

### Large Gravel Tender

At the June meeting of the Markham Township Council held at Unionville on Monday, Messrs. Hoover and Roberts were awarded

the contract for all the gravel required in the township this year for road making, at a flat rate of \$1.30 per cubic yard. While this tender was slightly in excess of some others filed, the tenderers agreed to procure all their supplies from the pits

Communication to our

## ALFALFA GROWERS

In view of our ever increasing demand for alfalfa meal both in Canada and also now in England, we wish to make a few suggestions regarding the harvesting of same which will be a guide to those unfamiliar with the best methods (i.e.) for grinding purposes; that we may be able to both improve the quality and also the volume of our product, which will be necessary if we are to retain for our district the business which we have at our command.

First cutting hay is satisfactory for our purpose when it is cut one to two weeks ahead of blossoming, swath cured and raked with dew on to retain leaves. Second and third cutting hay should be cured in the same way, but should be cut when the first blossoms appear, as hay which has reached the seed pod stage is entirely unsuited for grinding purposes.

Hay sired in this way need be left in soil but a few days, but always placed in mow in the brittle stage, if weather conditions permit. This ensures maximum color and grinding qualities; the basis on which quotations will be made this year.

Great care should always be taken to avoid foreign materials, such as stones, metal objects, etc., from becoming mixed with hay as they are very injurious to our grinding equipment and breakages will be chargeable to grower when responsibility for same is apparent.

Mow cured hay only will be purchased this year unless extreme drouth conditions should prevail. Growers with hay ready for disposal are requested to bring liberal sample when suitability will be established; however each load will be bought on its own merits as outlined above.

### WHAT

# PYROIL

## DID AT INDIANAPOLIS

Speaks for Itself

Pyroil used in cars of winners of first, second and fifth places at Indianapolis Motor Speedway Races recently. Wilbur Shaw finishing second drove twenty laps at speed over hundred miles an hour with no oil in crankcase, establishing new track, mechanical and Pyroil world record.

W. V. Kidder, President, Pyroil Co.

You will no doubt never try to be a winner at Indianapolis or drive at 100 m.p.h. for fifty miles without oil. The amazing feats above serve to again demonstrate the wonderful reserve of bearing protection, added lubrication and consequent operating economy resulting from adding Pyroil to your gas and oil.

Removes 50% or more friction, meaning more power, smoothness, quietness, acceleration and less repairs.

## D. F. HOLDEN

The Ford Dealer Stouffville, Ontario

at Whitevale and Jess Cook's in Whitechurch, which were described as giving far superior stuff to others considered. As the council are limited in spending power, none but the highest grade could afford to be hauled.

General accounts were passed totalling some \$500, and relief accounts amounting to \$250.

Road accounts paid totalled about \$1,000, but no action was taken about decorating the hall.

Bank Manager Maynard gave the council a summary of their financial standing, showing back taxes coming along well and other arrears being paid into the county.

Reeve Padgett presided over the meeting with members all present including Deputy Reeve Robt. Smith

### BLOOMINGTON

Miss Leta Fockler is visiting here from Toronto.

Dr. J. J. and Mrs. Matheson were in the village on Sunday, enjoying the weather and fine appearance of the country.

Mr. and Mrs. English and family were out on Sunday, and will shortly open their summer home here.

Plowing is highly difficult, with the prolonged spell of dry weather. Rain is needed for the crops too.

The beef ring will open this week with Art Smith as butcher again.

At the weekly meeting of the Christian Endeavour Society of the Christian Church, held last Tuesday evening those present enjoyed a program somewhat different from the usual one. The meeting was in charge of the Missionary Committee with Mr. Bruce Morton as convener and they were successful in securing a special speaker for the evening in Rev. W. J. R. Smith, who formerly was hospital chaplain serving under the United Church of Canada, visiting hospitals of Toronto and Weston. His talk was highly interesting and helped us all to have a better understanding and less fearsome attitude towards hospitals in general. Dr. Smith told of his experiences in such a way that we feel sure many sufferers must have been cheered mentally as well as spiritually by his bedside visits.

### INSPECTED VIVIAN FOREST

The Reforestation Committee of the York County Council of which Deputy Reeve Newton Rae and Deputy Reeve Robt. Smith of Markham are members, met at the reforestation farm at Vivian on Saturday and enjoyed a picnic while on their tour of inspection of the premises. The Committee were amazed with the magnificent growth of the young saplings, and of the thousands planted in recent years they are almost 100 per cent living right in the sand heaps.

Fred Hollidge, caretaker, was congratulated for the manner in which he maintains the grounds. Those in attendance were M. Magwood chairman from York, N. McMurchy of King, Green from Richmond Hill, Thos. Legge of Aurora, A. N. McKenzie of Woodbridge, Osborne of Sutton, Wideman of Markham village, and Supt. Ritchie of the Department, as well as the representatives from Markham and Whitechurch as aforementioned.

