IN WATER WORKS

Reeve H. W. Sanders presided over the council meeting on Mon-Ballantrae-10:30 a.m. day evening, which is the second to Lemouville- 3:00 p.m. last gathering of the .. municipal Bloomington- 7:00 p.m. fathers for the current year. Dr. Walter Sangster and F. L. Button, Dr. Smith, N. MacLean addressed MELVILLE, BETHESDA, PRACHS the council, advocating the use of the colored lights in business section of Main street burning each night of the week. They explained that the strings of lights had been paid for by public subscription, so council decided to operate them nightly for the month of December covering the Christmas season. The cost

will be about \$14 for current. The relief question was thoroughly aired; and steps taken to cope

with the situation locally.

The clerk advised investing \$3000 of surplus funds in the water and a resolution was passed instructamount, which with the thousand dollar bond now held for the water works, and an additional cash surplus of \$1000 in the bank, makes total surplus for this department of 11:00 a.m.-Morning Worship \$5,000. This is highly gratifying in view of the very low rate prevailing here for water. It is strongly advocated in some quarters that a portion of this money should be used for relieving the general taxes of the villagers, a suggestion which has considerable merit.

T. B. Rae was authorized to proceed at once with the audit of the 1934 books of the treasurer, so that the statement might be available for the nomination meeting at the end of the month. Heretofore the treasurer's statement is presented to ratepayers' meeting and audited at a later date in the new year.

A tentative report shows the BLOOMINGTON and RINGWOOD own well financed during the past year with ample reserves in al departments. ,
