### New Canada Movement

Representatives were in town last week arranging for holding meetings and organizing for the New Canada Movement which is invading Ontario. This new organization is said to be non-partisan and aims to arouse interest in present economic and political conditions through education. It is planned to hold meetings all over York and Ontario Counties.

Speaking to The Tribune a representative explained that this movement is the response of Canadian youth to the need for new methods, new ideas, new men, to face and deal with the crisis. Like youth movements everywhere it is based on a recognition of the fact that we are living in a world utterly changed by the machine, and that the methods and ideas of our grandfather's or even our father's time will not work.

Like the Youth Movement of the United States particularly, the New Canada Movement is based on the feeling of Canadian youth that the time has come to examine the facts of the depression and to devise solutions based on the facts. This was the faith of the group who started out last Autumn to storm Ontario county by county. Meetings will shortly be held in Stouffville and Victoria Square.

The first job of the movement, he explained is to "save agriculture" which will be the movement's slogan. The movement is however to extend beyond the mere economic future.

#### MELVILLE

The Melville Auxiliary of the Woman's Missionary Society observed the Women's Day of Prayer on Friday last at the home of Mrs. Edgar Nigh. Following the meeting a pleasant social time was enjoyed.

### A ONE MAN TOWN

The doctor has closed up the clinic and Williamsburg has suffered as a result, says the Brockville Recorder. Where cafes and restaurants appeared on every corner, only one remains open; the others digging in for the winter with shades drawn. Hotels remain open only to keep fires up. Stores are supplying only the native; the popular shoe store is given but bare of customers; not even the street corners sport any activity, the streets being almost completely deserted. Dr. Locke is taking a month's holidays.

### AUCTION SALE!

Farm Stock, Implements, Etc.  
The undersigned has received instructions to sell by public auction at  
Lot 10, Rear Concession 9,  
PICKERING  
(The Pugh Homestead, 1 mile north of Cedar Creek School) on

### WILL EMPLOY INSPECTOR TO INSPECT AND REPORT ON ALL CLAIMS FOR FIRE INSURANCE

Important Policy Enacted by Maple Leaf Mutual Fire Insurance Co at Annual Meeting

Faced with an annual report which indicated a continuation of the unusually heavy fire losses, the policy-holders of the Maple Leaf Farmers Mutual Fire Insurance Company of which Thos. Birkett of Stouffville is the local agent, at their annual meeting in the township hall at Columbus, unanimously instructed the directors to employ a full-time, fully trained and qualified inspector to inspect all properties on which applications for insurance are made, and to report on these applications before they are accepted by the directors. The desire for a change of policy, to meet the changing conditions, was also evidenced in the election of four directors to serve for the next three years. Out of the four elected, three were new men, these being Lance B. Beath, East Whitby; Frank L. Mason, East Whitby and Gordon D. Conant, of Oshawa, while Grant Christie of Manchester, warden of Ontario County, was the only one of the four retiring directors to be re-elected, those who were defeated at the meeting being Croighton Devitt, of Burketon; Samuel Snowden, of Bowinville; and Robert Armstrong, of Locust Hill. M. Bagshaw of Sunderland was elected to fill out the unexpired portion of the term of office of H. E. Webster, who resigned from the directorate, while A. E. Morton of Kirby was elected to fill out the term of the late I. T. Chapman.

The other directors of the company are Thomas Graham, Port Perry; H. G. Macklin Bowmanville; William Ratcliffe, Brooklin; Lt. Col. R. B. Smith, Columbus; T. B. Mothersill, Oshawa, the president, and D. M. Morgan, Claremont, vice-president of the company.

**President Re-Elected**  
At a directors' meeting which followed the annual meeting G. B. Mothersill, of Oshawa, was re-elected as president of the company, and D. M. Morgan, of Claremont, as vice-president. Paul G. Purvis was re-appointed as secretary, and A. J. Howden was chosen as treasurer, as successor to Samson Roberts, who retired from that office after some years of faithful service. H. L. Pascoe and F. Wilcoxson were re-elected as auditors of the company.

One of the high lights of the meeting was an address by R. Leighton Foster, K.C., superintendent of insurance for the province of Ontario who, along with J. G. Gibbons, from his office, was present at the meeting, and highly complimented the company on maintaining a splendid position, in spite of heavy claims for fire losses.

The company, he said, was very sound, but he advocated greater caution in respect to accepting risks and over-insurance. He also stressed the necessity of proper inspection methods, and this had a great bearing on the decision of the meeting in favour of the appointment of an inspector for the company.

