

IT'S PROFIT THAT COUNTS

At the most a hen won't eat over 40 pounds of mash a year. She has to lay enough eggs to pay for the feed and pay you a good profit—that's her job. And the feed that gives you the most eggs is the feed that gives you the most profit, so it is profit that counts rather than cost of the feed.

A dozen extra eggs a year will pay the difference in cost between Ful-O-Pep—the best feed you can buy—and common garden variety of feed.

Thousands of poultrymen are finding that Ful-O-Pep Feeds not only produce a dozen more eggs per year but two dozen and three dozen and the birds are healthier—happier—there is less laying house mortality—more large eggs—better flavoured eggs—stronger shelled eggs—and eggs that will hatch better.

This winter assure yourself of greater profits—start right now to feed Ful-O-Pep Egg Mash—see your Quaker dealer at once or write The Quaker Oats Company direct.

POTATOES 20c BAG

MARKETING BOARD MAY HELP

No. 2 and No. 3 Potatoes May Be Shut Out of Market To Save Prices

"It is unfortunately true that farmers in the Mount Albert district are being offered 20 cents a bag for potatoes," says R. E. White, York county agricultural representative.

"We hope that the proposed scheme under the Marketing Act will help in some way," Mr. White said. It is proposed at Ottawa to form a potato marketing board to exclude from the market No. 2 and No. 3 grade potatoes. The Canadian potato crop is 7,500,000 bushels larger than last year.

"Potatoes are rushed on the market and the market is glutted," Mr. White said. "Buyers take advantage of it and offer to buy potatoes below cost. If a farmer hasn't storage room, he is pretty nearly obliged to sell as he is digging. 'The price is unreasonable,' Mr. White said. 'There are so many potatoes this year that I don't think the price will be very high. And you can't hold potatoes for another year.'

Last December potatoes were selling for 70 cents a bag, Mr. White said. In December, 1932, they were selling for 40 cents.

"It is ridiculous selling potatoes for 20 cents a bag," Mr. White declared.

CLAREMONT

Fred Pugh, Lloyd and D. A. Pugh left on the first of the week for the Minden district, where they are buying a car-load of cattle. It is understood that the producers in that part of the Province are experiencing much of the unusual. In past years in the south here, feed has not been too plentiful, and consequently large herds could not be kept, but this year there appears to be plenty of feed, and the farmers in the north are being paid real money for their cattle to bring here to feed. It is reported that the people back there are enjoying a real boom in cattle sales, which helps them out, they not having the feed this year.

Additional Locals

The post office Wednesday half-holiday ended last week, so that the full day service is now resumed for the winter months.

A kitchen shower was tendered Mrs. Wilmet Stover (Hazel Boyd) at the home of her parents, Mr. and Mrs. Hugh Boyd, on Tuesday evening. The bride and groom have taken the apartment over Porter's Store.

Allan McKinnon of Markham was admitted to the Stouffville Hospital Tuesday evening, suffering from injuries received when he fell off a gravel truck at Ringwood. The full extent of his injuries were not determined at time of going to press.

Friends in Stouffville will be sorry to learn that Miss Lena Sanders has been quite ill at her home in Hollywood. She has undergone two operations, and it is hoped that she will now be on the way to recovery.

The drama "My Dixie Rose" staged in Ratcliff's Hall on Monday evening for the benefit of a fund for Christmas cheer for little folks, which is given out here every Christmas, was certainly well staged. Those who saw the drama were congratulating the Markham talent on their ability in this field of amusement. The play and the cause for which funds were sought, merited a much better patronage on behalf of our community.

Only two appeals were filed against the work of Revising Officer Harold A. Sanders, and his enumerators, at Unionville, when he sat there on Monday to receive appeals. One of these appeals was made by an enumerator who had added the name of a person, whom he found later to be under voting age. The name was struck from the list by the revising officer. Mr. Sanders sits all this week at various places throughout the riding.

Turnips for Florida

R. E. Brown, vegetable shipper told "The Tribune" on Wednesday that he is shipping local turnips as far south as Florida, which is finding new markets a long way from home, as an outlet for the heavy crop in this district. Of course the farmer is not getting any fancy Hollywood prices, but he is getting a market for his surplus product. Mr. Brown is paying from 6 to 9 cents per bushel. The large soup turnip demands the lower price, while the medium better formed store or table turnip is bringing 8c and 9c per bushel to the farmer. "Freight rates to Florida are not exorbitant," states Mr. Brown. "In fact they are lower than might be expected in view of the rates to some of the States lying closer to us." This is explained partially by the fact that turnips for Florida are shipped by rail to New York, where they take the boat. The rail rate is 37c per cwt, and the water rate 28c per cwt, and a total for a hundred pounds of 65c. Of course add to this other charges for selling and buying turnips would be high in the Hollywood district. They are not known by the common name of turnip, but are called the more dignified name of rutabagas.

Farmers might become chesky or high-hat if they could establish the fact that Mae West, Greta Garbo, Bing Crosby, or one other of those famous stars at Hollywood were feeding on his turnips.
