Mrs. Mel. Moore and daughter of Toronto also spent Sunday at the Cook house.

The funeral of an old resident of this part of Whitechurch took place to Baker Hill Cemetery, on the 8th concession on Friday, last, when the mortal remains of Ella Paradine were laid to rest there. She was a daughter of the late William Musselman, a widely known farmer in his day. Mrs. Paradine who was twice married is survived by two daughters, as well as her second husband. She left here quite a few years ago and her death took place in St. Michael's hospital, Toronto. At the funeral were several ladies who were school chums of the deceased.