Among the policy-holders who expressed strong views in the same direction were G. W. McLoughlin, Lance B. Beath, F. L. Mason and Gordon D. Conant and the manner in which their speeches were received indicated that their views had the approval of the majority of the audience.

**Hatching by Incubator**  
Before using the incubator check it for leaks and breakages and test the thermometers. Place the machine in a well ventilated room or cellar which is kept at a uniform temperature. The eggs used should be of normal shape and appearance and at least 24 ounces to the dozen. Control the moisture according to the appearance of the eggs after they are set. On the seventh-day test the air cell should be about one eighth the size of the egg and on the eighteenth day about one quarter. The eggs should be turned twice a day. Test for fertility on the seventh and eighteenth days, closing the machine on the eighteenth. Above all follow the instructions given with the machine when purchased.

**Proper Finishing Will Repay Ontario Shippers**  
"This cattle feeder who ships only properly finished cattle," said Garnet H. Duncan, livestock investigator, Ontario Marketing Board, "is very definitely helping himself. The liquidation of unfinished cattle will meet a poor sale, under present conditions. This is due largely to the fact that packers have such huge quantities in storage. On the other hand Ontario has considerably less cattle feeding than normal consumption demands.

"The rise in hog prices will reflect itself on cattle prices, and finishing cattle properly will repay the feeder, and reduce this excess storage of beef.

"The result of marketing unfinished cattle at present will be an increase in the storage supply. Further than this, feeders will find themselves with no cattle to ship when prices advance.

"In my opinion, the wise shipper will feed to finish his stock, and distribute the supply over the next few months."

**The Mutton Sheep**  
The production of mutton has become largely a question of furnishing lambs to the markets. As in beef or pork, the demands of the market call for young meat and comparatively light weights in carcasses. The premium paid for baby beef and bacon hogs applies with even greater force to sheep. Thick, fleshy, but rather light joints are what the cook calls for whether for the home table or the restaurant. The tastes of the consumer have been cultivated to discriminate in favour of the tasty, tender, lamb until we find that from 70 to 80 per cent of the sheep that reach the market are less than one year old.

### Farmer's Information

**Planting Early Cabbage**  
Early cabbage is a very good money crop. More value may be obtained from an acre of it than from the same area devoted to many other crops. Seed sowing should be done early in March and the plants grown in flats or tub pots and later put in four inch pots. Hardening off before planting in the field is very important. This will make the plants frost hardy. As soon as the plants show signs of growth in the open field, apply a side dressing of nitrate of soda.

**Time to Castrate Pigs**  
The early castration of market pigs has many advantages which should not be overlooked by breeders.

Young pigs are easily handled, suffer very little and heal quickly with a small percentage of losses, if the operation is properly performed and necessary precautions are taken to prevent infection.

At the Dominion Experimental Farm, Indian Head, pigs for market purposes are castrated previous to weaning time. Pigs to be weaned at six weeks are castrated at one month of age or if weaning is done at eight weeks they are castrated when about six weeks old. Experience at this Farm has shown that nursing pigs suffer less set-back and heal more rapidly, with a smaller percentage of losses, than older pigs.

**Cuts Hog Costs**  
While hogs have been climbing to the best price reached since 1931, Clark Young of Milliken, has been busy establishing a world's record for cheap production. He reports a hundred pounds gain for every 281 pounds of feed used, which is eight pounds better than the record of the Indian State College previous holder of the record. Authorities at the Ontario Agricultural College consider one pound of pork gain for every four and one half pounds of feed decidedly above the average.

Mr. Young gives his total cost per hundred pounds of pork for the entire six months feeding period as \$4.78 which represents more than \$13.00 net profit per 200 pound hog at present prices. Not only have Mr. Young's hogs been fed cheaply and quickly (they were marketed at six months) but the quality according to the grading at Toronto and the bacon reports from Great Britain, where the pork was marketed, has been the best. Mr. Young figures his costs from weaning to six months as follows: 2,050 pounds of mixed home grown grain, 400 pounds of shorts, 1,650 pounds of special concentrated feed, total cost \$69.57 for one lot of eight hogs.

**Miss Audrey Lewis** had supper with Mrs. Albert Batt Tuesday.  
Mr. and Mrs. John Lewis had tea on Sunday night with Mr. and Mrs. Jas. McCreight.  
Miss Lena Reeve was the guest of her sister Mr. Jas. McCreight, over the weekend.  
Miss Lena Reeve of Toronto and Mr. Ralph Boyd had supper on Saturday with Mr. and Mrs. John Lewis.  
What horse and cutter was that going south in the wee hours Sunday morning? How the bells did chime.  
Mr. and Mrs. Wm. Boyd of Tottenham visited with his parents Mr. and Mrs. David Boyd on Saturday, his brother Bruce returning home with them.

