Farmers' Information

Weekly Crop Report

From Peel, Middlesex and other counties come reports of a heavy infestation of apple maggot. Only four out of fifty-seven orchards inspected in Peel were found to be free from it. The majority of farmers have delayed fall wheat seeding for fear of Hessian Fly injury. After-harvest cultivation is becoming more general. Pasture conditions in Western and Southern Ontario are excellent and the live-stock in general are keeping up well in flesh. Harvesting operations are pretty well advanced in all districts, corn and buckwheat being the last crops to be taken off. The corn crop in the eastern counties is reported as very good and there should be no shortage of feed this winter.

Dairy Act Amended

Announcement is made by Hon. Thomas L. Kennedy, Minister of Agriculture, that regulations applying under the Dairy Products Act have been so amended as to place no curb on the prices which creameries may pay in future for producers' cream. The farmer is bound to benefit from any increased prices resulting from stiff competition between the creameries. The farmer has had little incentive in the past to produce special grade cream and to maintain his buildings and equipment to the strict letter of the law, but the change in regulations offers extra inducement to which it is felt he should promptly respond. The maximum acidity for special grade cream is not more than 3 per cent at the time of being graded at the creamery where it is to be made into butter and the fat content shall not be less than 25 per cent.

Western Cattle Purchases

Arrangements have been concluded whereby Ontario farmers will be able to borrow money at 6 per cent, with which to purchase feeder cattle in the West and bring them into this province, either for local sale or for purposes of export marketing. It is also announced that W. J. Neely has been appointed by the Department to go to Winnipeg and supervise such purchases and orders as Ontario farmers may place in the West. Printed forms are being sent to every branch bank in Ontario and any farmer may secure cattle by going to a bank manager, making satisfactory arrangements for purchase, filling out the application and forwarding it to Mr. Neely in Winnipeg. Should a farmer desire to go West and personally buy the stock, he will find Mr. Neely's services at his disposal.

Ontario Farm Products Week

Arrangements are being completed for the annual "Ontario Farm Products Week" in October, which is held for the specific purpose of impressing upon the urban resident the need for a higher consumption per capita of Ontario's farm products. The province will be divided into four sections for purposes of organization and a special Departmental representative will have charge in each. There will be special window-dressing competitions for merchants and in some of the larger places, parades with adequate prizes given to participating farmers for teams, displays of produce etc. Co-operation of Chambers of Commerce, Boards of Trade, Retail Merchants' Associations and other bodies is assured. From the view point of everyone concerned, especially the farmer this Week should have very beneficial results.

Warning to Farmers

A warning is issued to farmers of Ontario by James B. Fairbairn, Deputy Minister of Agriculture, as the results of reports reaching him that agents are now canvassing certain sections of the province with seed oats for sale that are quite capable, according to their claims, of producing 100 bushels to the acre, and for which they charge between \$1.60 and \$1.80 per bushel. Mr. Fairbairn advised that farmers before buying should get in touch with their District Agricultural Representative or the nearest Experimental Farm. He also stated that in a number of counties the Department is doing special work on oats, grown from seed that is free from smut. In these particular districts there is plenty of seed to meet the farmers' requirements. Use of inferior seed there would upset all the Department's work.

To Investigate Barley Value as Poultry Feed

A report from Winnipeg states that the National Research Council has made a grant of one thousand dollars to Professor, M. C. Horner, of the Manitoba Agricultural College, in his investigation to determine the value of barley as a food for poultry. The study is part of the effort that is being made to learn whether, or not, imported corn can be displaced by Canadian grown barley, as a live stock feed. Professor Horner hopes to get results indicating that barley can be used satisfactorily in all poultry rations. In what form it should be fed, and what combinations should be made.

Communication

Stouffville, Ont.
Sept. 26, 1932

Editor Tribune
Dear Sir:—

Allow me space to congratulate the Stouffville Cemetery Commission on taking the initiative at the cemetery, and correcting a situation regarding the price charged for digging graves, which was well high, unfair and intolerable. At the same time Mr. Editor your report last week stated that the charge for digging graves was \$10. Well, that price was bad enough, but fact is the charge for digging a grave (half a day's work) was \$12 no longer ago than last May after the frost was out of the ground. This is equivalent to \$24 per day for a good average man. Thus you see the "unfair and intolerable" that I refer to is quite right.

Now we understand the commission has taken charge of their rightful duty and set a rate of \$7 for digging which is quite high enough, and should permit a little rake-off for the commission who require extra funds for their landable work on the grounds.

We are of the opinion Mr. Editor that the caretaker who was employed for 42 years was not altogether to blame for the unjustifiable rate for grave digging, because the Commission who are in sole control have the right to set the price, and past Commissions were surely negligent when they failed to attend to this matter.

Friends interested in the cemetery will be glad to read that the present Commission are determined to make things better in regard to prices.

While we are on the subject, and if space will permit, may we suggest that the Cemetery Commission be enlarged to take in a representation from each church in town. A larger commission might stimulate a little more interest in the work.

School Field Day

The annual Continuation School Field Day was held in Memorial Park, on Friday afternoon, with a good attendance of scholars. The senior championship for student winning the most points went to Morley Pugh, while William Malloy won Junior championship. For girls Mary Doten won highest points and Helen Hastings second.

