

### Farmers' Information

The annual convention of the Fruit Growers' Association of Ontario will be held at the Royal Connaught Hotel, Hamilton, February 13th, 14th and 15th.

#### Taking Stock

The farmer who takes stock now and plans for farming operations during the coming crop season will be able to order his fertilizers, spraying material, insecticides, etc., in good time. He will also be able to eliminate unprofitable cows, hens and other animals, and otherwise cut the costs of production.

#### Cost of Producing Mangels

The production of an acre of mangels requires approximately fifteen days of manual labour. In the past this item of expense has confined the growing of this crop to instances where labour is plentiful. This season, due to cheap labour and the high price of hay, mangels have proved to be a profitable crop. At the Central Experimental Farm, Ottawa, the Field Husbandry Division obtained a yield of 26.15 tons per acre this year at a cost of \$47.68 per acre or \$1.82 per ton. With hay valued at \$12.00 per ton, and assuming that 600 pounds of mangels are equal in feed value to 100 pounds of hay, mangels are worth \$2 per ton.

#### A Popular Garden Insecticide

An insecticide which is gradually coming into popularity with gardeners and vegetable growers is arsenate of lime, or calcium arsenate, a fine, soft-flakey, white powder. Compared with arsenate of lead, says Alan G. Dunstan, of the Entomological Branch in the Dominion Department of Agriculture bulletin on vegetable insects and their control, arsenate of lime has the advantage of being cheaper, of having a higher metallic arsenic con-

centration, and of killing insects more rapidly. On the other hand, it is more likely to burn the foliage, and has to be used more carefully, and does not adhere so well to the plants. When arsenate of lime is used alone as a spray, it is customary to add sufficient hydrated lime to counteract any possibility of burning. One pound of arsenate of lime is equivalent to one and a half pounds of arsenate of lead in killing value. As a spray, arsenate of lime should be used at the rate of three quarters of a pound to 40 gallons of water, to which has been added two pounds of hydrated lime. In dusting with this material, dilute it with 10 parts of hydrated lime. Arsenate of lime contains 26-28 per cent of metallic arsenic.

#### The Poultry Breeding Pen

In selecting the birds for the breeding pen choose females with good laying records or that possess all the characteristics of heavy layers. The males should be vigorous and conform to breed type, the sons of heavy laying dams and well bred sires.

Feed generously without using forcing feeds. The breeding pen should be roomy. Sunlight and exercise are important, and a supply of alfalfa and cod liver oil will help give good hatches.

#### Seed Market Report

A late December report of the Seed Branch states that the demand for clover and grass seeds in Ontario has been good all season and only a small quantity remains in the growers' hands. There is still available in Northern Ontario and the Ottawa Valley some 285,000 lbs. of red clover, 81,000 lbs. of alfalfa and 200,000 lbs. of timothy. Buyers are paying growers, basis No. 1 grade, per pound, 19c to 21c or red clover; 18c for alfalfa; 6 and half cents for sweet clover an 14c to 16c for timothy.

In southwestern Ontario the small 1934 crop of seed has mostly been sold by the growers, that remaining is mainly of poor quality.

#### SALE REGISTER

WEDNESDAY, FEB. 6—Credit Sale of farm stock, implements, household furniture. At lot 13, con. 10, Markham (on highway No. 7 between Green River and Locust Hill) the property of Wm. Trewartha. 6 months credit. Articles of \$25.00 and under cash. Sale at 12 noon. No reserve. Live stock all in prime condition. Prentice & Prentice Auctioneers

although some good sweet clover and alfalfa is still available in one or two localities. Prices being paid growers, basis No. 1 grade, per pound, range from 18 1/2c to 23c for red clover; 15c to 16c for alfalfa; 16c to 26c for alsike; 5 1/2c to 7 1/2c for sweet clover and 17c to 18c for timothy.

#### Horticultural Hints

The position for plants during winter is in windows with a southern or eastern exposure. Plants need all the light they can get in winter, especially those expected to bloom. Avoid extremes of temperature, but bear in mind they require a supply of fresh air.

Cold draughts must be avoided if house plants are near the windows. Pull down the blinds at night or remove tender plants to protect them from the chilled glass.

The dry air in the home is injurious to plants, but humidity may be added by sprinkling them with water daily.

Avoid keeping plants in a soaked condition. Only water when actually needed. All soft-wooded plants with a large leaf surface need more water than hard-wooded plants, and one in luxuriant growth needs more than one which is sickly or cut back.

The Jerusalem Cherry must be kept moist and free from coal and domestic gas. The slightest trace of gas will poison both leaves and fruit to drop. Poinsettias should be watered every day and thrive best in a temperature of 60 or 70 degrees. These two winter plants must not be permitted to become dry.

