

# The Farm News

Ed. Storey of Stouffville R.R. 9 bought one of the selected boars sold at the first sale of Yorkshire boars at the Elm Croft Farm, Oshawa. These boars sold up to \$30, but are a rare good type.

A choice carload of feeders for export left Stouffville station on Saturday, consigned to Montreal for shipment to the British market. The exporter, Mr. Rogers, purchased the 24 prime head from Mr. Wm. Ratcliff. He also contracted for an additional 14 head for summer export at 5c pound. Mr. Ratcliff always has something extra good in the stock line, and Saturday's shipment was no exception.

Writing about trucks on the roads during season when frost is coming out the Chesley Enterprise express a view upheld by The Tribune, when it printed this statement last week: "We believe there will be a strong agitation throughout this province before long to prohibit trucks on the highways for a short time at least. The Highways Dept. will have to rebuild the broken-down portion of highway between Arthur and Fergus and pay 80 per cent of the cost and the taxpayers of Wellington County will, for a second time, have to put up 20 per cent for maintenance charges. What is true of the broken-down highway between Arthur and Fergus holds good this spring in the Stouffville district."

Farm conditions in Ontario county still remain favorable, according to this week's report by the Ontario Department of Agriculture. The report has the following to say regarding this county: "Fall wheat and clovers are doing well. Wheat is hardy as uniformly good as it was a year ago, but it is better than average. There has been a good demand for Bacon type brood sows and good boars. Forty-three brood sows and six boars found ready sale at two points in the county during the past two weeks."

In Peterboro county, the report says, a number of cheese factories are now in operation and the prospects are for an increased business this year.

(Markham Economist) Mr. Thomas Griffith, County Inspector of the Corn Borer, called at our sanctum on Tuesday and left with us a notice pertaining to this worm, and which appears in another column. He states that it is remarkable how the farmers are looking after the corn stalks and there are very few bad cases that has come to his attention thus far, though he hasn't been around this township much yet. Mr. W. C. Gohn has been appointed as assistant inspector for Markham and Scarborough Townships. He states he has come across some bad patches in his travels. We hope that the farmers of Markham Township will not let another municipality get ahead of them in this respect.

By recent legislation, school boards must present municipal councils with full details of their financial condition when asking for the collection of school rates. Power has also been conferred to close schools having less than eight pupils in attendance by making provision for their education elsewhere.

The Township of King has discontinued handing out relief.

**MORTGAGE SALE**  
of Lands in the Township of Whitechurch

Under and by virtue of the powers of sale contained in a certain Mortgage as No. 15123 for said Township of Whitechurch upon which default in payment has been made and which will be produced at the time and place of sale, on the premises at 2.00 p.m. on **THURSDAY, MAY 18, 1933** the following lands will be sold: All and singular those certain parcels or tracts of land and premises situate lying and being in the Township of Whitechurch in the County of York and being composed of West Half of Lot No. 6, in the 7th Concession of the said Township (4 Acres more or less)

This property is well adapted for market gardening, is convenient to school and church, and rural mail passes the house daily. Frame house and barn on premises. TERMS:—10% of purchase money day of sale and balance within 30 days thereafter when possession will be given purchaser. (The property will be offered subject to a reserved bid.) For further terms and conditions of sale apply to McCullough & Button, Solicitors for Vendor, Stouffville F. W. Silversides, Auctioneer

Mr. J. W. Widdfield of Siloam has purchased from F. E. Pugh the prize winning bull Quartermaster 212908.

Corn crop failures can be eliminated, largely, by purchasing only No. 1 seed of a standard variety from a reliable dealer, and making a germination test before planting.

In the opinion of corn growers of Southwestern Ontario, corn dealers and officials of the Federal Seed Branch, the supply of Ontario-grown selected corn of high quality and germination, is sufficient to take care of the present season's demand.

Evidence in the milk inquiry at Ottawa has been completed and members of the committee are drafting their report to parliament. Some more startling evidence came out during the past week. Such as: James B. Elliott of Howick, Que., filed an affidavit that he was ordered by the Montreal Dairy Co. to stop shipping milk after he had given testimony concerning them to the milk committee. The company denied any discrimination, but Mr. Elliott's affidavit expressly charges such.

Farmers losing heavily. The cost of production of 100 pounds of milk on Ontario farms was given as ranging from \$1.75 to \$2.40 by the secretary of the secretary of the Ontario Whole Milk Producers' Association. Detail on a 100 acre farm worked out at \$2.35. Ontario farmers are receiving from \$1.00 to \$1.60 per hundred pounds. In other words they are losing from 15-cents to \$1.40 per hundred for all they sell these days.

A dairy company with an original capitalization of \$40,000 and no new capital made a profit of \$23,613.67 in 1928, or nearly 60 per cent. This was in Toronto.

The same company sold out to Borden's Ltd. in 1929 for \$695,320. The \$40,000 company thus grew to nearly \$700,000 in less than 15 years, entirely by accumulation of profits.

