## 37 SEEK POSITION ON SCHOOL STAFF

One Applicant Neglects to Sign Name to Their Application—Salary Asked \$750 to \$1500

### DESERONTO GIRL APPOINTED

Thirty-seven applications have been received in response to a small four line advertisement placed in a daily paper for a teacher wanted to fill the vacancy on our Continuation School staff, caused by the resignation of Miss Pearl Stiles. The majority of the applicants are university graduates, but many of them lack experience. In view of the fact that it is a very difficult time of the year to change teachers from the standpoint of the progress of the school, the trustees determined that only a well qualified teacher with plenty of experience, would be acceptable, and this with one stroke eliminated about two-thirds of those applying for the position as they were opened before a special meeting of the Board held last Thursday evening. These are being submitted to the School Inspector and later one or more of them will be given a personal interview.

The 37 applicants asked salaries all the way from \$750 to \$1500, and some claimed 15 years experience while others are just out of University.

One applicant made out the application on a type writer and then forgot to sign his or her name to it. Needless to say this individual will not be engaged, for more than one reason.

On Wednesday afternoon just before press time a special meeting of the School Board was called to meet Miss Shirley Colclough who came from Deseronto in response to an invitation from the Board, and so impressed were the members that she was engaged to fill the vacancy on the staff, and at a salary of \$1200. Miss Colclough is a graduate of Toronto University, and last year attended Toronto College of Education.

F. L. Button, K.C. attended the funeral service of the late Hon. Mr. Justice Armour at St. Simons Anglican Church, Toronto, on Tuesday. Both were graduates of Osgoode Hall in the Class of 1902.

## Whitchurch Council

Relief accounts bordering close to \$400 were paid at the monthly meeting of the Whitchurch Township council at Vandorf on Saturday, but it is anticipated that from this on the cost of relief will greatly diminish as spring opens up and presents more opportunity for men to get work.

One chap who had been in tough circumstances for many months, wanted to know if the council would finance him to the extent of \$200 toward locating in Northern Ontario as a settler.

Reeve Kidd said he was not in favor of any such grant. Any one who could not make good here in old Ontario wouldn't be any better off up there. He would not be adverse toward paying something on the fare to New Ontario, if the family are determined to move there. "I can't see how we could safely start financing such a thing," was the way Councillor Toole voiced his disapproval of the large grant, while Councillor Morton thought that assistance toward car fare was all that could be expected of the council. The family have been on relief all winter.

Councillor Ratcliff and Deputy Reeve Rae moved the acceptance of the auditor's report presented by T.B. Rae. The resolution said that the report was satisfactory in every way to the council, and that the seal of the corporation be attached to the motion which carried unanimously.

This is the first year the Township has ever employed an outside auditor.

All the sheep killing wolf-dogs are not dead yet as H. Powell presented a claim for one sheep killed also Henry Widdfield lost one sheep through the device of a mutton-eating cur, and both were paid \$5 to recoupe them for their losses. Ernest Preston was able to shoot one dog, caught at Powell's sheep, and was rewarded by a \$5.00 grant for disposing of the cur.

Council got a job when they were billed \$34 for a 500 page ruled book in which to keep the records of unpaid taxes returned against properties, now that they are not to be sent to the county treasurer anymore. However, the book had to be procured, and the price is as low as it could have been procured for from other firms in the business.

Councillors Ratcliff and Toole introduced a resolution authorizing the clerk to submit to the Minister of Highways a petition for the statutory grant on road expenditures in 1934 on an expenditure of approximate to that of 1933 which was \$11,237.89.

Herb Pegg was paid \$1.50 for valuing sheep.

## DR. FREEL CHATS ABOUT FLORIDA

When the Tribune interviewed Dr. Freel who has just returned from St. Petersburg, as to whether there was anything startling in Florida, the scribe was told that "cracking down" and "snivelling" were the favoured expressions. General Johnson, the head of the N.R.A. cracks down on the cleaners, steel men, etc., who do not observe the code, while snivelling is the time-worn pastime of the unfortunates who get caught in the bank tumbles and stock market crash.

