STARTING A NEW DAIRY FOR A PASTEURIZED MILK

Stouffville must shortly be known as a town of real milk drinkers, for arrangements are on foot to establish another dairy. Mr. Lloyd Turner has rented the former Bank of Nova Scotia building and men are now remodelling the place for the new business. A pasteurizing plant and frigid air are being installed as part of the new outfit. Milk will be supplied from Mr. Turner's own herd of cattle. With the advent of Mr. Turner in the business the village may boast three dairies.

Put Flesh on Market Cattle

With the plentiful supply of feed, the cattle going on the market this winter should be well-fleshed. Well-finished young cattle command a premium on both the home and export markets. The poor quality, under-fleshed animals have a depressing effect on the market. Steers or heifers showing breeding and type make good use of the home-grown feed. Time alone will tell what the profit will be on the feed-lots this fall. But, it is reasonable to expect that it will be the deep, mellow-fleshed bullocks that command the top prices when they go on the market. Inferior feed or a skimpy ration does not make market toppers of even the best type of cattle.

GOODWOOD

Mr. J. E. Wagg is spending a few days in Toronto this week. Mr. and Mrs. Geo. Rodanz and Jean of Toronto spent Sunday at her home here. The W. A. of the United Church are holding a social evening at the home of Mr. and Mrs. E. Forsythe, on Tuesday evening, February 14th. Everybody invited, men included. All kinds of games will be indulged in except euchre and pedro. At the Baptist Church, on Sunday afternoon, a special speaker, in the person of Mr. Shook, gave the story of different events in various churches following the Baptist Convention this summer. He was a very interesting speaker, and impressed on the congregation the need of consecration. The following were Sunday visitors at the home of Mr. and Mrs. J. E. Wagg, Mrs. Wagg (sr) of Goodwood, Mr. and Mrs. Ed. Forsythe of the 2nd con., Mr. and Mrs. J. R. Foote and Doris of Stouffville and Mr. and Mrs. Charles Watson and Claude.

The B.Y.P.U. held a skating party at Norman Maye's pond last Friday night. About forty attended some remained at the home of F. G. Woodland and played games, the rest enjoyed an evening of skating, coming back to the Woodland home to enjoy a lunch of sandwiches, baked beans, and coffee. The early hours of Saturday morning found the members and their friends coming home. We are hoping for another such time soon.

In more prosperous times many farmers in rural sections of Ontario County signed contracts with the Ontario Hydro Electric Power Commission for power to light their farm homes and farm buildings. Usually the contracts were secured by men who undertook to bring to the farm this modern lighting service, going from farm to farm to secure contracts for the Hydro required three customers for every mile before they will build a rural line. Farmers who signed the contracts were obliged to pay their share of the line extension and power supply whether they used the white juice or not, and the cost was \$2.50 every three months on a farm of 100 acres or over, with Township Councils as guarantors of the payments. At the present session of Ontario County Council the plight of many farmers who on account of hard times are unable to continue their payments and are falling in arrears was pointed out by Robt. Pickard, deputy-reeve of Uxbridge Township, who asked the Council if something could not be done to bring this matter to the attention of the Hydro with a view to having some modification made in the contracts or leniency extended. "Many farmers in my Township are unable to pay their taxes let alone their Hydro bills," said Mr. Pickard as he stressed the fact that farmers were getting such low prices for their products that they were unable to meet their obligations. The contracts, he said, were signed in better times, and so many of the farmers were paying on them had not even had their buildings wired. The Township Council, on the other hand, had to stand behind the Hydro and collect through the tax payments when they became due and were not paid by the farmers who had signed. Ex-reeve Owen Davies, of Uxbridge Township, who a few years ago was an ardent apostle of the Hydro and induced many farmers to sign contracts, stated that he had fallen on evil days because of the fact that in cases where farmers would not sign he had guaranteed the payments in order to make rural line extension possible. Today, he was paying about \$17.50 himself every three months, and found it difficult to do so. In sympathy with the question, the Council referred it to the Committee on Legislation and Memorials, with a suggestion that they might bring in some recommendation.
