ADDITIONAL Local Happenings

Wednesday next week, the Queen's birthday, is a public holiday. Stores open Tuesday evening.

Bright, smart girl wanted at once for summer cottage. Apply Mrs. Barker, phone 3404.

Mr. and Mrs. Allan Collard and baby daughter were in town for a few days from Montreal, visiting his parents Mr. and Mrs. George Collard.

Owing to May 24th falling on a holiday the next issue of The Tribune will be a day late in being issued.

All persons interested in the formation of a baseball team for the present season, are requested to meet at the municipal hall this Friday evening, May 19th, at 8 o'clock.

Our westend grocer Mr. George Lawson, with Jim Lawson, David Lawson, and Donald Closson are on a holiday motor trip through the north country this week. They will stop at North Bay, Cochrane and other points enroute.

Mrs. Nelson Mowder was suddenly seized with a serious illness on Tuesday at her home in the west-end. Her two daughters were summoned home, but fortunately the mother took a turn for the better. Mrs. Mowder spent last winter in Toronto, and only recently reopened her home here.

W. W. Gardhouse, deputy-reeve of Weston was last week appointed treasurer of the County of York, at a salary of \$3,000. Because of interference by the bank, (the county being in a more or less faulty position financially) it took three days to reach a decision on this appointment and therefore cost the county \$1800 in councillors fees and mileage.

The lacrosse season will open in the Stouffville Arena on Friday night with Agincourt and Scarborough Grads, (known last year as Rouge Hill) staging their opening game here in the East York League. These two teams were in the finals last year and are great battlers. See them in a good start on this occasion.

William Morris, farmer on the 10th concession of Whitechurch just north of town, besides having some of the biggest poultry in the country can also boast of getting some of the largest eggs. One member of his flock of Jersey Giants left an egg in the nest recently that measured 8" in circumference and weighed 4 ounces. Three to four like this is as much hen fruit, as would be in an average dozen.

ASPARAGUS—Quantity of Asparagus Roots for sale. 60¢ per hundred. Leslie Ogden, ph. 5327.

In Memoriam
Hoover—In loving memory of my dear father, Noah B. Hoover, who left us, May 18th, 1931. The month of May brings memories of a dear one gone to rest. But he will always be remembered by the ones who loved him best.
Vera and George

The Farm News

Binder twine should not be used to tie fleeces. It can be separated from the wool only by carbonizing or burning out.

There does not seem to be any "best" time to sow seeds of perennials. If the seeds are obtained in spring they can be sown in May or June, or they can be kept until the fall.

Better Year Indicated Says Poultry Authority

That Ontario farmers are confident poultry is again to be their best cash crop, is evidenced by the fact that more chicks have been hatched and sold this year than any year to date.

Legumes and Non-Legumes

The difference between non-legumes (cereals, root crops, etc.) and legumes (beans, peas, clovers, vetches, alfalfa, etc.) is that all non-legumes are forced to obtain their nitrogen directly from the soil, while legumes, under certain conditions, are able to make use of the nitrogen in the atmosphere. Four-fifths of the air is composed of nitrogen, and legumes, by drawing on this supply which is quite unavailable to other plants, are able to converse in a large measure the supply of that element in the soil.

Old Time Prices

The report of an auction sale of farm stock and implements in Wellington County states that a huge crowd was in attendance and prices reached old-time levels. Eleven grade cows, two of them heifers freshening for the first time, were sold at an average price of \$73.25, while the highest price for an exceptionally nice animal was \$114.00. The farm of 137 acres had been previously sold for \$4,500.

Purchase Certified Seed Now

Demand Greater Than Supply
Based on a recent survey made by the Department, there are approximately 3,500 bags of certified seed potatoes available in Ontario at present.

Growers who delay in obtaining their supplies immediately are almost certain of disappointment, since the amount of certified seed potatoes available in the Province, is not likely to take care of the demand.

New Bull-Bonus Plan

(Millions of dollars will reach the pockets of Ontario farmers, dairymen and livestock breeders under a Federal-Provincial bull-bonus plan, recently announced by Hon. Thomas L. Kennedy, Minister of Agriculture, who termed it "the greatest thing that has ever happened to the cattle industry.")

The scheme is an attempt in a big way to increase milk and cheese production and to improve the breed of livestock for beef purposes. Approved bulls of purebred strain will be introduced into tested herds and bonuses ranging from \$10 to \$50, depending upon the age of the animal, will be paid to the purchaser by the two governments. Strict regulations as to inspections of herds and choice of bulls will be required.

In addition to the bull bonusing plan which will be under direction of the Department's Livestock Branch, the District Representatives will undertake to educate the industry on proper feeding of stock while a campaign of cow testing will be carried on by the Dairy Branch. Louis O'Neill, assistant Director Livestock Branch, will be directly in charge of the bonus scheme and applications are to be made to him.