Paul Bowdway, Manager

POSITION WANTED—by boy of 16 years; farm work preferable. Some experience. Apply Mrs. Holden, Mill street, Stouffville.

### ALTONA

Mr. and Mrs. Willis Monkhouse spent Friday in Toronto.

Stanley Slack spent Sunday with Mr. and Mrs. Earl Howsam.

Miss Kate Reesor and Mrs. David Crossier spent Saturday in the city.

Mr. and Mrs. Walter Baker visited with Mr. and Mrs. Frank Baker on Saturday.

George Keays of Uxbridge spent a few days among old friends in Altona.

Mr. and Mrs. Norman Bunker had dinner with Mr. and Mrs. Arthur Wagg on Friday.

Our road leading to Stouffville has been greatly improved by the erection of snow fence.

Miss Florence Tindall is engaged at Mrs. Hiram Alsop's, as Mr. and Mrs. Alsop are in poor health.

Mr. Albert Davis and Ernest attended the funeral of the late John Allen in Toronto on Tuesday. Mr. Allen was well known in Altona.

Master Keith Howsam had a scare last week while playing on the mill pond when the ice gave way.

His sister Luella and playmate, Joseph Nighswander were able to help him to the surface again.

The W.I. met at the home of Mrs. B. Reesor on Wednesday last, with a splendid attendance. In spite of weather conditions. Rev. Mr. Glover of Claremont gave an inspiring address on temperance while pupils of the various schools in the community entered a contest on Temperance, all showing marked ability. Prizes were awarded as follows: Sr. grade, Elsie Eckardt, Altona; Jean Parker, Atha; Jr. grade, Ruth Slack, Altona; Earl Dowsell, Glasgow.

### GOODWOOD

The mild weather last week completely ruined our rink. Never mind Archie, try again.

Norman Wagg and Wm. Curren attended the 1935 motor show in Toronto on Monday.

Jean and Albin Darling of Toronto were with their grandparents Dr. and Mrs. R. E. Darling for a week or so.

Mr. and Mrs. Gordon Crapper and wee daughter of Ottawa, are spending a couple of weeks at her home here.

Our new council held their first meeting on Monday. Now hold your breath, while we see who gets offices for the year.

Glad to know Miss Isabel Ashenurst and Miss Blanche Todd are feeling better after having had their tonsils removed.

Mr. William Sellers is ill. We hope he will soon be able to resume work. Mr. Middleton is taking his place on the C.N.R. again.

Quite a lot of our younger fry attended the dance at Albert Taylor's on Wednesday last, it being Mr. Taylor's birthday. All report a whale of a time.

Our hockey sports were in Stouffville on Monday where they pulled off an exciting game, with Claremont. Ralph Todd is nursing a bad eye, as a result of the game. Hope it will soon be better Ginger.

Just listen and I'll tell you the funniest story I know of a girl all dressed up pretty swell to Taylors dance to go.

She went with a crowd in a car o.k. But, say, she came home in another way.

Not we mean she decided to change her guy.

But Walter'll forget in the sweet bye and bye

At least we hope so, but one never can say.

For next time he'll let her find her own sweet way.

Now a little fun we all must have, As sure as we like to roam

But take our advice and next time go With the guy that will bring you home.

New Year Rhyme

Now we feel we better try Although we're very shy.

To write a little rhyme and have a merry time

While answering the little tune Appearing in our last Tribune.

It's nice of Mr. Reid we know, On paper, thus to make a show,

We also feel we owe to him a word of thanks for fires dim.

We were soaked up well, when home we got,

He had our house all nice and hot.

For with ladders, keys and other aid

Of neighbors here, the fires were made.

And sure enough, it was glad we are, That it was possible to ride on the C.N.R.

For storms are sure as sure to come, To keep a fellow away from home.

The storm was had, the roads were ill

And lucky were we to return to Stouffville

And find a shelter where I nto stay, To while that stormy night away.

But here we are, as good as new, The good old "Chev" is all right too.

Now another year per haps we'll know

Lots better than to start out in drifts of snow

With motors, when the C.N.R. Will Carry us well, if near or far

And bring us back as well-per haps? So says J. P. a real good laugh.

For laughing makes a fellow fat And he sure don't need any more of that.

We hope we're not accusing him wrong

But we believe in, credit were credit belongs

And if he didn't pen that chaff, It must have been done by has better half.

(Apologetic Still)

### PRESENTATION TO BILL MULOCK AND MORGAN BAKER

"Bill" Mulock, federal member for North York, and Morgan Baker, member of the Legislative Assembly, were honored by the executive of the North York Liberal Association with a gathering in their honor at the Mulock farm and each was presented with a gift from the association as a mark of good will and appreciation. Over one hundred representatives from every section of the riding attended and a very enjoyable social evening was spent, the feature events being the presentations to Mr. Mulock and Mr. Baker.

