

Put the Unprofitable Hen on a Paying Basis

EXPERIENCE shows that a strong, properly fed hen will produce from 180 to 200 eggs—as compared to 80 to 120 from a poorly fed, undernourished bird.

Quaker FUL-O-PEP EGG MASH is built to produce these extra eggs and put the unprofitable bird on a paying basis.

FUL-O-PEP EGG MASH is composed principally of oatmeal (94% digestible), hominy feeds, wheat feeds, meat scraps, etc. These are scientifically blended in the proper proportion to keep birds in good flesh and in condition necessary to produce more eggs and bigger, better, stronger shelled eggs.

See your Quaker dealer—or write The Quaker Oats Company direct.

CLAREMONT
The Women's Association of the United Church will hold a bazaar on Friday afternoon, Dec. 7th.
Mrs. Burkholder of Markham was the guest of Mrs. H. Porter last week.
Mr. and Mrs. Fred Ward entertained the Euchre Club on Friday evening last. About seventy guests were present.
Reuben and Mrs. Besse and son Joe of Stayner, accompanied by Mrs. Besse's parents, Mr. and Mrs. J. Evans, left on Tuesday for Florida, where they will spend the winter.
Miss Effie Miller who met with an accident about three weeks ago while visiting relatives in Toronto, was able to return home last Saturday and is steadily improving in health.
"Books" was the theme of an interesting program given at the November meeting of the W.I. held at the home of Mrs. D. M. Morgan on Wednesday afternoon last. Among the program numbers was an excellent paper on "Books—as a builder of Character", by Mrs. Loyst.
Roy Morgan returned to St. Michael's Hospital, Toronto, last week and on Saturday morning underwent a major operation. He is very weak at present but his many friends are hoping for a steady improvement in his condition from day to day.
Mr. and Mrs. David Dawson, Mr. and Mrs. Empringham Sr. and Joe. Empringham motored to Gravenhurst on Sunday to visit the latter's wife who is a patient in the San. there. Mrs. Empringham's friends are pleased to know that her condition is not serious although it requires a period of rest.

GLASGOW
Wedding bells have been ringing again.
Miss Eurla Davis visited at J. O. Spang's a couple of days last week.
Mr. and Mrs. Murray Slack spent Sunday with Mr. and Mrs. Orvan Downer.
Miss Myrtle Davis visited with her parents Mr. and Mrs. Walter Davis over the weekend.
Mrs. Henry Slack spent Sunday with relatives in Toronto.
Miss Gerlie Slack visited with her grandparents, Mr. and Mrs. Jesse Davis over the weekend.
The Cottage Prayer Meeting will be held on Monday, Dec. 3rd, at the home of Mr. and Mrs. Walter Davis.
"Don't forget this meeting. Also the Sunday School every Sunday afternoon, at 2:30 p.m."

Farmers' Information

The second estimate of wheat production in the Prairie Provinces for 1934 is two million bushels lower than the preliminary estimate of 265 million bushels made on September 11th last.

In the Boys' and Girls' Farm Clubs competition at the Royal Winter Fair, Ontario carried off the trophy in the Dairy Cattle project through the Markham Dairy Calf Club, and also the trophy in the Seed project through the Durham County Boys' Grain Club.

Why Burn Straw Stacks?
When with the use of suitable chemicals they can be converted into manure the question "Why burn straw stacks?" is really pertinent. Straw is worth something more than as a bedding material, and not the least valuable is its use for the making of artificial manure. The use of 100 pounds of ammonium sulphate and 100 lbs. of lime to each ton of straw, and this thoroughly soaked with water produces a manure of distinct fertilizer value. From three to six months are required for the organic changes to become effective and the resultant substance has much of the appearance and practically the same value as barnyard manure.

Grain Class Winners
The Grain Class open to Agricultural Societies at the recent Ottawa Winter Fair resulted in very keen competition among Societies in Eastern Ontario, where the production of high class grain has developed so rapidly in recent years.
The purpose of the competition was to encourage the Society to foster the production of different kinds of high class seed grain by its members.
The Renfrew Agricultural Society was awarded first position, with a total of 450 points of a possible 500. The lots of peas, barley, alfalfa and oats each scored over 90 per cent, wheat alone fell slightly below this high standard.