Quality of Lambs

A statement relative to lambs of unsuitable quality in weight has been issued by the Industrial and Development Council of Canadian Meat Packers as a suggestion to producers that they should look after the quality of their lambs in order to secure the highest market price. The message is headed: "Buck Lambs and Heavy Lambs" and reads as follows:

The markets will continue this year to pay more for ewe and wether lambs and lambs of suitable weights.

Even early in the season before buck lambs take on their most objectionable features they are of poorer quality than ewe and wethers, being bonter and having

slack backs or loins. Therefore, like all lambs of poorer quality, they will be culled out and bought at their value in the early part of the season, and after July 3rd, 1933, two cents per pound more will be paid for ewe and wethers than for bucks.

The markets will pay a cent a pound more for lambs of good quality up to 90 lbs. at the stockyards and plants, than for lambs from 90 to 110 lbs., and up to two cents per pound more than for lambs over 110 lbs.

Farmers are urged to meet the simple requirements of the market in order to secure top prices.
1. Castrate all male lambs.
2. Finish and market all lambs within the desired weights.

Weekly Crop Report

Seeding operations, delayed by cold, wet weather for some time are now general throughout the province. Fall wheat, alfalfa and clovers continue in excellent conditions in most sections, while orchards look promising and spraying is being more carefully undertaken this year than for some years. Strawberries appear to have wintered exceptionally well. Hatcheries report an increased business in baby chicks, and poultry flocks properly handled have been one of the best paying propositions during the past season. Young pigs have been bringing \$6.00 per pair on a number of markets.

Poultry Exports Increase

For the twelve month period ended January 31, 1933, Canadian poultry exported to the United Kingdom amounted to some 1,308,895 pounds. This represents an increase of approximately 1,680 per cent. over the previous twelve months during which poultry exports to the United Kingdom approximated 73,194 pounds.

Trading on the Toronto livestock market was moderate during last week with 150 head of cattle left unsold at the close. Prices on hogs and veal calves opened 35 to 50¢ per cwt higher and on Saturday hogs touched \$5. Cattle prices were off 25¢ per cwt., compared with the previous week's closing level. Cattle trade was dull; calves weak; hogs strong; sheep and lambs firm.

Packers' coolers were not cleared out last weekend and the demand was light for killers all week. Prices dropped 25¢ per cwt. on most grades. Top prices were made on Monday with a few prime heavy steers up to \$5.75, butchers up to \$5.25 and fed calves at \$6.25 for tops. Wednesday's sales on weighty steers were at \$4.75—\$5 for choice with rough steers downward to \$3.75.

Good and choice butchers brought \$4.75-\$5 with common downward to \$3.50. Fed calves closed weak at \$5.50-\$6 for choice and at \$4.10-\$5 for mediums. Good butcher cows closed at \$3.25-\$3.50 with a few choice cows up to \$3.75. Canners and cutters brought \$1-\$2 per cwt. Exporters paid \$2.75-\$3.25 for good butcher bulls.

Light stockers sold during the week at \$3-\$3.75 per cwt. and a few fleshy feeders brought \$4.

Milkers and springers were unchanged at \$45-\$50 for tops. There were 410 cattle shipped to Montreal for Great Britain during the week.

Early runs of calves were light and the market gained 50¢ per cwt. Choice weaners brought \$6-\$6.50, with common eastern calves mostly \$3-\$3.50. Wednesday morning trade was strong, but the market lost the 50¢ gain by the close of that day. Thursday's market was weak on a small dun, with a few sales made over \$5.50 per cwt.

Hog market began to reflect strength in the British bacon markets, gaining 35¢ to 40¢ per cwt. during the week. Wednesday's sales were at \$5.35-\$5.40 f.o.b. For hogs, at \$5.60-\$5.65 off truck and at \$5.35-\$5.50 off cars. Packers' bids were down to \$5.25 f.o.b. on Thursday, with very few hogs on offering. Weekend prospect prices were uncertain.

The lamb market was firm all week with a good clean-up on all offerings. Western yearling lambs of medium quality sold on Monday at \$8.50 per cwt. Spring lambs of good weights and of good quality sold at \$7.50-\$8.50 each, and with common to medium at \$4-\$6 each. Sheep sold mostly at \$1-\$3.50 per cwt., according to quality with a few choice light ewes up to \$4.

SALE REGISTER

THURSDAY, MAY 18—Mortgage frame, house and barn at west half lot 6, con. 7, Whitechurch. See display adv in this issue. Sale on premises at 2 p.m. F. W. Silverides, auctioneer.

—in residential district. Sold subject to reserve bid. Chattels cash. Sale at on (S.T.) Prentice and Prentice, Auctioneers.

CORN BORER INSPECTOR

The Tribune was pleased to have a visit on Tuesday from ex-warden W. C. Gohn of Markham Twp., who was on a tour of inspection, as Inspector for the corn borer. After seventeen years in public life the former reeve of Markham feels like a (free) man with the shackles removed. The farmers, says Mr. Gohn, are co-operating splendidly in killing out the borer in this district.
