

# LOCAL HAPPENINGS

County councils meet on January 24th.

For Rent—Four or six rooms. Electric, water, verandah, garden, cellar, fixtures, shades. Apply to Mrs. Irwin, Victoria St., Westend.

Mr. and Mrs. Rae Perry with little daughter Carol, also Mrs. Cullen, all of Trenon, spent last Thursday with his grandmother Mrs. C. Perry.

The serious illness of Mrs. S. W. Hastings who is suffering from influenza, is causing considerable concern not only to the immediate family, but to a wide circle of friends. Miss St. John R.N., of Uxbridge is in attendance while the doctor reports slight improvement in the patient's condition this week.

Richardson Masonic Lodge is arranging a past masters' night, when officers who officiated a quarter of a century ago, will occupy the chairs, and exemplify the degree work. The affair which will be held on Friday, January 20, will conclude with a fowl supper.

Mr. Hector Pollard, the local jeweler, in the Grubin block, is seriously ill, following quite a long sickness. His condition the past week is causing his family real concern, but we all hope that a turn for the better may soon be reported.

The Toronto ball team will train in Augusta, Georgia, starting on March 13. Earl Cook who did the "heaving" for Stouffville for several years while at his home here, will go south early in March to report for duty. While the Maple Leaf's turned in a bad season last year, it wasn't any fault of the Lemonville boy, who did well on his introduction to the professional field of baseball.

Mr. Harvey Schell, butcher, was the lucky person last week to receive a pair of complimentary tickets for the hockey match on Saturday evening in the Maple Leaf Gardens, Toronto, from Silverthorn's garage. Harvey, who visited the big arena for the first time, saw Detroit defeat the Maple Leafs by 6 to 1. The Central Garage gives a pair of tickets each week to some one of its customers. Call at the garage and select your number now for this week's game. No obligation except that you are to be a car owner.

### NOTICE

The Betty Beauty Shoppe will be closed from January 23 until January 30, during that time Miss Badgero will be attending the Hairdresser's Convention at the King Edward Hotel, Toronto.

The Band of Willing Helpers are serving a Bean Supper in the Church on Monday, January 16th, at 6.30, followed by an interesting program. Admission 25 and 15c.

Miss Bessie Nighswander of Toronto, Miss Bessie Love of Whitby and Mr. J. Barlow, of Oshawa, were weekend visitors at Leslie Rowbotham's.

Readers who consult the Advertisements in this paper will be posted on prices, and where to purchase goods of standard quality, at lowest prices. "Follow the advertisements", is a good slogan just now.

Following the very mild Christmas and New Year weather, old man winter seems to have returned, arriving in Stouffville last Saturday with a high west wind. Rink owners and lovers of winter sports welcome the colder atmosphere.

Several farmers in the Altona district are installing electric power and light on their farms. Messrs. S. Fretz and Peter Nighswander expect to enjoy the privileges of the Niagara Power some time this week, they having just had the wiring done by N. W. Byer of Stouffville.

The C. N. R. will run a special excursion rate next Saturday to Toronto, Hamilton or Niagara Falls, as advertised in this paper last week. The return fare to Toronto good over the weekend is only 50c. Good on any train Saturday. A similar low rate extended in Dec. attracted over 100 passengers from this district.

If Lud Hoover, eastend Stouffville, doesn't own the bird that will lay the largest egg this coming spring season, he at least has the one to get into the contest ahead of all others. The other day a White Leghorn belonging to Mr. Hoover laid an egg measuring 7 1/8x5 3/4 inches which is no mean achievement for a pullet. Come along with your large eggs if you can do better than this. In the meantime the eastend Leghorn has every right to do the crowing.

According to the weather prophets we are to have some "weather" this winter. They are not agreed what kind it will be, but we are to have it, anyway. The Indians say because the fir trees have a full crop of cones and the partridges have grown feathers on their legs it will be cold, with lots of snow. Another prophet says the first three days of December being mild, the winter will be likewise, with little snow. No prophet has as yet said we shall have no winter. Most of us will wait until next April before issuing a statement.

Mrs. Jas. Wadlingham has been spending a few days in town.

Rouge Hill Vs. Stouffville in the arena here this Friday evening.