**Card of Thanks**  
I wish to thank the Bible Class of the Sunay School for the beautiful plant they sent me during my illness, also the Women's Association for the lovely flowers, and Mr. Woodburn for placing a radio in my home. I appreciate these acts of kindness very much.  
A. B. Steckley, O'Brien, Ave.

**Card of Thanks**  
We wish to extend our sincere thankfulness to all those who so kindly helped and sympathized with us during the illness and passing of our dear mother. We also thank the Women's Institute for their kindness shown toward us in our recent bereavement.  
Son Arthur Lewis  
Daughter Mrs. A. E. Davis

**In Memoriam**  
Cockerill — In loving memory of Louie Cockerill who passed away February 24th, 1931.  
Three little words "Forget me not." They don't seem much, but they mean a lot.  
Just a memory fond and true.  
To show, dear Louie, we think of you.  
Sadly missed by family

**Winners in Bacon Competition**  
In the 1933 Bacon Litter Competition there were 135 entries, and 68 completed and qualified. The Province is divided into districts and the highest scoring litter of the competition was owned by Grant Summers & Son, Aylmer, winner of district number 2, who marketed 11 pigs grading 10 selects and 1 bacon, and weighed 2,270 at 171 days. In district number 1, W. E. Sonley, Port Perry, was first with 11 pigs grading 10 selects and 1 bacon. Winner of number 3 district was B. T. Bolton, Dublin.

**Sudden Death of Claremont Old Boy**  
Death came suddenly to Edwin Luther Boves, C.N.R. agent at Peterboro on Saturday afternoon, Feb. 17, in the Nicoll's Hospital of that city. Deceased suffered a severe stroke just after completing his days work on the afternoon previous. He was removed to the hospital but failed to rally and the news of his sudden illness and death came as a great shock to his aged and invalid mother of this village, to whom he was most devoted, and also to the host of friends whom he had in Claremont and vicinity. The late Mr. Boves was born here 62 years ago and began to study telegraphy at the office here, after school hours, while still a young boy. At an early age he was employed by the C.N.R. Company and had continued to work for it until his last illness. He had been station agent at Peterboro for more than thirty years. Deceased was a very kind and generous nature and had a pleasing personality which won for him many friends who will deeply regret his passing. He is survived by no near relatives except his aged mother, Mrs. M. J. Readman, who has been an invalid and shut-in during the past five years, and to whom the deepest sympathy of the community is extended. He was a member of the United Church and belonged to the Society of Masons and of Odd Fellows. The remains were brought to his home here on Monday morning following a service at Peterboro on Sunday evening. On Tuesday afternoon a private service was held at his home here at 1.30 o'clock, conducted by Rev. J. E. Glover. This was followed by a Masonic service in the United Church after which interment took place in Claremont Union Cemetery.

**Wanted to Buy**—Quantity Goose or Fall Wheat. George Winn, Stouffville, or telephone Tribune Office.

**FRUIT TREES**—pruned and sprayed at reasonable rate. All material supplied by me. Edw. Walls, phone 7820.

Drill, with Fertilizer attachment, 13 Drill, M.H.; Riding Plows, Walking Plows, Mowers & Binders, Land Rollers, Cutting Boxes, with or without Blowers. Any of these machines will save you money. They have years of service in them.  
B. REXLIN  
Highest prices for poultry, wool and Hides, phone 192.

The age of heavy mutton is passed—a condition most favorable to the sheep raiser, who is thus enabled to reap quick returns from his flock. The increasing demand for lamb mutton this season augurs well for the future of the industry, provided care is taken to keep up and improve the grade of the product.

A dairyman, Clifford Robinson, who installed radio in stables and who keeps it going during milking time is authority for the statement that cows grow restless and give milk reluctantly amid jazz and blue but give freely and abundantly when soft soothing, sentimental music is in the air. He does not say whether crooning is included in the latter category, but we suspect it is and that his cows have not tired of it yet.

#### GORMLEY

Mrs. Margaret (Malcolm) Miskelly, widow of James B. Miskelly, of Belfast, Ireland, died last week at the home of her son, Albert Miskelly, in her 87th year. Mrs. Miskelly was born in Ireland and came to Canada 27 years ago.

She first settled with her son, Albert, at Toronto, but four years ago moved to Gormley to live with her son, William. She was a member of the Presbyterian Church.

Surviving are one daughter, Mrs. Wm. Harrison, of Toronto; two sons, William, of Toronto, and Albert, of Gormley; eight grandchildren and three great-grandchildren.
