CLAREMONT

The Balminton Club closed the season with an enjoyable dance.

The contract for rural mail route No. 1 Claremont has been awarded to Mr. Jas. Dickinson, who has been delivering the mail on this route during the past several months.

The Continuation School held a concert in the Community Hall, on Wednesday evening last, under the direction of Mr. A. W. Lynde, musical instructor of the school. The program was varied in character, well presented and greatly appreciated.

A special feature of the Sunday evening service of the United Church was the beautiful music rendered by the Caroline Singers. The church was well filled for the occasion. The singers came here from Pickering and remained to give a concert in the church on Monday evening.

The five Claremont women who were victims of a serious auto accident a few weeks ago are continuing to make steady progress towards recovery.

Mrs. Ward and Mrs. T. Condy are still confined to bed, the latter being at Oshawa General Hospital yet. Mrs. Stanbury who is at the home of her daughter, Mrs. Martin at Peterboro, had another cast put on her fractured leg last week.

FARM INFORMATION

Clean Seed Important.
Farmers at this time of year naturally become seed minded. Good seed sown early, other things being favourable, such as soil and climate, means good crops, and good crops are the basis of successful farming.

What about the individual farmer's seed supply? If it is being purchased, he has the option of buying either Registered or Commercial seed of grade No. 1, No. 2 or No. 3 quality.

If farmers are using their own seed and are within reasonable distance of a central seed cleaning plant, it would surely pay to have their seed cleaned in such a plant. These plants are usually equipped with modern power seed cleaning and operated by an expert in seed cleaning. If the old hand fanning mill is to be used, it should be hauled out from under the bags in the dark corner of the granary or storage shed and oiled, the screens carefully examined and any necessary repairs made. In cleaning seed, it is most important to use screens that will remove harmful weed seeds as well as dirt and chaff.

Increase Use of Barley
An increased outlet for barley as feed may be achieved by an increase in the numbers of live stock fed on farms, by improving the market finish of meat animals; by reducing the volume of imported feeds, or by supplementing other feeds now commonly used. Barley is recognized as an excellent feed for many classes of live stock, and a pre-eminent feed for hogs, according to the report of the Special Barley Committee, submitted to the National Barley Committee at its annual meeting held recently in Toronto.

There is widespread support for an increase in hog numbers on a scale sufficient to absorb many additional millions of bushels of barley or other feed cereals, the report points out. The potential outlet for providing an improved finish on meat animals is greater than may be generally appreciated. It has been estimated that it would require between seven and eight million bushels of grain to produce a desirable finish on the annual supply of poultry alone that comes to the Canadian market. Only a small portion of this is being used. Corn is the only imported feed that competes directly with barley.

Current Crop Report
Fall wheat generally came through the winter in good condition, although in many districts the cold weather during most of April caused some setback.

The Bethesda Junior Women's Institute, will meet on Thursday, May 7th, at the home of the president, Mrs. Clifford Burkholder, at 2 o'clock. Please remember the hour.

One of those young men who went fishing last week told your Bethesda correspondent to correct an error made in our column last week. He said I made the boys feel rather small by mistaking the number of fish they caught. So we hope everyone is glad to know that the energetic young fellows did catch more than five suckers. Yes, they returned with the huge number of six.

A large crowd gathered at the home of Mr. and Mrs. Clarence Atkinson, on Thursday night, where a miscellaneous shower was held for the newly weds, Mr. and Mrs. Frank Bellis. The bride and groom showed their appreciation by fitting speeches.

Our little village is rather quiet this week. Everyone is busy. The women in garden with rake and shovel. The men in the field with cultivator and seed drill. Spring was a long time coming, but these are sure signs it is here to stay.

In Memoriam
In sad but loving memory of our darling son and brother, Harold Clifford Bartholomew, aged 4½ years who was accidentally killed five years ago today, April 25, 1931. Five years have passed since that sad day.

God called the one we loved away; Forget him, no, we never will. As the years roll by we miss him still.

The blow was great, the sock severe
We little thought the end was near;
It is only those who have lost can tell
The sorrow of parting without farewell

But God is good, He gave us strength to bear our cross,
He is the only one who knows how bitter is our loss.

Too dearly loved to be forgotten,
Mother, Daddy, Brothers, Sisters
