### Farmers' Information

In a recent address, Hon. T. L. Kennedy advised cattle breeders to look well ahead if they wanted to be successful in the future. He pointed out that disease-free cattle are proving the wisdom of their owners by bringing the highest prices paid. He stated that one breeder who followed this lead does not know that there is an economic depression.

### Ontario Farm Organizations Show Large Annual Turnover

Figures from the Federal Agricultural Economics Branch reveal that during the past year 42 Ontario farmers' co-operatives, embracing nearly 28,000 members, did an average yearly business per member means represent all of the co-operative effort in the province. It does tend to show, however, that farmers are uniting in their efforts to keep in business. The sixteen million and a half dollars worth of business conducted by those included in the above figures represents sales of live stock, wool, dairy products, poultry products, fruit and vegetables, seed and grain and miscellaneous products and the purchase for resale to members of such articles as machinery, feed, fertilizers, twine and other equipment.

### Live Stock Shipments

For some time rumors had reached the Provincial Department of Agriculture suggesting unfair practices by certain truckers carrying live stock. This became so insistent, a quiet investigation was made by G. Duncan, Ontario Marketing Board, to ascertain actual conditions with the result that the occurrences complained of, instead of being isolated and far apart, were found to be rather general in a large section of the province. Farmers have been defrauded of sums varying from \$20 to \$450 in one transaction. The common method of duping farmers is by truckers issuing worthless checks. Another is to retain various sums ranging from \$20 to \$100 from the proceeds of the day's sale of live stock. Excuses offered by truckers, in these instances are many, the most common being that the stock has not been sold, or that the money was needed for repairs to the truck and always the promise is made to pay the balance the following week. Several instances of this "promise to pay" have extended from 1930 to the present date.

These conditions reflect on the legitimate trucker who, in most cases, is unaware of this serious menace to his business. Usually the first move is to cut rates per 100 pounds of cattle shipped in order to increase volume. Eventually these reduced rates become less than the cost of operating and then piling commences. Farmers would be well advised to employ only truckers who are known to be reliable.

### Current Crop Report

Wellington County representative reports that some of the real early winter-hatched breeding station pullets are laying now, months and months earlier than farmers thought possible 10 years ago. By the studying of well-balanced feed rations, farmers are making steady advance in Wellington. Lack of rain throughout the month of June resulted in a short strawberry crop and adversely affected the growth of most crops. Essex, Lambton and other counties report splendid prospects for the fall wheat crop, although in some districts serious lodging has taken place and smut is prevalent. Cutting of alfalfa and sweet clover was general the latter part of June. Hay will be a light crop in many districts, especially in the eastern counties and in the north.

### The British Market

Regardless of what may happen at the Imperial Economic Conference at Ottawa this month such measure of tariff protection as Great Britain has already adopted should benefit Ontario agricultural production very largely, said Mr. W. B. Somerset, chairman of the Ontario Marketing Board, who has just returned from a trip to Great Britain. England has made a tremendous response to the "buy British" campaign, especially since the difficulties of last fall which resulted in her abandoning the gold standard. This sentiment alone is a very real asset, and Mr. Somerset declared himself amazed at the changed attitude on the part of the British importing trade which he says is the direct result of a demand on the consumer that he be supplied with British or Empire produce.

It was particularly with reference to improved export conditions of Ontario agricultural products that the chairman of the Ontario Marketing Board made his recent trip to Great Britain and Mr. Somerset declared himself extremely well satisfied with the result of his visit. The happy experience of the Ontario in extending and improving its exports of apples was said by Mr. Somerset to be quite possible of extension to nearly all other lines of farm products including live stock, cheese and other dairy products, fruit, honey, tobacco, barley and other grains and seeds.

### Here and There

Four guests at the French River Chalet Bungalow Camp recently brought in four muskies totalling 72 pounds, of which the largest weighed 26 lbs. and the smallest twelve. Fishing at this popular resort is most successful this season, and there will be keen competition for the Canadian Pacific trophy.

### Native Sons of Glasgow enroute to the big Convention of their Association at the Scottish city

have been travelling across Canada via Canadian Pacific Railway from Victoria and points in Western Canada, Ontario and Quebec, for the sailing of the "Duchess of Bedford". Members will gather from all over the world for a monster celebration July 15-22.

