

**GOODWOOD**

Mrs. Burry is in this city for a week or so.  
J. E. Waag was in Toronto a couple of days last week.  
A large crowd attended the dance at E. Taylor's on Tuesday night.  
Mrs. (Dr.) Darling is spending a couple of weeks with friends in Toronto.  
Mrs. Chas. Harper was in Orillia last week attending the funeral of her nephew.  
Sorry to know Mrs. Russel Story has been sick in bed for a week or more. Hope to see her out soon.  
The wedding bells are ringing and ringing, and the next thing we'll hear will be cow bells.  
Quite a number of our loyal Liberals attended a meeting in Beaver-ton one day last week. Even if the roads were icy.  
Sales, sales, and then some, all cash—what a pity for the province at large such terms had not started ten years sooner.  
Word was received from Toronto on Saturday last that Jean Rodanz, aged 5 years, granddaughter of Mr. and Mrs. Wm. Todd had received a double fracture of one arm while at play.  
Eli Story is in very delicate health. Hope he will soon be better, also Thos. Dowswell is not in the best of trim following a very bad attack of grippe. Trust he may soon be better too.  
Glad to report Mrs. J. F. Reid is feeling some better, also Mrs. Len. Tait, who is spending a few weeks with her parents until she gains strength enough to return to her home in Sunderland.  
The W. A. held their regular monthly meeting at Mrs. C. E. Feasby's home with about thirty present. The annual report shows that our W. A. raised \$227, a very nice figure for a small village.  
Quite a number of ladies were in attendance at the Day of Prayer meeting held at Miss Legate's home on Friday. We are told, whatever we ask in prayer believing, we shall receive.  
A very pleasant evening was spent in the basement of the Goodwood United Church in honor of the president of the W. I. on the occasion of her 55th birthday where she was the recipient of useful presents and showers of congratulation—The fee was your age up to 25. After 25 you were not compelled to tell your age.  
One of our residents overheard a conversation the other day, carried on by three of our oldest citizens, whose ages total 244. These men are all enjoying real good health. We feel sure they won't mind having

their names and ages revealed (unlike the ladies.) They were George Brown, 84 years, who carries the mail a lot of the time. Calvin Stafford 81, years, who is really just a boy yet, as most of you know, and George Morgason lives in Toronto but is spending a few weeks with his sister Mary (who is also in the 80's) and his two brothers William who is also exceedingly smart at the age of 85. Then there's Andy, well he might not like to have his age published, so we stop here. After saying, best wishes to all our older citizens.  
Another group whose ages reach an amazing figure compose Wm. Morgason, Thos. Baston, W. T. Robinson, Geo. Morgason, George Brown and Calvin Stafford. Between them they shoulder 494 years, or an average over 82 years.

**BALLANTRAE**

It surely must pay to advertise in The Tribune, as Mr. R. Price of Ballantrae had no less than 15 persons answer a three-line notice in this paper offering a horse and other articles for sale.

The auction sale of thirty acres of land offered at lot No. 6, in the 7th concession, just south of Ballantrae, failed to attract a buyer. The property was offered at Stouffville under the auction hammer of A. S. Farmer. There were bids made but they failed to reach the reserve, but a deal may be consummated later. This property was offered under mortgage sale by solicitor F. L. Button, and at one time formed part of the Jacob farm.  
Send The Tribune to absent friends.

**GROCERIES**

- Thursday, Friday, and Saturday
- MUFFETS, 2 pkgs ..... 10c
  - Falcon Cocoa, 2 lb. tin ..... 20c
  - Minute Tapico, pkg. .... 12c

**HODGINS GROCERY**  
West End Stouffville  
Donald Hodgins, Prop.

**Local Happenings**

Mrs. Ray Fleury arrived on Wednesday morning from Welwyn, Sask., to visit her mother Mrs. S. M. Warriner.

Full court scene, Judge, Jury and prisoner at the Minstrel show in town March 21.

**CLAREMONT**

Thos. Condy was confined to his home last week with an attack of flu.

Lorne Wilson, of Albert, is visiting her mother Mrs. B. W. Jones and other relatives here.  
Tom and Mrs. Scott, of Weston, were weekend visitors with the former's parents, W. G. and Mrs. Scott.