Front bumper lost between Stouffville and Goodwood. Flinger please leave at Dominion Stores, Stouffville.

Mr. and Mrs. John Madill, Mr. and Mrs. George Lee and Mr. T. Madill motored to Tilsonburg on Monday to attend the funeral of the former's brother, the late Benj. Madill.

Mrs. Eleanor Caseley, an aged resident of Duchess street, just west of the United Church, is seriously ill at her home here. She suffered a slight stroke some days ago, but has rallied some since that time despite her 84 years. Mrs. Caseley is a very long standing resident of Stouffville.

Duncan Spang, of Altona, was fortunate in winning a handsome electric heater, in connection with the draw for the lucky ticket at the hockey match in Markham last Thursday night, when Stouffville was the visiting team. Hydro is reaching the Altona district just in time Duncan.

The regular meeting of the Senior Women's Institute, will be held on Wednesday afternoon, January 18, at the home of Mrs. George Lee, Main street. There will be a paper by Mrs. W. T. Taun, and the History of the Senior Women's Institute by Mrs. E. J. Davey. Music by the W. I. Quartette, and social half-hour. Everyone welcome.

On Tuesday this week Mr. Amos Lehman who retired from the boot and shoe business after 35 years, was able to be down town on foot for a short time, the first in months. Our former business man is much improved in health, and we were glad to welcome him on Main street once more. Mr. Lehman has requested The Tribune to convey his thanks to all those who were kind to him during his more serious illness. Both Mr. and Mrs. Lehman appreciate the thoughtfulness.

The Band of Willing Helpers, of St. James Presbyterian Church, Stouffville have invited everyone to attend a Bean Supper, at the church, Monday, Jan. 16th at 6.30 p.m. The supper will be followed by an interesting program of music, recitations and drama.

The eight-piece Junior Orchestra of Mt Pisgah will provide the instrumental music, also solos. The one act play "The Rising of the Moon" by Lady Gregory, written in 1904, and first produced at the Abbey Theatre, Ireland, and later on tour in the United States, will be played by members of the Band.

### AGAINST STATUTE LABOR

The vote on January 1st in East Gwillimbury resulted in the defeat of the by-law to return to Statute Labor by a majority of 279.

The total vote was as follows:  
For the By-law ..... 206  
Against the By-law ..... 485  
The vote in the several polling places will be given next week.

## Stouffville Council Holds Inaugural Appoints Officers

The village council held its inaugural meeting on Monday, when the members took the oath of office before Clerk J. S. Dougherty, thus: Reeve—W. E. Morden, Councillors D. H. Rusnell, George Dowswell, M. E. Watts, Arthur Weldon.

Rev. Thos. Laidlaw opened the session with prayer, and a few words of instruction, and congratulation on the public spirit of the members in serving the community.

The council unanimously thanked the clergyman for his consideration in coming to the meeting, and addressing them as he did.

The striking committee's report was adopted, naming the standing committees for the year as follows:  
Roads and Bridges—Dowswell and Rusnell.  
Water and Light—Watts and Weldon  
Relief—Weldon, Dowswell, and Rusnell.  
Finance—Watts, Morden.  
Bylaw—Rusnell, Dowswell, Weldon, Watts, Morden.

The first named on each committee is chairman.  
With Councillor Rusnell in the chair, the annual bylaw appointing officers, named the following:  
Assessor—George Storey at Salary of \$100.  
Auditors—T. B. Rae, Ross Davis at salary of \$10 each.  
Poundkeeper—Sandy Jones  
Library Board—Mrs. E. A. Button for term of 3 years, and Rev. H. Lee to fill unexpired term of R. Closson.  
Member Board Health—A. V. Nolan.  
Sanitary and Weed Inspector—J. Gower at 25c per hour.  
Athletic Field representatives—Rusnell and Dowswell.

Claimed Dire Need  
An eastend householder applied for relief. The man said that if council would help feed his wife to give her strength to nourish her baby he and the other two men in the house could starve. The applicant for relief was subject to some straight questions as to why he kept two men loafing around.  
It was brought out in discussion that a young man had been turned out by his father, and was fostered by the applicant for help. Efforts to have the young chap committed to Whitby were unsuccessful, but another attempt will be made. The boy is subject to self abuse, and it is incumbent on the community to take charge of his case.  
Temporary help was promised to the household in need, and was left in the hands of the Relief Committee.  
N. E. Byer was re-appointed as town electrician on his old contract, also Constable Alf Pugh was re-engaged for another year at \$125 for the 12 months period.

