**Farmers' Information**

**Grading is Desirable.**  
The current issue of the Economic Annalist, official organ of the federal Agricultural Economics Branch, is the source of the following statement:—  
"The establishment and maintenance of grades is particularly desirable in the case of cooperative marketing. The grower of a good commodity should receive a premium for the extra care and efficiency involved in producing a superior product."  
Canadian farmers or business men handling farm products who are looking for new markets must bear in mind that their products will meet competition from other areas and per chance other countries. It will pay to study trade requirements and competitive practices and to build a sales policy around a product sold on the basis of standardized grades."

**Grass Seed Prospects**  
The preliminary report on clover and grass seed production for 1932 issued by the Dominion Seed Branch summarizes prospects for the current year as follows:  
"Clovers and alfalfa promise a much smaller total yield of seed in Canada than last year, while more timothy and blue grass are in prospect. Alfalfa prospects are poor, as the first cut failed to set seed in Ontario, and a short crop of alfalfa seed is expected in Southern Alberta. Alsike is much reduced in acreage in Ontario and is yielding under average."  
"A considerably reduced acreage of sweet clover for seed is reported in the western provinces, also in Ontario. Bromo and western rye grass in the western provinces promise much more seed than last year owing to more moisture during the growing season. The acreage of bent grass seed in Prince Edward Island is reported at about 25 per cent less than last year."

**Sweet Potatoes**  
A crop of 3,500 bushels of fine quality sweet potatoes was grown on a farm of 62 acres near Delhi in Norfolk County this season by Dr. Fitzsimmons, a native of the district who had resided for some years in New Jersey, and who was struck by the similarity of the soil in the sweet-potato-growing areas of that State to that of Norfolk. The excellent tubers produced by him this summer have attracted widespread interest and the producer has had more orders than he could fill. His farm is in the heart of the tobacco district and it is quite likely that other farmers will be tempted to turn from tobacco to sweet potatoes next year. The tobacco drying kilns can be used for dehydrating the tubers.

**Current Crop Reports**  
Reports from agricultural representatives reveal much dissatisfaction among farmers due to low prices of live stock and produce being offered. Eggs are the one bright spot in farm returns at present, but egg supplies are very limited. Fall wheat looks promising in most districts. Live stock are in good condition and the majority are now stabled. Middlesex reports that harvesting of turnips and sugar beets was seriously delayed by wet weather. Sugar beets have been yielding up to 20 tons per acre in that county, though

**Dominion Stores, Ltd.**  
"Where Quality Counts"

All items listed here are on sale all this week.

Domino Baking Powder	15c

Mince Meat, 2 lbs.	25c
Darwin Tulips, 2 dozen	25c

Paul Bowdway, Manager  
Stouffville

sugar content is frequently as low as 14 per cent. Lincoln and other counties reported that heavy and continued rains made it possible to plow soils which were most hard to turn over previously. From Port Arthur comes word that roots and vegetables were an exceptionally good crop this year.

The Canadian Bacon Quota  
The quota of 2,500,000 cwt. of bacon and hams assigned to Canada by the United Kingdom is not, of itself, of any particular importance. At the present time and for all time past Canada has had unrestricted entrance into the British market. She has now been set a definite quota that she may export but that quantity is so large that it will be a matter of 2,500,000 cwt. (280,000,000 lbs.) have any specific meaning.  
The importance of Canada's bacon quota is that it is part of the plan, the main feature of which is the announced policy of the United Kingdom to restore a reasonable stability in the British market for meat products, by means of the limitation of the importations of all classes of meats of which bacon and ham is one.  
The details of the working out of the plan of limitation devolves upon Great Britain; it has been adopted by her as the means of aiding first her home farmers, and second, the farmers of the Dominion.  
It is from this standpoint, and in view of the general policy laid down, that Canada's bacon quota is important to the farmers of Ontario.

**Thrashing Red Clover**  
Last season mechanical injury was reported in red clover seed which came from Central Ontario. The seed was broken or chipped, and complaints of poor germination as a result were received from Great Britain. An investigation conducted by John D. McLeod of the departmental staff indicates that too early thrashing is largely responsible for the injury and also unsuitable and poorly-adjusted threshers. Down in the Ottawa Valley nothing like this has been reported and Mr. McLeod attributes both the lack of damage and generally large returns per acre to the fact that red clover is never put through the thresher until winter weather has set in and the crop is thoroughly dry. Also he recommends that the job be done with a huller or with a machine with a clover attachment. Putting red clover through an ordinary thresher is condemned as wasteful.

**He Shoots! He Scores!!**

The thrill of a hockey game or even a hockey broadcast is not nearly as lasting as the thrill you get from knowing that the motion, gear and chassis of your car have the absolute protection of SHELL OILS, the absolute of an oil and lubricants produced from selected crudes, in ultra modern refineries; by a competent staff who have complete control of every operation and who have had years and years experience in producing oils that insure that protection FOR YOU.

We have a complete line of SHELL OILS, the proper grade for YOUR car. Come in and let us change that old diluted oil and give the chassis and gears of your car that complete lubrication that protects them.

**LEMONVILLE**

Just a month from to-morrow, (Friday) until Christmas.  
Mr. McMaster of Toronto is visiting at the home of Mr. and Mrs. Thos. Spence.