The employees are loud in praise of the N.R.A. Why not? But the employers shake their heads and hope for the best, even with limited output and unimproved machinery.

Cracking down in the shape of heavy fines keep all in line. The Doctor could see no difference since the passing of prohibition.

One example of the depression in the South is that the schools of St. Petersburg are closed with 6,000 children going uneducated in the institutions. The place became aroused and parades were held with teachers, bands and boy scouts assembled. A subscription was taken up. Parents subscribed \$50,000, teachers knocked off \$15,000 in salaries, and the general public gave \$40,000. Truly the child is the uncrowned king in every community, says the doctor.

The north shore of the Gulf of Mexico is alive with millions of wild geese and ducks. Sporty chaps lead and ox by a halter and while hiding behind the animal bag, all the game they want.

The doctor promises to draw a map for "F.L." and Sam indicating the way to this sportsman's paradise.

There is to be no more snake talk (fearing The Tribune circulation in the South) as the doctor got in trouble last year for enlarging on that subject. Florida friends darkly hinted that too much "corn" developed reptiles by the millions. The skin of a six foot rattle snake is on exhibition in Tribune Office window. Sunshine in Southern Florida is consistent, day in and day out, month by month, steady on the job, with seldom a whole day without its beneficent presence. They heat water on top of houses and shirts on the backs of men with equal ardor. February was cool and wet.

Prices of fowl are not materially different in the South for December turkey sold at 25c pound, geese 30c, chickens 25c, and strictly fresh eggs 50 cents dozen. What the doctor termed "yard" eggs, and the chauffeur (Ross Lewis called Model T. variety, and which are said to be more useful as tear gas, could be procured at a slight reduction. Oranges are sold by the pall at 25c for the whole tub, while Toronto prices prevail for most groceries, also meats. He thinks some of the skill of Ambrose Stover, the local dough puncher, is needed in bringing the bread product up to date.

On asking what the U.S.A. think of Canada, the doctor smiling, said that "we used to be asked tearfully, about our whiskey privileges, but now it is our banks." Canadian Bank cheques went at par in December, which is some change from other years. At present all deposits in U.S. National Banks are guaranteed up to \$2500 till June 1st next, the banks themselves deposit with the government certain moneys, in part, for that purpose.

The ten billion dollar budget staggers Wall Street but the people haven't forgotten how New York bankers, without a flicker, sold 60 million shares in one small particular company without nothing particular behind it.

The poor Reds will find it hard sledding in Russia, as new sources of gold have been found there, ready for immediate working. What quinine is to malaria, gold, yellow and cold, is to Communism, so says Brisbane.

Along the Gulf of Mexico's low lying shore, small trenches are dug inland, which allows the fish to come up and eat the eggs of the salt water mosquito. Gamosia, minnow eats continuously, devouring 8 to 10 times his own weight, daily. This is equivalent to a heavy man eating over 2000 pounds of beef a day. Some minnow!

When the thermometer gets into the 40's every one shivers, down in Florida, but 70 is quite comfortable. Says the nigger poet, George Washington Watermelon, "When that ole sun dun shine, On hear dem little pickaninies whine."

The Bowling Club is in the heart of St. Petersburg with a membership of 232 men, and 100 women. It has fine club rooms and spacious marl rinks (no sod, as grass refuses to grow in the tropical heat.) Good fellowship is the way of the bowlers every where.

## NAMED SUPERVISOR CHILDREN'S AID

B. W. Helse, Stouffville Boy, to Check Work of Societies

Starting a new approach to child welfare work in the province, Hon. W. G. Martin, Minister of Public Welfare, has announced the appointment of B. W. Helse, director of the Hamilton Children's Aid Society, as field supervisor of children's aid societies in Ontario. Mr. Helse will take up his duties immediately.