Night Constable  
Councillor Watts suggested that something be done to have the constable on duty in the wee small hours of the night, and Councillor Dowswell thought the present arrangement was all that could be expected.  
A contribution from the merchants wanting protection was suggested but no action was taken to change the old arrangement.

Workman's Pay Cut  
The rate of pay for John Gower as town workman was cut to 22 1/2c per hour for ordinary work, and 30c per hour when employed on wet ditch work. Resolution submitted by Councillors Watts and Weldon and carried unanimously.  
The clerk was instructed to bill a resident for damage caused by his car by running into a guy wire on Church street.

Spot Cash For Tags  
Reeve Morden introduced the matter of collecting the dog tax when assessor makes his rounds, which met with favor among the council. The clerk was instructed to prepare the necessary bylaw to introduce this form of collection.  
Councillors Watts and Weldon moved a resolution setting the regular meeting night for council as the first Monday of each month.

Accounts Passed

### Farmers' Information

Swine Improvement Program  
Simcoe County Live Stock Improvement Association has launched a Swine Improvement program for the New Year, a step which is in line with the policy of bacon hog improvement so strongly advocated by provincial and federal agricultural authorities with a view to capturing a share of the British bacon market made available by the Imperial Conference agreements. The immediate proposal is that the farmers dispose of their cull sows and replace them with sows approved by the Department. The announcement has been made in this connection that the provincial and federal governments will share the burden of a \$2 bonus to the farmer for each sow exchanged. This should aid substantially in inducing farmers to participate in the program.

### Division Court Hearing

Although there were six cases on the docket for Division Court held here on Monday, before His Honor Judge O'Connell, but one of them involved local parties, the principles being from south Markham and Scarborough.  
Several cases were adjourned and only two got a real airing. W. J. Wilson was suing T. Hargrave of Markham for \$81, alleged due as commission on the sale of a farm. F. L. Button for the defendant Hargrave admitted the sale was made all right but the claim for commission didn't comply with the statutes, and convinced the judge on this point. His client had offered the plaintiff \$20 at one time, but he would not take it, preferring to come to court. His Honor ruled there was no legal

HARDWARE STOUFFVILLE, ONTARIO

# More Eggs, Less Feed, Greater Profit

To get the biggest profits you must have maximum production. Feeding hens Ful-O-Pep Egg Mash is the certain method of getting most eggs.

Ful-O-Pep Egg Mash is a scientific balance of many ingredients with an oatmeal base. It provides the right amount of protein and carbohydrates necessary for heavy working hens. Bone meal and calcium carbonate supply the necessary minerals. All elements which the hen reproduces in eggs are fully restored, keeping her fit for heavy production. The Cod Liver Meal in Ful-O-Pep Egg Mash replaces the missing sunlight during shorter days, and its vitamins make other ingredients do better work.

Because finely ground, Ful-O-Pep Egg Mash is easily digested. No waste. All feed. Hens eat every bit of it. Cheapest feed you can use BECAUSE IT GIVES MOST EGGS FOR THE LEAST MONEY. Ful-O-Pep Egg Mash and Ful-O-Pep Scratch Grains form the ideal combination. Ask your dealer for them.

## Quaker FUL-O-PEP EGG MASH

Made by The Quaker Oats Company, Peterborough, Ontario.

Manufacturers of Quaker Ful-O-Pep Chick Starter; Quaker Ful-O-Pep Growing Mash; Quaker Ful-O-Pep Chick Feeds; Quaker Ful-O-Pep Egg Mash and Quaker Ful-O-Pep Scratch Grains for Poultry. Quaker Dairy Ration for Milk Cows, Quaker Schumacher Feed for cattle, hogs and horses.

claim, but on consent allowed claimant \$20 without costs.