John Findlay, who is by way of being the all time big game hunter of the world, arrived at Vancouver recently aboard the "Empress of Russia", enroute to England "for a little rest". He adds to his big game hunting the disciplining of Malay head-hunters, who disregard the white man's laws. "One raid we made," said Mr. Findlay, "left a trail of twenty dead men."

Canadian Pacific low rate bargain return trips, which have been a very successful feature of the company's operation this year, will include one to the Maritime Provinces July 22, when Nova Scotia and New Brunswick will be covered in round trips to take in most of the show places in the two provinces. The trip will be varied by a sea passage in the fast new steamship "Princess Helene" across the Bay of Fundy to the Land of Evangeline.

A hole-in-one, though rare, is not unique, but when it is made by a lady and for the first time on the course it rates a headline. This was done by Mrs. Guy LaPraik on the 150-yard par three hole at the Canadian Pacific Recreation Club course at Sorin near Montreal recently.

Favorable development of this year's crop on the prairie provinces is noted by the Canadian Pacific Railway's weekly report issued recently by the Agricultural Department in Winnipeg. Most of the wheat in Manitoba and Eastern Saskatchewan is headed at an average height of two feet, and elsewhere ranges between advanced shot blade to headed stage. Fall loss has been only local and in scattered districts.

Bob Davis, roving columnist of the New York Sun, and probably the most travelled newspaperman in the world, has been staying at the Banff Springs Hotel on his way back from Hawaii, accompanied by Mrs. Davis. Mr. Davis has a flair for the unusual, and will likely unearth a wealth of good material for his column among the old timers of the Rockies.

Taxation comparisons in connection with motor vehicles and railroads should take into consideration that the railways pay for their own roadway, and also to some extent for the roadway used by their motor vehicle competitors, says the "Traffic World". This brings in the question of how much the motor vehicles should pay for the highways and whether they are doing it.

Interpreting current business conditions in the light of his contact with the heads of many of the big business concerns in this country, Alex F. Osborn, vice-president of Baten, Barton, Darstine & Osborn, Inc., advertising firm, believes the low point in commodity prices has been reached and expects a slight upturn soon.

"In my contacts with the heads of big businesses," Mr. Osborn said, "I find a growing sentiment that we are just about at the time when we ought to buy against the future."

VICTOR HUGO

"If you cannot find a friend in a crowd, be sure that in a lonely place you will find one."

There are times when we all need an assistance equipment with ability, authority, and fairness.

### GOODWOOD

Mr. Paul and Robt. Harden of New Lowell are visiting friends here. Mrs. J. G. Holman of Parry Sound is visiting her mother Mrs. S. Ottowell.

Miss Jessie Harper of Orilla is visiting her parents Mr. and Mrs. Chas. Harper.

Rev. Geo. Barry and wife have returned home after spending a couple of weeks on Manitoulin Island.

The Toronto Committee of the Goodwood Cemetery Board wish to express their appreciation to the speakers, the orchestra and the many friends who on Sunday last turned out to make the Decoration Day service such a success.

Mr. D. McDonald and wife also Mr. Charles Feasby and wife returned home Friday night after having a very pleasant trip to Kingston representing the A.F. & A.M. Lodge of Stouffville and Uxbridge at Grand Lodge, Kingston. They had a motor trip through part of the United States and the Thousand Islands.

At the Sunday school service of the United Church on Sunday last some twelve visitors were present with a large attendance of the school. Mr. Walter Davey formerly a Goodwood boy addressed the school. Mr. Davey spoke of the pleasure of coming back to the home of his boyhood days, and being present at the school after thirty five years. He attended the Sunday School in Goodwood that long ago, and on this day had the pleasure of seeing some who at his time were then carrying on. Mr. Davey, a member of the Cemetery Board, spoke of some forty Goodwood families now living in the city which the Toronto Committee keep in touch with from time to time. Through Mr. Davey's work the speaker at the Decoration Service was secured. Anyone hearing Mr. Bluelman's address certainly enjoyed a treat. Mr. Clarence Naylor, Chairman of the Toronto Committee had charge of musical part of the service.