James Evans is confined to bed with a severe cold and high blood pressure. Mr. Evans celebrated his 59th birthday in February.

The Community Euchre Club met at the home of Mr. and Mrs. W. G. Scott on Friday evening last when seventeen tables were played.

The Fred Pugh family will return to their farm on the 8th of Pickering the end of this month. Mr. Pugh has leased his village residence to Magnus E. Morgan.

The World Day of Prayer was observed by several of the women of the community on Friday afternoon last, in the school room of the United Church.

Andrew Miller has leased his farm to Earl Degeer who will take possession on April 1st. Mr. and Miss Miller will then move to the village where they have purchased a residence.

Owing to illness Miss E. Graham has resigned her position in the office of the H. G. McIntyre Co. Miss Glover, niece of Rev. Mr. Glover, has been engaged to fill the vacancy. Miss Graham is still confined to bed and under the doctor's care.

**GLASGOW**

"Boys" beware of your stove pipe dampers on Sunday mornings.

Mr. and Mrs. Joseph Cooper had tea with Irwin Pearson's on Sunday. Walter Pearson who is engaged at work near Uxbridge was home Sunday.

Mr. Pearson and his son-in-law Thos. Ogden, are busy trimming their orchard these days.

Miss Velma Farrow has got her valuable cat back again after taking a stroll to Goodwood to see the sights. Surely Miss Puss will stay home now.

Terms: Cash  
Geo. Storey, Clerk  
Sale at 1 o'clock  
A. S. FARMER Auctioneer 3 Botsford St., Newmarket

**Farmers' Information**

**Early Sowing of Tomatoes**  
The Dominion Horticulturist recommends early sowing of tomatoes and the use of early maturing, good varieties. Sowing should be done in time to have stocky, well grown plants in bloom at ready for planting out at the sign of settled weather. Soils with low nitrogen and high phosphoric acid content and a medium amount of potash are essential.

**The Importance of Alfalfa**  
For a number of years the forage crop specialists at the Central Experimental Farm have been studying the species and mixtures best suited for pasture in this district. Among other things it has been found that the inclusion of alfalfa wherever possible, on land to which it is adapted, increases the yield of good quality hay and produces an early second growth which may be cut for hay or grazed at a time when the older pastures are at a minimum level of production. The importance of this fact cannot be over-emphasized, because good hay and good pastures are very necessary for the maintenance of high production herds.

The use of some alfalfa has also been found to prolong the life of the field as pasture for an additional year or two, for, being a perennial plant, alfalfa persists after red clover has disappeared.

**Poultry Breeding**  
Too often in selecting the stock for breeding, high egg records or some outstanding feature of the sire or dam are allowed to influence the judgment, without due regard to vitality or good breeding qualities that may or may not be present.

The selection for vigour and for those desirable qualifications that conform to the breeding is comparatively simple, because these are mostly visible characters and can be chosen by comparison.

**BLOOMINGTON**

The Ladies' Aid meeting at Mrs. B. Morton's was quite a success.

Miss Hanna Fairles, resident of Bloomington for many years, is quite ill.

Mr. and Mrs. J. Kendall of Glasgow were guests with her daughter Mrs. Lou Tindall here

Mrs. Leask of Greenbank has been visiting her father W. A. Fockler.

Mr. and Mrs. Ernest Morgason of Goodwood were visiting her mother Mrs. Jos. Lemon the other day.

**MELVILLE**

Mr. and Mrs. Harold McKay were home again over the weekend.

We extend our sincerest sympathy to Mr. Noah Wideman and family in their recent sad bereavement.

One of the largest crowds ever experienced at Melville was on hand Sunday evening to hear the Raymer Eventide Hour Groupe. The generous program of sacred old time songs was appreciated wholeheartedly. The sound equipment installed both in the auditorium and in the basement worked to perfection. That the public generally are conscious of the splendid work being carried on from week to week by this versatile group of radio artists goes without saying. We are indebted to Mrs. E. Nigh and Mrs. E. Bateman of the W.A. who were in charge for all arrangements. They wish to convey their thanks to all those who in any way contributed to the success of the evening.