A case from Scarborough involving a claim for \$15 and counterclaim for \$175 taxes took some time to settle. R. Wilson, farmer, called Albert Rate by phone to bring his hay baler machine to his premises, where some 28 tons were to be baled. No agreement was made over the phone as to price. When the machine arrived Wilson refused to have it baled his hay because the owner wanted \$1.75 per ton, which he considered too high a price for baling. Failing to reach an agreement Rate's machine was taken away again without doing the work, and this brought the suit to make Wilson pay for moving the machine. Judgment was given for full claim, and counter claim was dismissed.

### Farmers' Information

Swine Improvement Program  
Simcoe County Live Stock Improvement Association has launched a Swine Improvement program for the New Year, a step which is in line with the policy of bacon hog improvement so strongly advocated by provincial and federal agricultural authorities with a view to capturing a share of the British bacon market made available by the Imperial Conference agreements. The immediate proposal is that the farmers dispose of their cull sows and replace them with sows approved by the Department. The announcement has been made in this connection that the provincial and federal governments will share the burden of a \$2 bonus to the farmer for each sow exchanged. This should aid substantially in inducing farmers to participate in the program.

### Winter Care of Live Stock

With the coming of winter, farmers should make sure that the barns in which their stock are to pass the cold months are clean and free from possible infectious diseases or parasites. Most progressive stockmen whitewash their stables at least once a year, but frequent dustings with an old broom are needed to keep the cobwebs and dust down. Before the cattle leave the pastures for the season, it is good practice to inspect the whole herd for possible skin-diseases or parasites. Such diseases as ring-worm, scab or mange, lice or warbles, are dangerous and each needs special treatment. Ring-worm is doubly dangerous because humans may contract it through

handling or from curry-combs and brushes. Tincture of iodine applied daily following washing with soap and water will cure ring-worm, but scabies or mange need to be dipped in or sprayed with special solutions such as crude petroleum or equal parts of kerosene and cottonseed oil, which mixture is also recommended for lice. No animal can give its best milk production or put on flesh when feeding such parasites.

### Reforest Waste Land

Rough land that is too hilly or rocky to be easily cultivated and also sandy can be used effectively only in the production of timber.

Early settlers cleared the woods regardless of the value of the land underneath, and much of this should be returned to forest, rather than be permitted to wash or to produce scanty crops. The very small investment that is necessary for seedlings, together with the plentiful supply of labor now available, makes this an ideal time for putting these abandoned hillsides on a productive basis.

### Alfalfa For Poultry

Alfalfa in the green state has long been recognized as an ideal poultry feed when used in conjunction with the usual grains and mashes. It is used extensively as range or as cut green feed for birds in confinement during the spring, summer and fall months in most alfalfa-growing areas, but the value of the hay as a winter feed is not so generally known. So much of the year's success depends on the number and quality of chicks hatched each spring; that it is important to do all possible to increase the fertility and hatchability of the eggs and the livability of the chicks. Experiments have shown that 20 per cent. better fertility and 6.4 per cent. better hatchability of fertile eggs can be obtained from birds where alfalfa hay instead of straw is used as litter in the breeding pens. The alfalfa should be used as litter during the winter months preceding the breeding season and the same treatment given to males and females.

### Ontario Farmers Advised to See Own Stock Sold

"In the marketing of live stock—whether by truck or rail, I am of the opinion that the farmer should see his own stock sold, wherever it is possible to do so," said Garnet Duncan, live stock specialist, Ontario Marketing Board.  
"The experience he would gain by this contact," continued Mr. Duncan, "might bring him to real-

ize that spasmodic rushes of stock to market definitely depress prices, and only by personal supervision can he expect full returns from any transaction.

"Too many are satisfied to spend months of effort finishing an animal only to pass it over to some one else to sell, and when he likes, I cannot conceive of success for any business conducted along this line. Today economic conditions demand that a producer receive every cent possible from the sale of his stock.

"To those wishing to buy there are also distinct advantages in visiting the market frequently. The farmer would be able to choose the type he desires and estimate the time required to finish. In buying stock to feed, finishing date should be kept in mind with the object of avoiding usually glutted markets."

### Three Ways to Lower Costs

There are three principal methods of reducing the cost of producing crops. These methods include the economical production of heavier yields per acre, the use of larger machinery and more labor-saving equipment, and the operation of a larger area of land under cultivation. In addition to this, information derived from cost of production studies makes possible the substitution of more profitable for less profitable crops.