## THE FARM COLUMN

In feeding barley to horses, care should be taken that it is never finely ground because it makes a sticky meal which adheres to the horse's teeth and cheeks.

A larger planting than usual of early potatoes has been made in Dufferin County. Owing to the convenience of five-minute acidulated corrosive sublimate treatment, many more seed tubers are being treated there this year. Fall wheat alfalfa and clovers have made excellent growth and are in good condition in most districts.

The keeping quality of milk is determined more by the temperature at which it is held than by any other factor. To keep satisfactorily, market milk must be cooled to around 45 degrees F. and held at that temperature.

Pears Are Peculiar  
Pears are somewhat different to other fruit in so far that they do not develop their highest quality if allowed to ripen on the tree. For example, a William pear that has a tinge of colour on it, wrapped in paper and placed in a drawer for a few days, will ripen in such a way as to give a flavour that is highly desirable.

Farmers' Cheques Exempt  
Hon. E. N. Rhodes, Federal Minister of Finance has made provision in legislation to exempt farmers' cheques, money orders and postal notes of less than \$5 from the provisions of the 3 cent stamp tax, the Ontario Marketing Board announced recently. This means that farmers' cheques for eggs and poultry as well as for milk and cream are now free of the stamp tax.

O.M.B. Reports Syrup  
Going to British West Indies  
The Ontario Marketing Board reports that in the near future, several hundred gallons of maple syrup will go from Montreal to Jamaica, Bermuda, British Guiana and other points in that region. Figures show that practically no Canadian maple syrup has reached the 2,000,000 population of the British West Indies, and very little from any other source.

Kill The Woodchucks  
Woodchuck holes are a great nuisance. They may cause a horse to break a leg, while the mounds may break the cutting bar of a mower or at least blunt the knives. This is the time to get rid of the pests. Search out all the holes and plug up all exits. Into the entrance either put calcium cyanide or else use the exhaust of an automobile. To use the automobile attach a pipe and run the engine for twenty minutes, then plug up the hole and go to the next burrow. In the case of cyanide also the burrow must be carefully closed, preferably with damp earth. When using both these methods care must be taken. Be sure no cyanide is left around where animals or children can get it. Keep away from the deadly gas coming out of the car exhaust.

Walnut Trees Distributed  
To Women's Institutes  
Several hundred Japanese Walnut or Heartnut trees have been distributed to the Women's Institutes of Norfolk and Durham, and to more than one hundred of the Junior Institute delegates, who attended the recent Girls' Conference held at Macdonald Institute, O.A.C., Guelph.

Mr. J. A. Neilson, former nut specialist with this department, generously donated the trees from his Guelph garden, for the purpose of stimulating an interest in this neglected form of horticulture in Ontario.

These trees, which are of a hardy fast-growing race of Japanese Walnuts, are valuable, not only because of their very palatable nuts, but because they make attractive shade trees on streets and lawns. The Heartnuts require very little attention after planting, and if planted on otherwise waste land, they make a very desirable permanent crop.

Gladiolus Thrrips  
A great deal of damage is being done to the Gladiolus in Ontario by a pest known as Gladiolus Thrrips. All citizens growing this beautiful flower are urged to treat the corms before planting, so that the danger may be controlled as far as possible. The following treatment is suggested—Dilute one ounce of Corrosive sublimate in six gallons of water, and after peeling the corms soak them for three hours in this solution, the liquid being kept at about 70 degrees F. This material is deadly poison and should be dissolved in warm water, using earthenware or wooden vessels.

A light dressing of hydrated lime may be sprinkled over the Irises at this time.

Cut worms will soon begin to operate in the garden. A simple means of control is to mix one quart of bran, one teaspoonful of Paris Green and one tablespoonful of molasses, with sufficient water to moisten the bran. This mixture should be lightly sprinkled about the plants in the late evening.

Mr. Roosevelt has before him two years and then a congressional election, four years and then a presidential campaign. If in that time he cannot find some way to promote the recovery of commodity prices in the world he is doomed.

GOODWOOD CEMETERY  
Take notice that a meeting will be held at Goodwood, in the Township Hall, on the Twenty-Fourth of June 1933, at the hour of 8 o'clock, in the afternoon for the purposes of electing trustees for the Cemetery situated in the North-East Corner of the East half of Lot Nineteen (19) and the South-East Corner of East Quarter of Lot Twenty (20) of Concession Two (2) of the Township of Uxbridge.

Known as the Goodwood Cemetery The owners of plots are requested to attend the meeting; also general business.

Dated at Goodwood the Twenty-Ninth Day of May 1933  
R.S.O. 1927 c. 317  
Plot Owners—D. McDonald, T. W. Dowse, I. Wage

COURT OF REVISION  
Township of Whitechurch  
Public Notice is hereby given that a Court of Revision of the Assessment roll for the Township of Whitechurch will be held in the Township Hall at Vandonr, on the 10th Day of June, at 2:00 o'clock p.m. to hear and adjudicate upon all complaints against the Assessment Roll of the said Municipality for the year 1933.

