TOWN DELIVERY You Pay Less For More.

# Ford Re-SALE Depot—Lowest Prices

Our policy is such that we can AFFORD to sell used cars for just what they're worth in unused mileage. The value of the new Model Ford is so high—so close to the cost of production—that we have no leeway for making excessive trade-in allowances when we accept used cars in trade. Thus when we resell a used car, we have no incentive to mark up the price to save us from taking a loss. When you buy a used car from us, you pay for the miles of unused transportation in it—FOR ITS ACTUAL WORTH—and nothing else.

- SOME UNUSUAL BARGAINS IN USED CARS
- 1 Ford Coach, ..... 1929 3 Ford Coaches ..... 1930
  - 1 Ford Coach ..... 1928 1 Ford ½ Ton Truck ..... 1929
  - 1 Roosevelt Sedan ..... 1929
  - 1 Essex Coach ..... 1928 Also a number of other good used
  - 1 Fordson Tractor ..... 1928 Cars
- A number of Trucks and other used cars all at a very low price and easy terms arranged.

Mr. and Mrs. Stanley Topham motored to St. Catharines to visit his sister, Mrs. H. Overbrough and report the cherries are very plentiful

## Notes and Comments

Twenty-one British girls have arrived from the Old Country to do missionary work in Western Canada. If they are fair to look on, it will not be hard for those bachelor farmers out there to embrace christianity.

Premier Henry is being severely criticised for soaking the High School pupils \$1.50 per paper that they wished to write on at the recent middle and upper school examinations. The Tribune has no quarrel with the premier in making those who write pay the full cost, which the premier says stands at \$1.52 per paper. What tax payers are disgusted with the premier over is the fact that it should cost any such sum as \$1.52 to conduct these examinations. Why didn't Premier Henry reduce the cost of reading and correcting these papers, then they would have been no need for an increase. High School teachers who are drawing \$200 to \$300 per month will get an extra job this month and next on correcting papers at a cost of \$12 per day. In addition to receiving their salaries for June these teachers drawn down \$12 per day reading examination papers six hours per day. It's for paying such outrageous sums to teachers in times like these that he should be taken to task.

There are many persons who contend—and with no little argument on their side—that all education past the public school should be paid for by those, or by the parents or guardians of those, who receive it.

This school of thought says that the public at large should not be expected to meet the cost of supplying high school and college education to boys and girls that higher education is a luxury and not the duty of the state to provide.

We think there is a good deal to be said for this point of view and it should be kept in mind when anyone feels like being critical of the relatively small fee charged at examination time. — Border Cities' Star.

### CLAREMONT

Mr. and Mrs. E. D. Sharpe, of Sheridan, Wyoming, came in their aeroplane last week to visit Mrs. Sharpe's father, George Tran, of Atha, and other members of the family living at Claremont and Markham. While here they took a number of their relatives and friends for their first trip in the air. On Saturday the aeroplane circled low over Claremont for some time. The Bowling Club held their first tournament on Friday evening of last week. The weather was ideal. Twelve teams entered for the prizes, which were awarded on points, no more than eighteen points to count on any one game. Mr. Rae, of Stouffville, won first with a score of 42 points. Mr. M. Watt, of Stouffville, second, with 41 points, and Mr. Burns, Markham, third, with 35 points. The club was congratulated upon having such a splendid green.

## ON TO OTTAWA—A CHANCE TO HELP YOURSELF AND SERVE CANADA

(The Canadian Countryman)

The Imperial Economic Conference convenes at Ottawa on July 21. At this conference decisions will be arrived at that will be of the very greatest importance to this country. If they are the wrong ones, then the people of Canada will have to face a situation in which conditions will be infinitely worse than they are at present. If they are the right ones, then it can be predicted with confidence that the conference will mark the turning point in a return to better times.

Agriculture is the basic industry of this country. Unless agriculture is prosperous, other industries cannot be prosperous. It is, therefore, all-important that the welfare of Canadian agriculture be the primary consideration of the Canadian delegates at the conference.

Up until the present the Federal Government has had no intimation from agriculture as to what line of policy it wants it to follow. Other industries have been in close touch with the government for months past, but so far the voice of the greatest industry of all has not been heard from. This being so, it is feared that Canadian agriculture will receive but scant consideration and that a policy may be pursued under these circumstances of putting first things last and last things first, which will result in bitter disappointment. It is obviously of paramount importance that such a thing be prevented, and the question is, What are farmers going to do about it?

