Pithy Anecdotes Of the Famous

Speaking of favorite dishes, when Charlie Chaplin last visited London -his old home, by the way-he was guest of honor at a luncheon given by E. V. Lucas (of "Punch" fame). The "piece de resistance," as the French so invitingly call it. was a treacle pudding - a particular weakness with the great little comedian. And it was a "sight for sore eyes" to see the way Charlie walked into that pudding. It was, too, a delicious surprise for him. It may not sound very thrilling to everybody, but those who have been cut off from treacle pudding for any length of time-well, they'll understand!

Charlie Chaplin and H. G. Wells -who is visiting Hollywood - are old friends. Lady Warwick tells of Goats should be housed in wet, cold an evening spent with Charlie at H. G. Charlie Chaplin once negotiated a \$16,000 a week contract while in the bathtub of a New York hotel. It was shortly after Charlie had burst into fame. He had finished a \$1,250 contract, made in Los Angeles, and before signing again, he decided to go to New York and "see what he could do for himself." relates Benjamin B. Hampton (in History of the Movies"). Accompanied by his brother, Syd Chaplin, Charlie registered at a New York hotel. Before they had time to unpack their suit-cases, a visitor was announced. Charlie was in the bathtub, and while the visitor - a movie magnate, of course - and Syd Chaplin tramped around the bedroom, "the comedian conducted business negotiations between splashes." "I want \$10,000 a week salary,"

Charlie presently announced. · The magnate wrote a brief memorandum agreement on hotel notepaper and, adds Ben Hampton, "Chaplin climbed out of the bathtub to sign it."

An amusing story about Sir Edmund Gosse, noted critic and author, is told by Ernest Rhys (in "Everyman Remembers"). Gosse - "a man with a tongue" - was host at a lunch at the Saville Club, London. After lunch, the company sat around the fire, and as one man after another rose to leave the circle, Gosse said something bitter-sweet about each one. So it went until the circle had dwindled to four, and the next to rise called out to N. P. Wills, the playwright:

"Are you coming, Wills?" "No," he said, "not till Gosse

Edmund Gosse, a brilliant conversationalist and wit, was a much sought after dinner guest by the great hostesses. But on one occasion he came a cropper. When seated at dinner next to Lady Griffin on whose other side was Sir George Alexander (handsome actor-manager), with whom she was obviously anxious to talk - observing signs of inattention as he spoke to her Gosse said:

"If you would rather listen to Sir George Alexander, pray do." "Oh, may I?" said Lady Griffin, and at once did so.

Bacon Exports Up A Million Dollárs

Canada's exports of bacon during the first nine months of 1935 show a gain of about one million dollars over the same period of 1934. Exports of Canadian bacon to the end of September totalled nearly 100,000,000 pounds with a value of \$15,756,17 compared with 94,286,700 pounds valued at \$14,872,331 in the first nine months of | 1934. This incrtase, amounting to 5,153,500 pounds in volume, was mostly all in the British market, which took 98,843,900 pounds, or 99.4 per cent. of the Dominion's total export.

WAKE UP YOUR LIVER BILE-

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of figuld hile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You're constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Let me tell you of one I visited near the City of Odense, famous as the birthplace of Hans Christian Anderson. It was established in 1908 through the co-operation of the Small Holders' Agricultural Societies of Funen Island. These societies have a membership of about 10,000. A joint stock company was formed and the non-interest bearing shares taken up by the local societies. beautiful building was erected in the midst of 20 acres of gardens, experimental orchards and demonstration fields. In addition a farm of acres was bought.

The school prospered and the original stock holders donated their shares to the school so that school now "owns itself" as they say in Denmark. This is the position of many of the Folk High Schools. They are free of debt and they belong to the farm group or the labor group who use them. They are independent schools. Some of them are owned by individuals. No government department controls them. They live their own lives. There is none to make them afraid.