The net profit of a Borden subsidiary in 1932 was about one per cent greater in 1932 than in 1931, although the price of milk fell in that time from \$1.96, at which level the farmer was about breaking even, down to \$1.48, where he began to suffer heavy loss.

The spread between buying and selling price for the same company instead of narrowing as the price paid to the farmer fell, actually increased between 1931 and 1932. In the latter year it was 6.3c a quart.

Where the money goes

|   |            |
|---|------------|
| The same Toronto dairy gave the committee an analysis of what happens to the money paid by the consumer in the city for a quart of milk, average price 10.03 cents. It is as follows: |            |
| Paid to the farmer at his farm  | 3.12 cents |
| Transportation to city  | .82        |
| Waste and loss handling   | .32        |
| Pasteurization, bottling  | .76        |
| Selling and delivery  | 4.26       |
| Container loss bottles  | .9         |
| Income tax  | .07        |
| Net profit  | .51        |
|   | 10.03      |

### COURT OF REVISION

Municipality of the Township of Uxbridge, County of Ontario.

Public Notice is hereby given that a Court of Revision of the Assessment Roll for the Township of Uxbridge will be held in the Township Hall at Goodwood, on the 22nd Day of May, at 2.00 o'clock p.m. to hear and adjudicate upon all complaints against the Assessment Roll of the said Municipality for the year 1933.

All persons having Dogs died or otherwise disposed of since the Assessment was made, must have their appeals in by the above date, and all other appeals in to the Clerk by May 14th, inst. No adjustments will be made after the sitting of the said Court. All persons interested are requested to take notice and govern themselves accordingly. H. Roach, Clerk of said Municipality Dated at Goodwood, this 11th day of May 1933.

### STIVER CONTRIBUTES VERY CHOICE CATTLE ON THE TORONTO MARKET

The demand for good cattle is keen just now, and those good enough for export demand better than market price. Last week a choice load—ten cattle—averaging 1325 pounds, brought \$5.75 per hundred weight, on the Toronto market. This load was shipped by Mr. Frank Stiver from his farm home on the 6th concession of Markham, and was consigned to Dunn & Levaek, by the local buyer Hugh Boyd. The ultimate buyers were the Canadian Packers.

Harvey Schell, the Stouffville butcher, also bought five animals from Mr. Stiver's export herd, all weighing from 1250 to 1350, which should make some choice eating for his butcher shop customers.

**In Memoriam**  
Eckardt—In loving memory of our dear and only daughter, who passed away May 13th, 1926. Peaceful be thy rest dear Laura. It is sweet to breathe thy name In life we loved you dearly In death we do the same Ever remembered, father, & mother Mr. and Mrs. James Slack

# Check

up on your sale of cream, if you are not a shipper to the Stouffville Creamery, and compare your results at our creamery or with any of our customers, and you will find you have been losing dollars, as well as missing a Creamery Service that is unexcelled.

## An Indication

The fact that our make of butter at present is up 20% over last year is sufficient proof of how we use our cream shippers. It is always our aim to render to our shippers the best creamery service possible every day in the year. As to the price we pay, method of payment, method of receiving, and collecting the cream and in all other respects, nothing suits us better than to see our shippers pleased.

Equally are we pleased with the progress which we are making in the way of disposing of our butter, and the demand we have created for our butter. The delivery system we have established in Toronto to deliver our butter direct to stores, helps us to get the top price for our product.

As a convenience for those who deliver their cream we are also open Tuesday, Thursday, and Saturday evenings. From those whom we collect the cream by truck, we are making plans to collect twice a week

### HAVE YOU MISSED SOMETHING

If you have not tried Stouffville Creamery butter ask your grocer or get it at the creamery

It is always obtainable fresh and of the highest quality. Thousands of satisfied homes use only Stouffville Creamery Butter—look for our label on every pound.

Hard times or good times, it matters not,

the milk Cow is the farmers best friend

### MUTUAL BENEFIT

### THIS MEANS SOMETHING TO OUR FARMERS

Notwithstanding the fact that we had a 30 per cent increase in 1931 over the Butter manufactured by us in 1930, that increase was maintained in 1932, and so far this year (1933) we are again forging ahead with a still larger production than heretofore, or to be exact a further increase of 20 per cent for the first quarter of 1933.

The fact that we are situated right among our cream shippers, and getting all our cream just within a few miles, plays a very important part in the quality of cream we get, and naturally in the quality of butter we make, which commands the top price. Its the price that we get for our butter, that governs the price we pay for cream. The prices we pay for cream are always the highest the butter market permits, to pay, and not only on special occasions, or for a special purpose which is so often done. By being so situated and giving prompt attention to the cream as it comes in gives our cream shippers a chance to get the best grade for their cream. The fact is that the percentage of our 2nd grade cream is exceptionally low.

You must remember that the difference in 2nd grade and 1st grade is 3c per lb. of butterfat, and we pay a premium of 2 cents per lb. of butter fat for special grade over 1st.
