McRuer Speaks to Whitchurch Farmers

Charges that George Grover, president of Ward Four Conservative Association, drew more than \$28,000 in commissions on sale of liquor to the Liquor Control Board after the L.C.A. came into force was made by J.C. McRuer, K.C., addressing a Liberal meeting in Vandorf Hall last Friday night. Mr. McRuer said he had made this charge a week ago but Mr. Henry had been tongue-tied ever since.

The speaker also charged that Mr. Grover in 1928, offered to "get in touch with the provincial organizer of the Conservative Party, to offer him a lump sum to visit Government liquor stores to promote the sales of the distillery that he, Grover, represented."

These charges were made McRuer stated, as an answer to a challenge made recently by Premier Henry for anyone to connect any cabinet minister or any supporter of the government in this campaign with the pushing of the sales of liquor in Ontario.

Mr. McRuer in his address declared that Premier Henry is attempting to lead the public that Mr. Grover was only engaged as a liquor agent prior to the coming into force of the Liquor Control Act. "Up until the act came into force Grover only made \$30.31 in commission in one year. But since that time he has drawn in commissions on sales of liquor through the Liquor Control Board over \$28,000," he said.

Letters alleged to have been written between George Grover and the Sterling Bond Company were exhibited by the speaker to support his claim.

DEPRESSION PROOF IN-COME

The list of shareholders of the Bank of Montreal, published in The Financial Post showed Walter M. Stewart to be the largest single shareholder of that institution. Other members of his family are holders of large blocks of stock. His holding was 6,410 shares, worth about a million and a quarter at present market prices and paying a dividend of over \$50,000 a year. His brother, T. Howard Stewart, holds 4,211 shares.

On his own evidence, before the Stevens Enquiry, Walt Stewart drew many thousands last year from his tobacco.

The Conservative Manifesto

CHEAPER HYDRO & LOANS FOR FARMERS, HENRY PLANKS

Will Reduce Road Bill, Seek Minimum Wages for Men, Says Manifesto.

Recording the past achievements of the provincial government and making important announcements concerning the Hydro, highways, agricultural development and the minimum wage and unemployment insurance, the official Conservative manifesto was issued from Queen's Park last week signed by Hon. George S. Henry.

Highlights of the Manifesto include:

1. That the Hydro commission be asked to consider the possibility of a zoning system with a view to reducing the spread in cost between the town and country.

2. That the province should assume 90 per cent of the cost of the King's highways.

3. That the interest rate on loans for agricultural development be reduced from five and a half to five per cent.

4. A wide campaign for settlement on crown lands in the north and encouragement for families to establish themselves on land in the south.

5. Amendment of the Mothers' Allowances Act to deal fairly with cases where a widow has only one child under the age of sixteen.

6. Taking immediate steps in consultation with Quebec to obtain a minimum wage for men.

7. A statement that the government is anxious to co-operate with the federal administration for the provision of unemployment insurance.

Difficult of Administration
The provisions of the act allotting jurisdiction between the Dominion and the provinces are declared to "have created difficulties of administration, particularly in relation to taxation and duplication of services, which could be rectified if certain amendments were made to the act."

Noting the example of the old-age pensions legislation, the manifesto states: "We are anxious to co-operate with the federal administration in providing unemployment insurance, which must be by federal statute, worked out in co-operation with the province." It is declared that the provincial government will take the necessary steps to confer immediately with the province of Quebec and the federal authorities as to the best way to carry out a minimum wage. "The province of Ontario should not be placed in a position where business is lost on account of advanced social legislation which does not obtain in other provinces," says the manifesto.

Referring to the government program of economy, the manifesto declares:

"As soon as it appeared that a world-wide depression was affecting every part of the globe, on my succeeding to the premiership, the government, while keeping the essential services of the province going and looking after unemployment relief, commenced a drastic reduction of expenditures, and they were reduced steadily, as follows:

1931	\$43,385,000
1932	40,349,000
1933	34,223,000

"In the last fiscal year Ontario had a surplus of \$476,000, placing the province in a class by itself throughout this Dominion, outstripping most governments and keeping our credit high in the financial markets of the world.

The government brought into effect legislation which cut down the representation in the legislature from 112 to 90. This took courage.

"We undertake to continue this line of retrenchment, and, wherever possible, to reduce further the cost of government in all its phases. Spent \$35,000,000 on Relief.