Dr. G. D. McLean of Woodbridge Vice-President of the Association, in making the presentation of a handsome brief-case and fountain pen to Morgan Baker paid sincere tribute to the sterling worth and character of the North York Liberal member.

"We are proud of Morgan Baker and we know that our interests are being well cared for and that in the coming session of Legislature he will ably represent North York," said Dr. McLean.

J. Harry Naughton, President of the North York Liberal Association made the presentation to Bill Mulock of a beautiful desk set bearing a gold plate suitably inscribed. In his presentation address he expressed the appreciation of North York Liberals for the splendid leadership given by Mr. Mulock and stated that the large majority given him in the recent election was well deserved and would continue to grow in the coming years.

He congratulated Mr. Mulock on representing at Ottawa the historic riding of North York which had been represented by many men who had made distinguished contributions to the up-building of Canada.

"We are confident that in our present representative, Bill Mulock, we have a man who will worthily uphold the honored traditions of this historic riding," said Mr. Naughton.

"and we know that in due time he will carve his name in the hall of fame along with other distinguished Liberals who have represented this riding in the days gone by."

Col. Mulock and Mr. Baker, taken completely by surprise, sincerely thanked the members for their kind and generous expressions of good will.

Col. Mulock leaves this week to take up his sessional duties at Ottawa.

During the evening there were many novelty entertainment features including numbers by Andrew Murdoch of Thornhill, Bert Caldwell, George Urquhart and Sid Jackson.

### CLAREMONT

Miss Isobel Elliott, missionary nurse of Formosa, was guest speaker at a largely attended meeting of the W.M.S. held in the school room of the United Church on Thursday afternoon last.

Miss Elliott gave an interesting and instructive talk on the people of this Island and of the work that the missionaries are accomplishing for the betterment of their physical and spiritual welfare.

Miss Elliott is a cousin of Mrs. D. Gregg and is known to several of the members of this society. A social hour followed the meeting.

Mr. George G. Morgan, a life long and highly respected resident of Claremont passed to his rest at the home of his son, Magnus, on Saturday afternoon, Jan. 12th. Mr. Morgan who was 70 years of age had not enjoyed good health for some time, and after the death of his wife two years ago he gave up farming which was his life long occupation, and since then had resided with his son.

About three weeks ago he developed pneumonia which caused his death. He was the youngest son of the late Mr. and Mrs. Alexander Morgan of this village. In religion he was a member of the former Presbyterian Church and later of the United Church, and was always a kind friend and thoughtful neighbor. He is survived by one son, Magnus E., two grandsons and one brother Duncan M. all of Claremont. The funeral was held on Tuesday afternoon from the residence of his son to Claremont Union Cemetery. His pastor, Rev. Mr. Glover, conducted the service which was attended by a large number of relatives and friends.

### INTEREST IS OUT ON FARM LOANS

Announcement was made last week by Hon. Duncan Marshall, minister of agriculture, that the interest on all Ontario farm loans has been reduced from five to four per cent, and that the government proposes to reamortize the loans outstanding with the Agricultural Development Board so as to ease in many cases the interest and principal burden of the farmers involved and at the same time provide the government with a better chance of "salvaging" many loans that to date have been pretty well considered hopeless.

The reduced interest rate is retro-active as from Nov. 30 last, and will apply to all past loans and to any others which may be negotiated in future. At the present time there are some \$49,000,000 worth, backed by mortgages.

Mr. Marshall also announced that the first legislation to be introduced at the coming session of the provincial House will be a bill enabling the province to take advantage of the Federal Farm Loans Act of 1927. To the loan board, which will be established under this new arrangement James B. Fairbairn and Solicitor Page of the present Queen's Park Agricultural Development Board, will be appointed.

In view of the fact that the interest rate on loans advanced under this federal arrangement is five and one-half per cent, Ontario is prepared, Mr. Marshall stated, to make good the one and one-half per cent difference between the Ottawa rate and the newly-announced Ontario rate of only four per cent. This proposition will hold good, however, only until such time as Ottawa scales down its rate to four.

### GLASGOW

Rev. Chas. McGrath had tea with Mr. and Mrs. Henry Slack on Monday. Mr. and Mrs. Downer spent Thursday with Mr. and Mrs. Murray Slack.

Miss Velma Brown has been spending a short time with her sister Mrs. Ralph Davis.

Mr. and Mrs. Lois Slack visited with her parents, Mr. and Mrs. Jesse Davis on Friday.

We would like to see more from the community attend our Sunday School.
