

ICE IN LAKES DOESN'T AFFECT WEATHER

The month of April was above the average for cold weather for what is considered the opening month of spring, and vessels were damaged in trying to push their way through the ice fields in Lake Erie the last week of April. Cold spring weather in the counties of Western Ontario bordering on Lake Huron and Georgian Bay has always been attributed by almost every citizen to the ice in the upper lakes and now we have the expert opinion of meteorologists to

set us right on this cold-spring question. These weather-bureau men who speak with authority say that ice in the lakes has nothing to do with the cold weather, that it does not make much difference whether the prevailing south-west winds flow over ice or water, the lake water is so cold the winds will be chilly anyway. That seems a very logical explanation. The next time, dear reader, you hear some one complaining about this being a cold, late spring and placing the blame on lake ice tell him or her what the man who reports on weather conditions has to say in defence of the ice fields.

Pine Apples

MOTHER'S ALLOWANCE ACT

Meeting Held in Whitby Told That 80 Families in County Benefitting under Act, with Distribution of \$2,493 Monthly

The Mothers' Allowance Local Boards for the County of Ontario met in a joint meeting at the home of Mr. Robert Thompson, Whitby, Saturday afternoon.

Mr. H. Bentley, a member of the Mothers' Allowance Commission in Toronto attended the meeting and discussed the administration of the Act. He pointed out that there were four classes of applicants that were eligible for the allowance providing they met with the provisions of the Act:

A widow. The wife of a man who is permanently unemployed by reason of a mental or physical disability.

The wife of a man who has deserted his family and whose whereabouts have not been known for a period of at least three years. If it can be established that his whereabouts have not been known for that period his wife can be presumed to be a widow within the meaning of the Mothers' Allowance Act.

A foster-mother who has the care of an orphan child, or children, providing such children are of the same family.

It was pointed out that the intention of the later clause is that assistance should be given to keep orphan children as a family unit rather than be distributed among several homes. It was also pointed out that the applicant must be resident in Ontario at the time of the death of her husband, or at the time of the permanent disability in cases of incapacitation, or of desertion in cases under that class.

The applicant must be resident in Ontario at least two years prior to making her application, providing of course that she was living in Ontario at the time that she became dependent. It is necessary that the applicant be a British Subject and that she shall be a fit and proper person to have the custody of children. In all cases the allowance shall only be paid if the applicant has in her care and dependent on her, one or more children under 16 years of age and had not adequate means to otherwise provide for them.

NOVA SCOTIA COAL FOR ONTARIO

"Ontario's premier, Hon. Mitchell F. Hepburn, recently announced that Nova Scotia coal is to be tried out in the engines of the Temiskaming and Northern Ontario Railway, and that if successful, this fuel will be purchased by the government in lieu of that imported from the United States. This will mean much to the mine owners in the province by the sea, and, of course, to those who work in mines, but it would mean a great deal more if the coal of Nova Scotia, said to be of very high quality, could be used more generally throughout.

But there is another side to the picture, and that is the circulation of money through the patronage of Canadian industry. If Nova Scotia coal can be brought to Ontario and laid down at the consumer's coal bin at a price as low as that paid for United States importations we can see no reason why its use cannot be universally adopted.

Perhaps Premier Hepburn, after the coal has been tried out in Northern Ontario engines and proven to be successful, will lead a movement to make the importation of Nova Scotia coal possible. The largest question, we imagine, would be that of freight rates, but perhaps a satisfactory solution can be found after a little careful study."

The foregoing editorial is from the Whitby Gazette, and while not by any means a new idea, is, nevertheless a good one. However, we believe a still better solution regarding this coal business is to have a freer exchange between Canada and the United States. For instance, why haul coal for thousands of miles from East and West to serve Ontario when the Pennsylvania fields are much closer to us, and likewise, why haul Pennsylvania coal to the people in the Western States when Canadian mines are right at their very door, separated only by the border between the two countries.

Surely, in the interests of the great mass of people who have to pay for the coal, an exchange of this kind would be far more sensible and would it not be more brotherly and neighborly all round?

Goodwood

Toronto Flashes

Sunday, May 10, Mr. Vaughan Blueman was at Fisherville.

Mr. and Mrs. Alex. Brown, of Broadview Ave visited Goodwood.

Miss Ivy Knight, of Toronto visited her parents, Mr. and Mrs. James Knight, at Uxbridge.

Mr. P. H. Davey visited his eldest brother R. J. Davey, of Palmerston, Ontario, on Saturday last.

Mr. and Mrs. George Lee visited their daughter Mrs. Morris, at Aurora, on Saturday.