We are sorry to report that Mr. Thos. Spence is not enjoying the best of health.  
Mrs. N. Darby, of Toronto, was the guest of Mrs. M. Cook and daughters for the past week.  
Mr. Phillip Beaudoin, of Toronto, was the guest of Mr. Hugh Canning for a few days last week, also Mr. E. Griffin, of St. Marys.

Earl Cook accompanied a hunting party from Richmond Hill, who are in the wilds of the north, in pursuit of the fleet-footed animals.

Mr. and Mrs. E. C. Pennock, of Stouffville were recent guests of Mrs. Pennock's mother, Mrs. M. Cook.

As a result of "Jack Frost" being up to his usual pranks, a certain Young man of the village has had to hoof it lately. "Jack" stung hard and didn't "Dodge" this coupe, but was successful in cracking the block thus necessitating a welding operation.

Our sportsmen are taking advantage of the newly fallen blankets of snow each day, and are seen striding across the fields, with gun in hand and accompanied with a dog or two. This is the ideal rabbit weather for they are so easily tracked through the briars.

Mrs. A. B. Wilmot, of Cobourg, and Mr. and Mrs. Harry Sanders, of Stouffville visited with Mrs. M. Cook, on Sunday. We are pleased to note that Mrs. Cook and Miss Seynithia are improving after an illness.

The chicken and ham supper held in our local church, under auspices of the Women's Association was very well attended, considering the weather conditions. The supper and entertainment proceeds amounted to over \$33. Owing to illness, and a real winter blizzard, the association were disappointed in the unavoidable absence of some of their talent. The programme consisted of a number of solos sung by Mrs. Kell, our minister's wife, who delighted all those present with her rich soprano voice. Mrs. Oliver and Mr. Brown, of Vandorf, rendered vocal duets in their usual fine style. Mrs. Oliver accompanied with her harp. Miss Marion Brunwell of Bloomington, was the elocutionist of the evening, and gave a series of mixed numbers, which provoked much laughter. Rev. Mr. Kell, performed the duties of chairman, and was ever ready with his humorous jokes which fitted in nicely between and after numbers, which added much to the evening's entertainment. Both the association and the artists of the evening are to be congratulated for their efforts.

**DIXIE EGG MASH**

A quality feed at a price you can afford to pay. Your flock to be profitable must lay now.

We also carry  
A complete line of poultry food ingredients at rock-bottom prices

BRAN, SHORTS, OILCAKE MEAL, HOMINY FEED, SALT ETC.

**MELVILLE**

Some of our young people have enjoyed the pleasure of having a skate.  
Who can beat that! But then the thermometer hit zero, on Tuesday morning.  
We are pleased to hear that Mrs. Nigh Sr. is somewhat improved in health. Her many friends wish her a speedy recovery.  
Mr. and Mrs. Overbaugh, of St. Catharines (nee Clara Topham) visited her parents on Sunday.  
The regular meeting of the Melville W. A. will be held at the home of Mrs. Percy Spofford, on Wednesday evening at seven-thirty. We are hoping for a good turn out.  
Congratulations to Joseph Cooney our enterprising horseman. His race horse, Roy J. Todd, won over fast American horses on Dufferin track Toronto, last Saturday. Say did you ever hear of a "Mystic Tea".  
Well come to Melville and you will see.  
Oh heaps and heaps and lots of fun And you'll find out how the thing is run.  
Everything has a funny name But real good stuff all the same To bring your appetite along. And enjoy with us the eats and song.

Now if you choose "Island of the Sea".  
That surely would a sandwich be And while a waiter grins cool impudence, it seems.  
But to the joy of those around, its "chili" sauce she brings.

The program to is full of fun A play and music by the ton So don't stay home and feel blue When this great treat awaits for you.

Friday Dec. 2nd, is the date And tea is served from six to eight So come to Melville and get your tea And see how happy you will be.

**Introducing the New McClary "Canadian" Range**

Heats, Cooks, and Bakes

If your household likes good cooking, "Canadian" won't disappoint you. It has a good-sized cooking top on which you can cook the biggest meals. The oven is evenly heated, ensuring perfect baking and roasting. No range could serve you better than the McClary "Canadian" in cooking, roasting and baking.

And in short order you can build a roaring fire to keep you cosy and warm during the bitterest cold spells. No range made can equal the "Canadian" where heating is concerned.

What more could anyone ask of a range Than that!

**Some Prize Winners in Competitions Sponsored by Ontario Department of Agriculture.**

On either side of Miss Ontario are shown winning growers' trucks in the Ontario Farm Products Parade. Lower left and lower right are other prize-winning entries, the one on the right showing in the background historic Parliament Buildings and a section of the huge crowd which swarmed the route of the Parade. The first prize-winning display in the Window Competition is shown in the lower centre.

The Department, realizing that better times for the farmer mean better times for everyone, sponsored competitions in every city in Ontario to stimulate the sale of Ontario Farm Products, and from all parts of the Province word comes that the programme was a pronounced success.

**THOS. CARLYLE**

"Here on earth we are soldiers fighting in a foreign land; that understand not the plan of the campaign, and have no need to understand it seeing well what is at our hand to be done."

We bring to the practice of our profession the necessary study and experienced knowledge, an equipment that is splendidly adequate and a polite demeanor of service.
