**A New Appellation**

Markham, Ontario, November 1933

Editor Tribune

Dear Sir:—  
 When I requested you to publish a letter for me a few weeks ago, I had no thought of entering a controversy with C.C.F. admirers, yet I might have known that invariably a person will be stirred if you step on their corn. I apparently drew the thunder of two disgruntled old time politicians. In both instances these writers in your issue of Nov. 2nd set out to win their positions much like the Tories have done from time to time at Ottawa by a bombardment of words—talk and more talk.

The letter entitled "A Reply" simply exemplified what I had previously charged the C.C.F. platform of being—a tissue of fanatical, impracticable ideas. The other writer seeks to ignore the facts I stated by drawing a sort of historical herring over the matter.

These writers will have noticed the results of the B. C. elections, and if they would analyze the outcome following the campaign they should be convinced that if Canada wishes to discipline the Tory party, she will do so by putting into power a Liberal party, a party with a reputation and record for safe and tried government. The C.C.F. didn't stand the test in the West. Their campaign speakers sort of let the cat out of the bag as to the aims of their would-be system.

One speaker in the campaign stated that if the C.C.F. achieved office "God Save the King" will no longer be sung. Another said that socialism would be taught in our schools. William Pritchard, leader of the C.C.F. is reported to have apologized for saying he was "running against the lamented Mr. Christ."

Once again let me be worn that this is no time to "change horses in the middle of the stream," for perhaps a leaky boat, and a lot of lazy oarsmen who do not take kindly to hard rowing.

The fact that the C.C.F. is drawing to its bosom those who will not work is some evidence that they look up on their own platform as though the C.C.F. stood for the "Comfortable Chair Federation"

Now Mr. Editor, for fear I be drawn into the error of those whose I drew through your paper, I close with saying that Canada is on the up grade. Mr. Bennett's policies have been tried, and however sincere, they are not doing for us what the people want and need fast enough. The hand writing on the wall tells me that Canada is sweeping back to Liberalism and lower taxation, in no uncertain way. The "Comfortable Chair Federation" is a real danger to our strength because it does appeal

Owing to weather conditions the orchestra demonstration last Saturday evening was cancelled. It will now be held on the first Saturday evening weather permits, and weekly thereafter for some time.

just like a warm fire on a bitter cold day, and it is for this reason only that I say to Liberals everywhere—Do not be induced to forsake your party with a leader who is fighting for the poor man's rights all the time—for a party that is not likely to do anything but try and wreck us, or halt our advance. I read Miss McPhail's and Mr. Philpott's remarks as published in The Tribune last week, but cannot deal with them because I do not wish to trespass further on your space.

Your sincerely  
 "Experience"

**Farmers' Information**

**Winter Fair Dates**  
 Royal Winter Fair, Toronto—November 22 to 30.  
 Ontario Provincial Winter Fair, Guelph—December 5 to 7.

**Get Rid of the Barnyard Boarders**

In preparing for housing the stock for winter, all surplus work horses, finished beef cattle, boarder dairy cows or decidedly poor type heifers, old ewes and old sows should be culled out and disposed of to the best advantage.

**Turkeys in Winter**

Breeding turkeys should not be confined to houses during the winter months but allowed to roam at will during the day. The only shelter that is required for them at night is a straw barn or closed-in shed. They should not be kept in a draughty place, but any building that will provide shelter from wind, rain, and snow is quite suitable. Never house turkeys with hens or in heated houses because colds which later develop into roup are almost sure to follow. During the winter months the breeding turkeys should receive only limited rations, as they have a tendency to become over fat, if well fed. Hard grain should be given in preference to mash or ground grains. Equal parts of oats, wheat, and buckwheat are quite suitable during the cold months, but when the weather moderates in spring, the buckwheat should be discontinued. Once daily during winter is often enough to feed, and fresh water should be provided at least once a day.

**Weekly Crop Report**

Thousands of barrels of apples were damaged by a severe frost, states a report from Peel County, and as a result the cider presses are running to capacity. Most farmers in North Simcoe will be rather short of roots this winter as the crop would average less than 50% normal. Shortage of pasture in many districts will result in cattle going into winter quarters in poor condition. Sugar beet harvest in Kent County is about completed and has been delivered to the factory in splendid condition. Lincoln reports that condition of fall wheat has seldom been better than at present. In Frontenac the farmers have a big surplus of livestock and a large number will have to be sold owing to shortage of feed. In Temiskaming this has been the finest fall the farmers have had for several years for completing the season's work. Harvesting and threshing were over in good time and farmers have had ample time to get their fall plowing done.

**Topics of Timothy**

Timothy is used in Canada almost to the exclusion of other grasses, largely because clean seed of strong vitality is generally available at a low price. The expense per acre of seeding is less than with any other grass. Timothy, if fed alone, is of low nutritive value for growing animals or for milk production, because it is deficient in flesh-forming constituents. It is, therefore, not a profitable fodder by itself for those purposes. A liberal mixture of clover improves it.

**Co-operation with the Farmer**

LONG ago The Canadian Bank of Commerce developed a form of co-operative banking service. Each branch was to be a "community bank", to serve first in the interests of the district, and, secondly, to place its customers in contact with a nationwide and world-wide service.

This modern, far-reaching banking service is of the utmost value to every progressive farmer.

**COMMUNICATION**

Some time ago we heard a sermon in which the thought was that parts of the "Sermon on the Mount" were "impracticable." Surprising, though this theory may sound from a pulpit it is a fact that it is commonly taught. Children are urged to "take their part"; "Pay him back"; "Don't Take It"; "Stand up to him"; "But to walk away? Is it impracticable? We cannot help wondering what would be the effect on the frenzied nations of Europe if England alone were to declare her faith in the Divine as an arbiter of disputes and introduce a vigorous policy of demobilization—We Wonder?"

**FOUND—Red and White Hound.**