"This is a new position and we are fortunate in having a man of such outstanding ability as Mr. Helse to occupy it," said Mr. Martin. "I wish to make clear that we are in no way attempting to interfere with the work of the various societies. Mr. Helse will be a liaison officer between the Department of Public Welfare and the societies. He will visit them regularly, make suggestions, and generally co-operate with the institutions in the carrying out of their duties. It is an entirely new approach to child welfare work in Ontario."

Mr. Helse was born at Stouffville, Ont. He was educated in public and high schools here and later attended the University of Toronto. In 1925 he graduated in social science and was connected with the Big Brother movement in Toronto until 1928 when he was appointed to superintend the work of the Buffalo Children's Aid Society. He remained there until April, 1930, when he was named managing director of the Children's Aid Society of Hamilton, which position he now holds.

He is a member of the Canadian Association of Social Workers and is convener of the membership committee; a member of the executive of the Provincial Children's Aid Society; a member of the executive of the Council of Social Agencies of Hamilton; a member of the executive of the alumni of the Toronto University Social Science Department, and is secretary of the 1934 conference of social workers for Canada.

## Bowlers Consider New Club Building

At the annual meeting of the Men's Lawn Bowling Club on Tuesday evening at which Councillor M. E. Watts was elected president to succeed Mr. E. M. Still, consideration was given to the erection of a new club house. A comprehensive plan had been drawn for consideration of the members, by Mr. Fred Sanders, architect, Toronto, and a committee was formed to further delve into the matter of costs, etc., and report at a meeting to be held in two weeks at which full consideration will be given the whole question.

A list of the new bowling officers will appear in our next issue.

ors, and shows the same good judgment, which made him a success while in the Reeve's Chair in Stouffville. "Fredrick and Fred's Mary, as usual bringing home the bacon in car lots," says Dr. Freel.

The glad hand is quite a study in Florida. When you enter St. Petersburg, a morning paper is handed you at the toll bridge, so that you may locate a room, apartment or bungalow, but when you enter Sarasota, after a ride on a dinky little ferry holding 21 cars, you are hailed by an officer in full uniform, who shepherds you to a thatched bungalow, where some courteous young man supplies a map, a newspaper, while a dainty Miss hands out orange juice to you.

The winter quarters of the Ringling Circus is only fair, but the Ringling Arts Building is magnificent, with its wonderful original paintings, statuary and Italian Villa buildings.

On February 9th, when the thermometer stood 34 below at Stouffville, the Freels were sweating at Tampa Fair.

Tampa Fair had a wonderful display of tropical fruit and poultry. Tampa is distinguished for moderation in lynching, only one negro so far this winter being done away within this manner.

The dog races are quite a curiosity, modelled on the horse variety, but when it comes to hurdling, the grey hounds simply flow over the barriers. Heavy canvas is stretched across the track to stop them from chasing the electric rabbit, which goes hopping along in a realistic manner.

"One hound, with the suggestive name of Tom Cat looked an easy winner at one race I saw," said Dr. Freel, "but a sore looser suggested his name be changed to 'Red', as he proved more fond of fighting than working at his job."

## NATIVE SON LAID TO REST HERE

Dr. James T. Daley Passed Away After Short Illness

(Port Hope Guide)  
Port Hope received a decided shock this morning (March 6,) at the news of the sudden death of Rev. J. T. Daley, D.D., Children's Aid Inspector here for 15 years. Dr. Daley, though in frail health due to an accident nine years ago, was a very active man and was about as usual until last Thursday. Saturday he was taken to the hospital here and despite everything being done that was humanly possible to save his life, he finally succumbed to the attack of pneumonia this morning.

Dr. Daley was born in Stouffville in 1863, being the youngest son of late James T. Daley. After public and High School, he went to McGill University, Montreal, and graduated with his B.A. in 1890. Following this he went to the Canadian Congregational College and then finished up with a year in the Union Theological College, New York.