On Sunday last one of the largest gatherings yet seen was present at the Cemetery Decoration service. It was an ideal day and the grounds looking their best with gorgeous flowers placed here and there on the graves of the loved one who have passed beyond. The Cemetery Board had erected a large platform with some twenty five of an orchestra to supply the music.

Thomas Dowswell president, as chairman opened the service. The Baptist minister led with prayer. Rev. Mr. Kendall, Rev. Mr. Barry all ministers of the district spoke. The address was given by Mr. Vaughan Bluelman of Toronto, also Dr. Kaiser of Oshawa. Mr. Bluelman (only a young man of twenty years) made a most appropriate address which was very favorably commented on. Dr. Kaiser advised the people on the necessity of cemetery care. This address was very much appreciated. Some eighty or ninety people from Toronto motored out. Some faces not seen here for thirty years or more. These people are now living in different parts of Ontario, but they came back to be greeted by their friends. The Cemetery Board and Toronto Committee were more than pleased to see that after all their labor the people appreciated. Thus they feel encouraged to go forward and each year make improvements which will show that the Goodwood Cemetery will be one of the best in the province. Noticeable were the faces of some of the residents of the past who once more returned to the home village. Mr. John McCullough K. C., one of the hon. members of the board, Robt. and Oscar Armstrong, Miss Sarah Collins, Miss Davey, Mr. P. H. Davey of the T.T.C. Commission, Toronto, Mrs. P. LaFragh, Mr. Robt. Brown and wife of Stouffville, Mr. George Dowswell and wife of Stouffville and many more. The members of the board were noticeable by their badges. Hon. members, Isaac Wagg, John McCullough, K. C., Pres. Thos. Dowswell, secretary, D. McDonald with Messrs Ted Wagg, Alex Brown Mr. Clarence Mayor, Geo. Lee, and Walter Davey Toronto.

### A WARNING to Silyertown Safety League Members

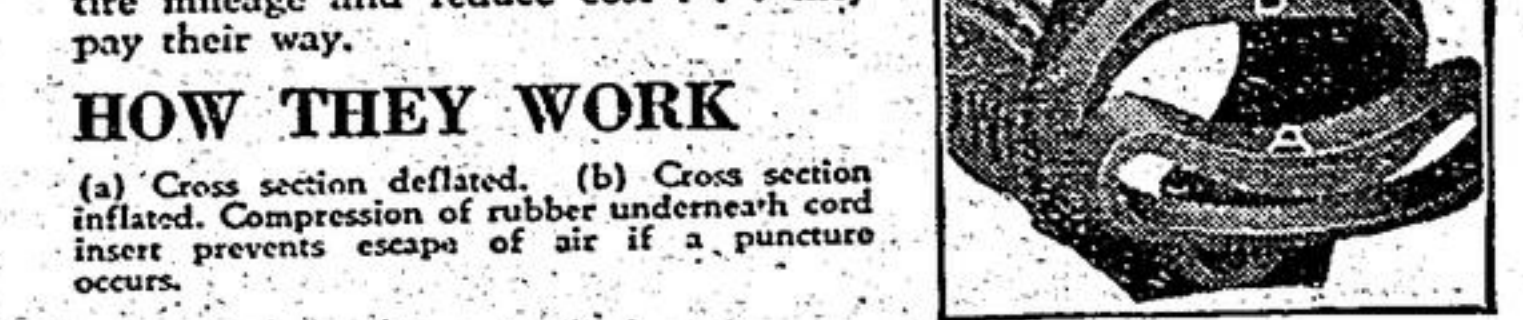

### TIRE BLOWOUTS RESULT IN MANY WRECKS LIKE THIS

Silyertown Safety League members have pledged themselves to drive carefully, in a determined effort to reduce the terrifying number of deaths and injuries resulting from automobile accidents.

### BUT

Are you protecting your life and the lives of your loved ones against the ever present danger of tire blowouts? Goodrich Air Containers will do this for you, and besides—They seal punctures on running wheels, add 25% to 30% tire mileage and reduce cost . . . they pay their way.

### HOW THEY WORK

(a) Cross section deflated. (b) Cross section inflated. Compression of rubber underneath cool insert prevents escape of air if a puncture occurs.