9th LINE, MARKHAM
The green Ford seems to keep very late hours.
Sorry to hear that Mr. Clendenen fell and hurt his arm.
Mr. and Mrs. Frank Clendenen visited his parents on Sunday.
Miss Audrey Lewis had tea with Mr. and Mrs. Batt, on Sunday.
Fred Jackson, and John Pharris are working in the lumber-camp at Timmins.
Sorry to hear that Mr. Samuel Petrochuck is leaving Batts the first of the month.
Mrs. James McCreight and little daughter spent last week with her parents in Toronto.
Mr. and Mrs. K. Graham and Mr. J. Raudell were guests of Mr. and Mrs. Peacock, on Sunday.
The Barkey brothers and sisters of Cherrywood were the guests of Levi Burkholder on Sunday.
A number from this line spent a very enjoyable evening with Mr. and Mrs. John Lewis, Friday night.
We wonder when Bruce Boyd will be making his trip up to Little Britain. We expect it will be soon.
Mr. Frank Burkholder and Mr. Carl Boyd attended an organ recital in the United Church in Stouffville. ing was spent.

GIRDING THE WORLD WITH CHRISTMAS TREES

Each Christmas it is estimated that approximately ten million trees are cut for the Canadian and American market. According to the Freight Traffic Department of the Canadian National National Railways an average of about 350 cars of Christmas trees are shipped annually to the cities of Canada and the United States. As each car contains in the neighborhood of 600 trees, the annual cut in the Dominion alone, exclusive of trees hauled by trucks to neighboring points, amounts to more than 200,000 trees. It is pointed out, however, that this gigantic cut does not devastate the forests, as in all districts where big orders are filled, the trees are carefully selected with a view to accomplishing the natural thinning of the growth, so that those which remain will have an opportunity of attaining a healthy girth. And as each tree is cut, another is usually planted in a different section, so that the reforestation goes on under expert supervision. There are, however, isolated districts where the system reforestation has not penetrated but such sections are growing smaller and smaller each year. The trees for cutting are usually selected in the late summer and early fall, and the actual cut begins about three weeks before Christmas. Apart from the serving of the Canadian markets, the big Eastern markets for Christmas trees are New York, Boston, Philadelphia, Buffalo, Cleveland, Pittsburgh, Detroit, and Chicago, and the provinces from which the biggest exports are made are the Maritime, Quebec and Ontario. It is computed that were the annual cut of Christmas trees planted a quarter of a mile apart at the equator, it would girdle the globe four and a half times.

BETHESDA

A number of our men are doing roadwork on the east sideroad.
Mr. and Mrs. Louis Brillinger, Mrs. Herbert Hisey, Miss Isabel Ham spent Tuesday in Toronto.
Carpenters have been improving the front of Mrs. Haines house by fixing-up the veranda.
Mr. and Mrs. Wash. Paisley from Stouffville spent Friday at the home of their son, Mr. and Mrs. Wm. Paisley.
Again Fred Allin has suffered a loss among his animals. This time it was a cow. A few weeks ago he lost a valuable horse.
Those who are taking part in the White Gift Service, which is held annually in our church, will begin practice in a short time.
Those who heard the Raymer Hour programme in Ratcliff's Hall, Sunday night were convinced that it was a well spent evening to see and hear the Raymer group.

Bethesda was well represented at the Pot Luck Supper and programme held at Melville Church on Tuesday evening. The Y.P.S. was called off, that the young people might attend the above programme.
The oyster supper held at the home of Louis Brillinger, last Friday evening proved to be a huge success. We heartily thank the three young husbands who provided such a feast.
Another pot luck-dinner but on a much smaller scale was enjoyed by the sixteen or seventeen women who spent last Thursday at Mrs. Ernest Steckley's making a quilt to send away in their relief box. The best part of the lunch was when one-roast chicken was obliged to go around the circle and try to give everyone a taste of himself.

STADY PROGRESS
During the last year or more no publication has shown more remarkable strides in the matter of increased circulation than has the Family Herald and Weekly Star. This is not strange for it is evident that in times of stress people are prone to cut down on the number and variety of magazines and papers coming into their home and they find in the Family Herald and Weekly Star a paper which, at \$1.00 per year, gives them every variety of reading, for old and young, all combined in this one publication. Every issue overflows with practical farming ideas, up-to-the-minute articles, short stories together with a weekly newspaper section which rounds out a feast of reading without compare. Truly it has been well said that the Family Herald and Weekly Star is the best for the least.

WESTERN CATTLE TO BE FINISHED IN MARITIMES

Western cattle will again be finished on New Brunswick farms this winter, according to advice received by the Agricultural Department of the Canadian National Railways. Types will be Hereford, Poled-Angus and Shorthorns, the same breeds handled with such great success in previous years. In the spring it is anticipated the cattle will be exported to England, in the event that the Canadian market does not offer better advantages. Four years ago the wintering of western cattle on New Brunswick farms was tried out and each season since the operations have proved satisfactory and the cattle have been sold to good advantage, providing a means for the profitable use of grain and feed as well as furnishing large quantities of manure for fertilizer.