His first charge was at Burford, near Brantford where he went in 1891. In the same year he married Mary R. Unsworth, daughter of the late Rev. Joseph Unsworth of Toronto, and at one time pastor of the former Congregational Church in Stouffville. From there he went to Maxville, Glengarry County, where he stayed for 15 years, after which he came to Cobourg where he resided for five years, from 1914-1919, when at the request of the Children's Aid Society, he took over the position of Inspector. This, Dr. Daley thought would be a needed change and a relief from the active work of the ministry but he was just as busy as ever, even right up until his final illness.

He was a member of the Board of Governors of the Congregational College and it was because of the high standing and usefulness, that the College conferred on him the degree of Doctor of Divinity.

He was always interested in church union and a member of the first Committee of Church Union and has kept an active interest in that work ever since. He was on the law committee of the United Church where he did valued service. Dr. Daley before the Union was president of the Congregational Foreign Missionary Society. He was a Past Master of the Masonic Lodge, Maxville, and affiliated with St. John's Lodge, Cobourg, which being so close was his reason for not changing his membership to a local lodge. Until a short time ago, when he had to reduce his activities, he was a much appreciated member of the Port Hope Rotary Club.

He will certainly be missed in the Bowling Club, of which he was President. His mathematical mind made him of invaluable service in drawing up schedules for the various tournaments.

Dr. Daley is survived by a loving wife, four daughters, Muriel, Mrs. Allan A. Outram of Margara; Nora, of Cobourg; Kathleen, at home, and Dorothy, Mrs. N. K. Noble, of Cobourg; five grandchildren, two brothers and four sisters.

The remains of Dr. Daley rested at the United Church, Port Hope, on Thursday, the 8th inst. from 11 o'clock a.m. until 1 o'clock p.m. interment at Stouffville Ont., Thursday afternoon on arrival of motors.

### UXBRIDGE TWP. COUNCIL

All members of Uxbridge Township Council were present for the monthly meeting held at Goodwood on Saturday with Reeve Isaac Catherwood in the chair. It was determined that all road foremen must positively send in their road accounts at least three days before the council meetings, otherwise they will be left until the following meeting. Three days are required to do the necessary book-keeping before these accounts can be passed for payment. All accounts for snow shovelling must be in for the April meeting, was another decree issued to the road bosses.

The following accounts were passed for snow shovelling: Alfred McDonald, \$10.37; Bristol McGuckin, \$2.88, Ira Redshaw \$18.09; Fred Redshaw \$12.78; David Symes \$36.72, Alex Wagg snow \$7.55, Charles Courlio \$12.00; W. P. Carmody snow \$11.16, Harold Dickinson, \$11.43, Frank Wagg \$8.01, Alfred Clark \$26.64, Wm. Hockley \$2.52, Alonzo Allin \$16.11, Ed. Sheehy \$18.

Other accounts passed, W. J. Hickling, goods to N. Adams, \$7.18 A. M. MacPhail, goods to Robert Davis \$16.10, W. J. Hickling goods to Thomas Reynolds \$8.97. One copy of Municipal World \$1.00.

On motion of Messrs Ashenhurst & Hockley Council adjourned to meet again on Sat. April 14th, at one p.m. for general business.

If Christ is the wisdom of God and the power of God in the experience of those who trust and love Him; there needs no further argument of His divinity.

7:00 p.m.—Evening Service  
When I go to the house of God I do not want amusement; I want the doctrine which is according to godliness. I want to hear the remedy against the harassing of my guilt and the disorder of my affections. I want to be led from weariness and disappointment to that goodness which filleth the hungry soul. I want to have light upon the mystery of Providence; to be taught how the judgments of the Lord are right; how I shall be prepared for duty and for trial; how I may fear God all the days of my life, and close them in peace.

If Jesus bore the cross, and died on it for us, ought we not to be willing to take it up for Him? If so, let us begin by attending prayer meeting, Wednesday, at 8 p.m. and Sunday at 6.30 p.m.  
The Bible Class will meet at the home of Mr. and Mrs. Bert. Smith, westend, on Friday evening.