"Paralleling the cutting down of the ordinary expenditure of the province by 25 per cent., as above referred to, I felt it was the duty of the government to see that in this period of stress, when so many people were out of work, aid of one kind or another should be available to all.

"Consequently, the government has provided work wherever possible and where no work was obtainable, or was impracticable, or would place too great a burden on the municipalities, direct relief was inaugurated.

"The policy of building the Trans-Canada highway in Northern Ontario, in improving roads in Southern Ontario, and in direct relief, has cost the province to date about \$35,000,000, which has been raised on the credit of the province and has increased the debt. The only alternative was to impose taxes amounting to \$13,000,000 per year, which was considered neither wise nor feasible at this time.

"Although our debt retirement plan, established in 1926, was suspended in 1930, it will be resumed at the earliest time practicable.

The government's past and future policy with regard to agriculture is outlined:

"Active campaigns by the department of agriculture have secur-

ed wider markets for our produce, and the provision of storage facilities has improved the quality and strengthened prices of our perishable products.

Farm Prices Improved
"2. Partly due to the activities of the government, the prices of farm products in this province have improved those received by American farmers.

"3. Financial aid to co-operative organizations has been given, and will be extended.

"4. A good-roads network has furnished easy access to marketing centres.

"5. Farmers' rural transmission lines have been bonused to the extent of \$10,000,000, and rates are being steadily lowered, while the 20-year Hydro contract for rural users is being reduced to five years.

Nothing New On Liquor
Referring to the government's liquor proposals the manifesto points out that they contain nothing new.

"We feel that the time has now arrived for a further amendment of the Liquor Control Act which will meet changing opinion and at the same time tend to decrease the use of the stronger liquors.

C.C.F. ENTERS SOUTH ONTARIO

There will be a three-cornered fight in the coming Provincial election in South Ontario riding for the seat now held by W.E.N. Sinclair, K.C.

Frank McLellan, President and C. H. Millard, Secretary of the Oshawa C.C.F. Club announced that a C.C.F. candidate is to be selected at a rally to be held at Oshawa on May 31 to contest the seat in opposition to Mayor Sinclair and ex-Mayor Ernie Marks.

A number of meetings will be held in the riding, the first to be Saturday afternoon when Councillor Arthur Williams, who is opposing Premier George S. Henry in East York, is slated to speak.

W.E.N. Sinclair had no comment to make on the C.C.F. decision, while Conservatives are satisfied, believing the decision will split the Liberal vote.

Stand on Beer Issue

CONFERENCE OPENS NEXT WEEK

At Vandorf Hall on Friday night Morgan Baker, Liberal candidate, read a statement of his stand on the Ontario Government. He says in it a red herring to cover up the sins of the government. Mr. Baker said: "This bill was introduced by the government on the eve of the election for the purpose of covering up their mal-administration. I do not propose to be caught in their trap. You, people know me, and my principles have not changed."

The Toronto Conference of the United Church of Canada will begin its tenth annual session on June 6, in Westminster-Central Church, Bloor street east, Toronto. Membership consists of one ministerial and at least one lay representative from each of 373 pastoral charges within the bounds of conference. Rev. M.A. MacKinnon, D.D., is president, Rev. George W. Barker, secretary, and Mr. H. W. Barker, treasurer. Mr. W. C. Walls of Barrie is president of the lay association and Mr. Jas. Mayor, Toronto, is secretary.

Covered Cookie Jars, large size	35c

"ISN'T IT SUCH A BOTHER WHEN THE ICE TRAYS STICK!"

"PERHAPS WITH AN OLD-FASHIONED REFRIGERATOR, MY DEAR, BUT THESE TRAYS RELEASE AUTOMATICALLY"

Ours is a FRIGIDAIRE '34

AUTOMATIC ice tray releasing is just one of a host of features by which the Frigidaire '34 makes inconvenient refrigerators entirely out of date. Defrosting, for instance, is automatic. It freezes more ice faster. It has a clever Utility Basket which groups small packages to save space. It has more room for tall bottles. It has the Servashelf for carrying dishes from refrigerator to kitchen table. Several models are finished in lifetime porcelain inside and out; have double capacity vegetable Hydrators; have shelves adjustable up or down.

But you can't possibly appreciate how greatly electric refrigerators have been improved in the Frigidaire '34 until you see a demonstration. Won't you stop in—tonight?

THIS FRIGIDAIRE '34 MODEL ACTUALLY USES LESS CURRENT THAN ONE ORDINARY LAMP BULB