That great Canadian statesman, Sir John A. Macdonald, once said that farmers ask for nothing and get nothing from governments. This is only too true. Farmers have asked for nothing from the present government, and they have got nothing. The blame for this, it must be said in all fairness, rests not with the government, but on farmers themselves. If the Imperial Conference is to be the success everybody hopes it will be, farmers must be heard from in no uncertain manner.

In order to give the farmers of Ontario, Quebec and other provinces this opportunity, the Educational Secretary of the United Farmers of Ontario is arranging for a deputa- tion of farmers to wait on Premier Bennett and his colleagues and indicate to them what they want done at the coming conference. This meeting will take place a week before the conference opens. The conference opens on July 21, and present plans are that this meeting will take place on July 16. This would mean that farmers living in Western Ontario could leave home on Friday evening, be in Ottawa on Saturday for the meeting and get home again on Sunday morning. In this way only one day would be lost.

We have been asked to give publicity to this matter, and we are happy to do so. The only justification for the existence of Canadian Countryman is to serve farmers, and we are, therefore, glad to support any movement, plan or policy that will result in a betterment of farm conditions. We would urge as many of our readers as possible to make arrangements to be present at this meeting. The greater the number of farmers who go to Ottawa the more certain it is that the meeting with the Prime Minister will result in something really worth while being done at the Imperial Conference to improve the financial condition of agriculture.

There is no reason why the ladies should be left behind. Go to Ottawa yourself and take your wife with you. The meeting will only take up an hour or two, and you will have the rest of the day to see the sights of the Capital City. It will be a case of combining business with pleasure.

We assume that those who are arranging this meeting will have the co-operation of the railways to the fullest possible extent, as the railways undoubtedly realize that their success depends on the welfare of agriculture. The railways have been putting on excursions recently from Toronto to Montreal. The ordinary return fare from Toronto to Montreal is \$20.70. The excursion return fare has been \$5. The ordinary return fare from Toronto to Ottawa is \$15.30, so on this basis the railways should be willing to give farmers a return fare of around \$4 from Toronto to Ottawa, with a corresponding reduction from other points.

In order to facilitate matters, it is desirable that those who intend to take advantage of this opportunity write a letter or post-card to Educational Secretary of the U.F.O. telling him that they will be there. Address your communication to the Educational Secretary, United Farmers of Ontario, 28 Duke Street, Toronto, Ontario and indicate how many there will be in your party, and whether you will be going to Ottawa by train or by automobile. This should be done as soon as possible.

We may say that this "On to Ottawa" movement has nothing political about it. It is being organized because it is felt that there is a job to be done for the farmers of this country that must be done, and done adequately, if the standard of living not only on our farms but in our cities is to be maintained at the

level it should be.

Success depends entirely on you, dear reader, and on other farmers. If you and your neighbors spend your time in thinking up excuses as to why you should not go to Ottawa then it is quite probable that nothing worth while will be done. If, however, you and your neighbors think up reasons why you should go to Ottawa and you go, then success is assured.

## DO YOU REMEMBER ?

(Tribune Files 1895)

W. B. Wurts died in Stouffville, about seven years ago, at which time he was made enjoying life as a retired citizen. Mr. James Ratcliff is administering the estate, and his widow is a frequent visitor to the old town, being here just last week. Mrs. Wurts lives mostly with her daughter Mrs. Galloway of Mimico.

The late J. B. Wurts came to Stouffville way back in 1879 or sixty-two years ago before the village was incorporated. Here is what the Stouffville Free Press writes of this citizen in 1895 or 37 years ago, giving a glimpse of what J. B. Wurts was to the village at that time.

The Free Press says:—"Elias Wurts was one of the pioneers of Markham Township. He came from Pennsylvania in the early part of the century and settled on the farm on the tenth line. His son, Mr. J. B. Wurts, first came to Stouffville twenty-two years ago. He began his second term of residence here in 1889, and only five years ago began the baking business. He has within that period developed a large trade. From twelve to fifteen barrels of flour per week are needed to supply his numerous customers, and his trade extends to more than a dozen surrounding villages. This large building, thirty by sixty feet, which Mr. Wurts recently erected for the convenience of his business is quite complete, and is covered with iron roof and metallic siding. The bake shop, oven and bakers' rooms are all under this roof. Mr. Wurts also supplies all the small goods of the trade—wedding and other cakes and confectionery. Ice cream and oysters are supplied in season. In addition to this regular business, Mr. Wurts also conducts a flourishing coopering business. He has put out several thousand barrels this autumn and has large orders ahead. With the increase of the apple-shipping trade this part of his business must also increase."
