THE NEW LAW AS TO REVOLVERS

Not much was said about it at the time but the Canadian House of Commons at its 1933 session made an interesting change in the law with respect to offensive weapons. On and after July 15th of this year all permits for carrying pistols and revolvers are automatically cancelled, and:

"Everyone is guilty of an indictable offence and liable to imprisonment for not less than one year nor more than five years who, not having a permit in Form 76, has upon his person elsewhere than in his own dwelling house, shop, warehouse, counting house or premises, or is carrying concealed upon his person, or in any vehicle under his control or of which he is an occupant, a pistol, revolver or other fire arms capable of being concealed upon the person."

This clause substitutes a penalty of one to five years for carrying a pistol or revolver without a permit for the previous penalty of a fine not exceeding \$100 (or) imprisonment not exceeding three months. The latter penalties still apply to the carrying of offensive weapons other than pistols or revolvers. Anyone convicted of having upon his person a pistol or revolver while committing any criminal offence will be liable to a sentence of two years in addition to the sentence imposed in respect of the offence for which he has been convicted.

There are other important changes. The new permits (good for the calendar year) will be issued only if the applicant can show that he "requires a revolver for the protection of life or property." The old wide-open phrase "upon sufficient cause being shown" disappears. This is good legislation. There is no necessity for carrying revolvers, concealed or otherwise, except in the rare cases where these are required for the protection of life or property. And when they are carried without a permit the offence should be, as this new law makes it, a serious one.

Among the many features at the 28th Annual Lennox Picnic to be held this year at Jackson's Point on August 7th, will be an excellent program of aquatic events open to residents of North York. These events will be conducted in plain view of the shore and wharves. In the evening there will be a special display of fireworks from the water.

TREASURER'S SALE OF LANDS FOR TAXES

The July 15th issue of the Ontario Gazette, an official paper of the Ontario Government, contains the list of lands for sale throughout Ontario, which are to be sold for taxes this fall. The villages of Stouffville, Markham and Richmond Hill are not mentioned for they had no lands on which arrears of taxes extended back into 1929, but the Township of Whitchurch and Markham will each hold a tax sale. Whitchurch will offer for sale 42 parcels on which total arrears and costs amount to \$1092, and Markham have 32 parcels to offer against which there is \$1783.49.

A perusal of the list will show that most of the arrears are against sub-division lands in these municipalities and a few dollars would redeem them. The sale will take place on October 11, at Richmond Hill in the morning for Markham lands, and at Aurora in the afternoon for the Whitchurch properties. The totals given as due on each parcel include costs.

The lands advertised for sale are as follows:

- Markham Township
 - Jas. Bellows, (Lot 41, W. 1/2) Plan 2368, Con. 1, 1 1/4 acres, years 1929-30, Total \$15.56

INDIGENT ACCOUNTS MUST BE AUTHORIZED

An application of Dr. G. W. O'Toole of Mildmay, Medical Officer of Health of the Township of Carriacou, for an order allowing him to collect from the Township Council the sum of \$122.50, the amount of an account incurred by a woman, since deceased, whose husband claims that he cannot afford to pay the physician, was disallowed by his Honour Judge Owens here Wednesday morning of last week.

The interpretation of the Judge in respect to Sections 51 and 52 of the Public Health Act, applying to the matter in question, is that before a doctor treats or continues to treat a patient whose circumstances seem to show that he or she is unable to pay for treatment, the physician must get from the Reeve of the municipality or its Relief Officer a certificate to the effect that on account of poverty the party is unable to pay, and the Council accepts responsibility for the account, and His Honour so ruled.

Dr. J. B. Miller, Medical Officer of Health of Mildmay (partner of Dr. O'Toole), made an application of the same nature. The amount involved was \$144—the total of fees charged by him for treating four residents of Mildmay claiming to be indigents. After the application of Dr. O'Toole was disposed of, this matter was settled between the Reeve of Mildmay and Dr. Miller, the latter accepting \$40.

Ontario new potatoes were selling at \$2.50 per bag on tracks at Toronto last week. The price will be more to the liking of our farmers

At the Lennox Picnic this year to be held at Jackson's Point, on August 7th, a specially arranged game of box lacrosse will be played between teams from Aurora and Thornhill. All lovers of sports will be sure to enjoy this feature.