All persons having Dogs died or otherwise disposed of since the Assessment was made, must have their appeals in by the above date, and all other appeals in to the Clerk according to the assessment Act.

No adjustments will be made after the sitting of the said Court.

All persons interested are requested to take notice and govern themselves accordingly.

Wm. Crawford, Clerk of said Municipality  
Dated at Whitechurch, this 25th day of May 1933

### GOODWOOD

Mrs. Fred Woodland visited in Toronto over the weekend.

Mrs. John H. Gulliver of Town Line, Whitby, visited over the weekend with her son, R. J. Gulliver.

Mrs. W. M. Flummerfelt, and Miss A. Flummerfelt of Toronto visited with Mr. W. A. Henderson on Saturday.

Carl Ashenburt underwent an operation for appendicitis, Sunday night, and is recovering very satisfactorily.

Mrs. T. Baston who underwent an operation Monday morning came through the ordeal successfully, but is in very critical condition, we are sorry to report.

The many friends of our genial Station Master, J. F. Reid, are relieved to hear of improvement in his condition. Hope he will soon be up and in his usual place.

Delegates from the B.Y.P.U. convention in Hamilton brought back interesting reports, Miss E. White gave Chancellor Whidden's opening address, Fred Middleton gave very "helpful hints" concerning B.Y.P.U. work, and President, Mrs. J. Slack, covered the convention in a general way, giving the conference part in detail.

The White Cross organization of the Baptist Church is giving a display of their winter work on Friday night, June 9, under the auspices of the B.Y.P.U. in the Baptist Church. Those who saw the display last year are looking forward to Friday night. A silver collection will be taken to send the box to India.

The sympathy of the community is extended to the widow and family of the late Charles Harper, whose death occurred on Sunday night, and reported elsewhere in this issue. The funeral was very largely attended at his late home on Tuesday afternoon. Rev. Mr. Lunan an old friend and pastor officiated, with Rev. George Barry assisting.

Friends of the late Rev. J. R. Baldwin of Toronto, a former pastor of the Baptist Church here, were sorry to learn of his death on Friday last. Mr. Baldwin had been in ill health for some time, and though his death was not entirely unexpected, it caused deep grief among those of both churches here, held him in such high regard. Deep sympathy is extended to his widow, his daughter, Miss Helen and his son.

The action of our county councillors will be watched with interest as they meet in this June session at Whitby. At the January meeting, it will be recalled, a vigorous campaign was set up by both Cannington and Uxbridge villages, for a connecting link of pavement, from their municipalities to the Lindsay highway. They were unsuccessful. Will they get it now, when the campaign is to be renewed. If the representatives from this township allow any such thing to be put over before Uxbridge Township is treated fairly in the matter of a highway, the ratepayers will not take to it kindly. This township has contributed for long years to paved roads all through the county, but not a foot of such roadway is in our municipality. How long will this unfairness last? Let the reeve and councillors tell us.

Mr. Roosevelt has before him two years and then a congressional election, four years and then a presidential campaign. If in that time he cannot find some way to promote the recovery of commodity prices in the world he is doomed.

### BETHESDA

An epidemic of chicken pox has been going around among the younger members of our community.

Misses Selena and Flossie Atkinson of Richmond Hill have been spending a few days at their home here in Bethesda.

On Tuesday evening, May 30th, the Y.P.S. held a social at the home of Mr. and Mrs. Chas. Atkinson. There were 62 present and a jolly time had by all.

Our baseball team met the Sixth Line team in Ratcliff's orchard last Friday. When the game was finished we found that the score was decidedly not in our favour, but we'll beat those husky Sixth boys yet.

We understand our Municipal Council are maintaining a watch at Brodie's sheep pen, on the lookout for prowling dogs. They hope this will be cheaper than paying huge sheep claims.

Quite a number of Bethesda people attended the special services held in Lemonville Church last week. Our choir supplied the music for the morning service, on June 4th. Those from here who attended the supper party enjoyed both the supper and program very much.

The Whitechurch Township Council will meet next Saturday, June 10, for general business and as a Court of Revision on the assessment roll. This week Reeve H. Kidd and Deputy Reeve Rae are in Toronto attending County Council. Last week our council completed the annual road inspection.

Widespread sympathy is felt for Mr. and Mrs. Harvey Taun of Bethesda in the severe loss which they have suffered in the death of their year-old baby boy through meningitis developed following a case of chicken pox, which proved fatal, despite loving care and medical skill. The child died late on Saturday evening, leaving sorrowing parents and five other sisters and brothers, all of tender years.

The funeral took place to Aurora Cemetery on Monday afternoon in charge of L.E. O'Neill's undertaking establishment at Stouffville. Rev. Mr. McNeill conducted the service.