First winner in various events is as follows:—

Boys Competition
Standing Jump—W. Malloy
Running Jump—H. Wideman
Hop-Step-Jump—W. Malloy
High Jump—H. Wideman
100 yd dash—W. Malloy
Shot put—S. Borinsky
Ball thrown—H. Wideman
Vault—R. Wideman
Relay race—Form 11. First; Form 1. Second and form 111. third

Boys Competition
Standing Jump—Morley Pugh
Running Jump—Jack Pennock
Hop-Step-Jump—M. Pugh
High Jump—Gordon Stephen
100 yd dash—Gordon Stephen
Shot Put—Jack Pennock
Ball Throw—Jack Pennock
Vault—M. Hoorden

Junior Girls
Soft ball throw—Marion Russel
75 yd dash—Mary Doten
50 yd dash—Helen Hastings
High Jump—Helen Hastings
Running broad jump—M. Doten
Standing broad jump—M. Doten
Hop-Step-Jump—Helen Hastings
Senior Girls soft ball throw—Marjorie Hoover.
Relay race won by form III.

4th Line Uxbridge

The weather is extra fine for silo filling, the leading occupation just now in our vicinity.

A number of our girls are working in the canning factory at Claremont.

Mr. and Mrs. Wm. Mayo while in Niagara district last week secured some extra choice peaches and grapes.

Andrew Ashenhurst is on the "not too well" list at present. His indisposition has not stopped the flow of Andy's jokes we're glad to say.

This is a timely fall to start farming when everything is low in price, and stock easy to buy, a fact our young bachelors should not overlook. Some of them haven't, hence some homes are a little unsettled. The girls all have best wishes.

Mr. and Mrs. Russel Feasby kindly opened their home to a couple of newly weds Mr. and Mrs. E. Hockoy (daughter of Mr. and Mrs. Geo. Jones) for an evening with the young people of the section—all was a great surprise to the bride and groom, especially the serenade party which came later on.

Mr. and Mrs. Wm. Mayo were given a surprise last Monday evening in honor of their youngest daughter Hattie who became the bride of Mr. Thos. Lawson on Wednesday of last week. The bride received many useful and beautiful gifts. The serenaders were again busy on Saturday night when they remembered the newly weds with loud dinner bells and other sweet music.

Chicken Thieves

On Monday night thieves stole 12 chickens from Dent Law's farm on the townline west, and 28 from his neighbor Joseph Hoover. Police are investigating.

Lacrosse Circles

On Thursday last week in the lacrosse league fixture Stouffville won from Goodwood 5 to 2, and Altona beat Claremont 7 to 4

This Thursday evening the double header at the Arena will see Claremont and Stouffville, followed by Goodwood and Altona.

Rouge Hill defeated Rouge A.C. on Monday in a league game played in the local arena.

The Tri-County League Leaders, Orillia and Richmond Hill meet in the Richmond Hill Arena, Friday evening, Sept. 30th. The leadership of the league is at stake in this game. Game called 8:15 p.m. See the two best teams in the league clash in this important league fixture. Admission 25c. Free Parking for 1000 cars.

Here and There

Honey produced in Canada in 1931 totalled 27,867,337 pounds valued at \$2,058,094. Honey is produced commercially in all the provinces of Canada.

Registering an impressive advance in prices over recent years the first batch of Nova Scotia apples in the Liverpool market brought 25s to 25s per barrel as compared with 9s to 15s in 1931.

Great improvement and development over a period of 30 years has been noted in the Canadian seed industry. Last year 3710 seed farms with 12,000 persons occupied in the production and marketing of improved seed were estimated engaged in the industry.

Preliminary returns of maple sugar production in Canada just completed for 1932 show a total yield of 1,744,479 gallons of maple syrup valued at \$2,064,277 and 7,217,300 pounds of sugar valued at \$692,480. This production compares favorably with that of former years.

Cutting of wheat is nearing completion and threshing is well advanced in all the Prairie Provinces, with Manitoba leading, according to a report from the agricultural department of the Canadian Pacific Railway, western lines, dated September 10. Oats and barley at that date were 75 per cent cut.

Iza Commanda, Chippewa Indian girl golfer caddy at the Canadian Pacific French River Bungalow, who came eighth in the women's marathon swim at Toronto, recently, has been presented with a purse of \$150. J. G. Strathebe, manager of the Camp, stated that she would be thoroughly trained and would enter the contest annually until she won.

Wheeling airplanes added a roaring farewell to the cheers with which passengers and well-wishers speeded Captain J. A. Morrison on his return to England aboard the Empress of Britain as she sailed on her seventh departure of the 1932 season from Wolfe's Cove, Quebec. The intrepid solo trans-Atlantic flyer was promised a quiet time on his trip by Captain Latta, commander of the Empress.

"I am not running away from the election. I am out of politics and have no vote in the district of Columbia," said Mrs. Woodrow Wilson, widow of the famous United States war-time President, interviewed at the Banff Springs Hotel recently, where she stopped en route to Tokio where she is attending the marriage of a family connection. Mrs. Wilson motored on to Chateau Lake Louise as part of her trip by Captain Latta, commander of the Empress.

"I have never seen a more beautiful country or enjoyed a visit more," said Sir Philip Cunliffe-Lister, British Secretary of State for the Colonies, as he said farewell to British Columbia when boarding the Canadian Pacific Imperial Limited on his way to Calgary. He enjoyed his favorite sport, fishing, in that province, where he and his party took four fine fish, including a 17-pound salmon. (869)