CLAREMONT

The Women's Missionary Society of the United Church entertained the members of the Locust Hill W.M.S. at its July meeting held in the lecture room of the church on Thursday afternoon. Fifty members and visitors were present, and an interesting and profitable meeting was held. The Claremont president, Mrs. D. A. Scott, presided at the opening devotional exercises and business session, then Mrs. Hoover, president of the Locust Hill Society, was invited to take the chair and a fine program was given by that society. Two excellent papers were read, one on "Nature," by Miss Maxwell, and the other, "A Woman's Decision," by Miss Ireland. The latter paper was based on the story of Naomi and Ruth. Mrs. Ramer led a series of prayers offered for the missionaries and their workers. The temperance topic took the form of an interesting and helpful discussion led by Mrs. (Rev.) Bick. Two special musical numbers were much appreciated. These were a vocal solo by Mrs. Raymer, accompanied by Miss Raymer at the piano, and a piano solo by Miss Raymer. At the close of the meeting the two societies spent social hour together and the group in charge served afternoon tea.

CREAM GRADING

In addition to taking care of your cream it is most important that it be graded in the shortest possible time after leaving your place. It would not only be a loss, but also very discouraging to know that in many cases your cream might have been 1st, or special grade when leaving your place and becoming 2nd, grade in transit, or time lost before grading. After you care for your Cream, we on our part are doing everything possible to assist you in receiving the best grade.

From those whom we collect their cream by truck we are now collecting twice a week, and by being situated so close to our shippers we are able to get your cream in very short time. Our cream shippers who are delivering their cream to the Cramery are able to bring it at any time during the day and in addition three nights a week, in any quantity, and their shipments are graded immediately, as it comes in. For original grade, highest price, correct weight, and test ship your cream to

Another Big Loan

Federal Government compelled to add to \$2,600,000,000 burden already demanding large slice of annual income—Money lender gets more while national services suffer.

COSTING 135 MILLION A YEAR NOW

Hon. E. N. Rhodes, Canada's Minister of Finance, leaves the World Economic Conference at an early date to return to Canada for the purpose of preparing to float a loan currently supposed to be in the neighborhood of \$400,000,000. Before parliament adjourned Finance Minister Rhodes was given authority to float not exceeding \$750,000,000. There are two reasons why money is needed by the federal government and must be raised by loan. One is maturing loans of former years totalling \$170,000,000 which become due and for which the government has no funds to settle. The other is the fact in spite of new and heavier taxation in three successive budgets the annual revenue of the federal government is once more falling behind expenditure. Even faster than expenditure is pared the revenues sink. This process has not yet been halted by the upturn in affairs noticed recently in Canada. One deplorable effect of the need of borrowing further sums of money is that the annual interest bill, which, counting the C.N. interest, now runs "almost as high as the total sum paid out in essential government services plus war pensions," will grow still higher. Some progress was made in the large conversion loan two years ago in paring down the annual interest bill, but this has been offset since since by the need of additional loans.

Canada's national debt is now over the \$2,600,000,000 mark, and counting adverse exchange the interest bill last year was in the neighborhood of \$135,000,000. As against this the entire sum devoted to the civil service of Canada and all departmental services in the current year is only \$140,000,000 and drastic efforts have been made to cut this down to \$126,000,000. Repeated protests have been made in the House by C.C.F. members against the tendency to pay money its wages without serious attempt to limit the cost while ruthlessly deflating labor wages and other expenses of the federal treasury.

Deficits in the last three budgets have added some \$350,000,000 to the national deficit of Canada, and unless revenues pick up there will be another staggering deficit in the current year. A little more swelling of the annual interest bill and a little more paring into vital services and the Canadian public will see the spectacle of the bulk of its taxes going directly into the hands of the money lender for interest.

Boxing, wrestling, baby show, softball, lacrosse, aquatic and other sporting events, horseshoe pitching, 6 Brass Bands, the Lindsay Boys band, Grafstein's Ladies band., Bob Balloy's Jazz Band, Community singing, fireworks from the waterfront and a big Midway, Rides and Vaude-

ville are among the long list of attractions.

GREEN INDUSTRY AT GREENWOOD IS 100 YEARS OLD

Green Family Have an Outstanding Milling Record.

One hundred years milling in Canada, and several generations before that in England—this is the unusual and creditable milling record of the Green family at Greenwood. Just one hundred years ago last week the late Frederick Green, J. P., the father of F. L. Green, present operator of the Greenwood mill, landed in Quebec. The Green mill at Greenwood is the oldest established industry in Ontario County, and possibly in Canada, operated by the same family. "Times have changed," said Mr. Green a few days ago to the Gazette and Chronicle, "country mills are finding the going hard and over half of them have been forced to close up in the past few years. found mills that once were a hive of industry, but they are no more. A Mr. Green has in his possession a pair of stones which were used to grind flour, etc., by hand in the Township over a hundred years ago, when there were no mills for many miles around Greenwood. There was no unemployment in these days and the hardy pioneers worked with crude instruments and earned but little.