Last Wednesday evening's Guild meeting will go down in the records as a most profitable and enjoyable occasion. The topic entitled "The Characteristics of a real hero" was ably taken by Lorne Wideman packed a real whollop setting up high standards of citizenship which coming from the lips of a young man speaking to lifelong friends of his own generation was all the more impressive. Miss Maxine Simpson and Mr. Floyd Bunt of Toronto were with us again. Mr. Bunt rendered several selections of his own arrangements of popular music on the piano. A ladies trio consisting of Miss Luella Gayman of Stouffville and Misses Gladys and Dornene Lehman favored us with several numbers especially arranged by Miss Gayman.

A social half hour was spent at the close of the meeting after which a delightful lunch was served.

Fred Postill, Auctioneer

Vigour is evident by the carriage, desirable body weight for age and breed, health and bloom of feathers, and good bone formation. A clean-cut head with clear, bright and prominent eye in the male and female is a certain indication of brain power and nervous energy and the hall-mark of high vitality and reproductive strength.

**Cod Liver Oil For Hens**  
When chickens are kept indoors where they do not get as much direct sunshine as when they are running outside their mash should contain about 2 per cent of a good quality of cod liver oil. This oil is fed because of its vitamin D content, which is needed to help assimilate the ingested mineral matter. In the absence of a sufficient quantity of this vitamin, a chick may be undernourished on minerals even if it is given enough for its body needs in the mash.

**Cattle Sales to U. S. Increase**  
Large shipments of Canada's best cattle have been going to the United States since early in February, offsetting decreased exports to Britain.

Drought conditions with consequent lack of feed across the border necessitated slaughter of 8,000,000 head of cattle. A scarcity developed—Chicago prices rose to just under \$14 a hundredweight, at which level Canadian producers could pay the 2 1/2 cents per pound duty and still make a profit.

In the week ending February 14, Canada shipped 1,367 head of cattle the movement increasing to 4,157 head in the week ending Feb. 21, about 3,500 going from the prairie provinces. A few weeks ago the ruling price on top cattle in Winnipeg was about \$4.75 per hundredweight. Now \$6.50 is being paid.

Only 4,781 head of cattle have been shipped to the United Kingdom so far this year, compared to 7,411 in the same period last year.

**Public Auction**

—Sale of—

**Farm Stock, Implements, Grain, Household Furniture, Etc**  
to be sold at

**WAR DECLARED ON WARBLE-FLY**

The second week of the big 1935 County offensive on the Heel Flies will take place in Whitchurch and East Gwillimbury Townships. York farmers are determined to fight to a finish to prevent this gad fly from stampeding the cattle while on pasture this summer. The flies which lay the eggs are hard to swat but it is easy to sneak up on them when they are in the grub stage. So we attack them in their dugouts in the backs of the cattle and make no apology for so doing.

Barn and Hall meetings at which plans of attack will be drawn up are being held as follows:  
Monday March 18th, 2 p.m. Barn Meeting, at W. F. Ratcliff's, Lot 8, Con. 8, Whitchurch, 1 1/2 miles north of Ringwood.

Wednesday, March 20th, 8 p.m. Hall Meeting in Township Hall, at Vanderford.

At each of these meetings Agricultural Representative R. E. White will outline the life history and control measures for the Warble Fly, as well as discuss parasite control in horses, sheep, swine and poultry.

FOR SALE—Barred Rock & White Leghorn Pullets, 4 and 6 weeks old, from blood tested Government Inspected Stock. Ross Chapman, phone 704.

EGGS FOR HATCHING—From a well matured flock of single-comb White Leghorns at 3c per egg. The males in this pen are pure Hollywood and Fisher blood, and weigh from five to seven lbs. each. Fred M. Pugh Mongolia, Ontario.

STOUFFVILLE Phone 15204

WHEN a hen wants to lay she doesn't want to stand around and wait. She wants immediate possession of a nice vacant nest in which to lay her egg—for you.

Keep her supplied with a feed that will help her produce more big, sound shelled, marketable eggs for you—a feed that will keep her up in good body weight and health while providing an ample supply of the nutritious elements required to maintain high egg production.

Feed her FUL-O-PEP EGG MASH. She needs it. FUL-O-PEP is a uniform, complete, clean feed. It is this Egg Mash that the successful Poultryman uses because he has found that it not only produces eggs but maintains his hens in best laying condition.

Send for the new FUL-O-PEP Book. It tells how to handle laying hens profitably. Sent free if you will fill out and mail the coupon.