Mr. John McCullough, is improving each day and is looking forward to be back at his old stand very shortly.

Miss Aulda and Mr. George Lee, spent Mothers Day with their parents Mr. and Mrs. Charles Lee.

Mr. Lang Blueman, and wife spent Sunday with his mother in Uxbridge—After the long hard winter and his illness this was his first trip.

When making out your list for the summer cottage, one important item, A weekly copy of the Tribune. Without delay, subscribe today.

The correspondent had the pleasure of meeting one of Goodwood's old boys, none other than Mr. Daniel Baker, of Markham, who attended the funeral of the late Mrs. Baston.

The tulip beds at the Goodwood Cemetery looked their best on Mother's Day, and were admired by many. These with the lovely floral tributes to the late Mrs. Baston, made one feel that Goodwood certainly has a peaceful resting place for those who have labored here and have passed to the Great Beyond.

Sorry to hear of Mrs. George Taylor being on the sick list. Mrs. Taylor is another one whose girlhood days were spent in Goodwood.

We hope Mr. Wage and his wife will find their new home near Goodwood a pleasant place to live and much more convenient to his school, being nearer his father and mother in the lovely homestead.

Too bad that Goodwood is short of houses. We read of some having to live in Stouffville while their work is more or less at Goodwood. May be some day we will hear of some new homes going up. The vacant store on the corner, if altered might house a couple of families. This would be better than having the building go into disrepair.

The correspondent was asked the other day if the Community Park was used very often. The answer could not be given, but with a park so near no doubt ball players use it—Probably when the new road comes along we might see an Old Boys' Reunion held there.

Mrs. C. Meador, has left to visit her mother Mrs. Tobias Heyward, near Mount Albert, who has been sick for a long time. Mrs. Meador, is a niece of Mrs. Minnie and Charles Lee, of Goodwood.

Mrs. McMurchy (Mary Walkington) died at the residence of her daughter Mrs. Robertson, 11 Glen-grove Avenue. She was buried on Saturday. Interment was at King Cemetery. Mrs. McMurchy was an aunt to Mrs. Geo. Lee and Mrs. Harry Plummerfelt. Deepest sympathy is extended to the relatives of this family.

Let us not forget friends the esteemed and respected family who mourned the loss of a kindly mother, Mrs. Baston, known by so many. Her kindly face and disposi-

tion, gone but not forgotten. Accept our sympathy.

Reading the different directions and roads for a Cross Country Highway, one would think they are planning a line to show off Bell's Mountain, north of Goodwood. Curves and twists may be found on highways all over Ontario. Goodwood is still on the map. Why dodge around when there is a direct line through to Uxbridge. The Township Hall, is still in Goodwood why not have a paved road so strangers can drive and look it over. A good road brings people, a bad road scares them away—Build up the old town by a good road.

We read of church attendance dropping off these days. Well folks if all the services had the crowd that filled the United Church, Goodwood, on Mother's Day, in the afternoon, there would be no feeling of discouragement. The church with its display of flowers and the number of mothers who were there would gladden the hearts of any person. Yes the correspondent was there and it brought back past memories. Looking around we saw the smiling faces of mothers we hadn't seen for years. Among them were our esteemed friends: Mrs. Middleton, Mrs. John May, Mrs. Ottowell, Mrs. Nelson Wagg. We must not forget that wherever you see the ladies, well the men folk are around, (Yes our friends) one of Goodwood's best known none other than Mr. Isaac Wagg, everybody knows him, their our friends Thos. Dowsnell, John Reid, Amos Stafford, May boys, Ted and Jim Wagg, Ernest Morgans and so many more which altogether with the service made Goodwood look like old times back again.

The total milk production in Canada in 1935 is provisionally estimated at 16,310,336,700 pounds, which is approximately the same as in 1934

PROVIDE OUTLAY OF SIX MILLIONS TO BUILD ROADS

Ontario to Match \$8,000,000 Contribution by Federal Government to Aid Jobless

Of the \$9,000,000 voted by the Dominion Parliament to assist provincial public works programs, Ontario will get \$3,000,000, Hon. T. B. McQuesten, Minister of Highways, announced on his return from a conference at Ottawa.

Since the Ontario Government will match the Federal contribution "dollars-for dollar," \$6,000,000 road construction program will be inaugurated at once.

For the construction of roads into proven mining areas of Northern Ontario the Federal Government is contributing \$300,000 and the province will add \$200,000 to swell this total.

The main road program will include Southern Ontario roads as well as highways in the north, but details of the program have not yet been released.
