## IT'S SPRING!

It's Spring — the energetic time of the year when the green-ups and the kiddies need energizing, pure foods instead of nostrums. Let our bread disappear from your table three times a day. It's a health habit. Speaking of our delicious pastry—it's delightfully digestible.

Visitors to Memorial Park are captivated with the steady improved appearance of the grounds. This season the park looks better than ever due largely to the work done in the past and to the continued interest of the president of the committee and the caretaker of the grounds who is keeping the grass cut nicely. The flower beds have proven to be a great asset to the beauty of the premises too. Plan that picnic for Stouffville park this summer.

Myron Anderson, son of Mr. and Mrs. Anderson, is now regaining the use of his right arm after being in a cast for many weeks following no less than twenty-two surgical operations. The result of a gun shot wound when on a hunting trip several years ago, many efforts were made to save the arm, several times involving a dual operation—removing bone from the boy's leg to graft on the arm. The recent removal of the cast from the last operation performed during the winter proved to be highly successful, and it is believed the arm, although under size will become strong and useful. All treatments and operations were made at the General Hospital, Toronto.

The funeral of the late Mrs. Hiram Winterstein took place on Saturday afternoon, just a few hours after the arrival of her son, Percy Winterstein, who was in Miami, Florida, when his mother passed away at Windsor on the Saturday previous, or eight days before burial. The body had been held at the undertaking parlors here of L.E. O'Neill. Interment was made at Stouffville cemetery. Rev. E. Morton conducted the service, attended by numerous old friends.

Garfield Kelly, son of Mr. and Mrs. Howard Kelly, Brook Street, Kingston, has reached prominence as a swimmer in addition to his high mark as a student. He is a product of the Depot School and the Kingston Collegiate Institute. He is only 18 years of age. Garfield Kelly is a grandson of the late Mr. and Mrs. William Lewis, who resided just west of Stouffville, and his success will be noted with real satisfaction by friends of the family here.

A very interesting social evening was enjoyed by the members of Stouffville United Church choir on Friday evening, May 22, at the home of the choir leader, Mr. Robt. Leslie. About 40 guests were present.

To commemorate the 25th wedding anniversary of Mr. and Mrs. Blake Sanders, the Woman's Association of the United Church surprised the couple at their home in the westend on Tuesday evening, when in no small numbers they called to offer their congratulations and to present the bride of a quarter century ago with a silver tray and glass relish dish, as a memento from the church organization, and as a symbol of the esteem in which Mrs. Sanders is held by the members of the organization. Mrs. H. W. Sanders read an appropriate address befitting the occasion, and Mrs. K. G. Tarr made the presentation.

There were home with her, two daughters, Mr. and Mrs. Albert Willson, Floral Park, Lake Couchiching, and Mr. and Mrs. Harry Hall, Toronto, also her granddaughter, Miss Nellie Grove, of Toronto, and friend Miss Marguerite Devaney, also of Toronto. The bad condition of O'Brien Avenue and Church streets for motorists, is a problem for the council to solve. Our own opinion is that the trouble will never be solved until some type of permanent surface is laid on these streets of a tarvia nature. The cost, we believe, would not be excessive, and would be borne by a frontage charge and a portion spread over the whole village. So many other towns are talking this means to lay permanent roads on their best residential streets with great success, that it should be given serious consideration here. A hard top road would put an end to not only the holes but the dust nuisance as well, for long years to come. Just now these streets are being torn up by a scarifying outfit, in order to work them down smooth. While this is necessary, and will remedy the trouble for a time, there is nothing permanent about it.

## HOMES—ARMOURIES

This newspaper is glad to commend the action of the C.C.F. group

at Ottawa when their leader Wadsworth, stood up in the House of Commons and protested the spending of millions of dollars on armories in Vancouver, Calgary, and other cities, instead of voting public funds to pull down the shacks in the slums of our great cities, the breeding place of disease, and erecting homes where sunshine and fresh air will contribute to more sanitary conditions and lessen the cost of hospitalization throughout in such counties as York and other congested centres.

## Thirty-Six Million in One Hand

Eight cheques totalling in value no less a sum than \$36,755,630 changed hands on May 1 when the Canadian Pacific Railway paid off the balance in principal and interest due of the sixty million dollar loan contracted in 1933, and guaranteed by the Dominion Government at that time. It will be remembered that in June of that year the Canadian Pacific had to raise the sixty millions to meet maturing obligations. The money markets of the world were then feeling the full effect of the financial crisis and were closed with the result that it was not possible for a Canadian institution to borrow so large a sum on advantageous terms. The Canadian banks therefore agreed to combine in making this loan, but as an added measure of security to the banks, the Dominion Government agreed to guarantee re-payment of the loan both as to principal and interest. The loan was to mature in five years, or might be paid off by the Canadian Pacific prior thereto on notice to be given to the banks. It has been paid off in full in less than three years, and the obligation of the Government to guarantee payment came to an end automatically the moment the cheques issued today were presented. Furthermore, since all interest and other charges have been paid by the Company, the entire transaction has not cost the Dominion Government one cent. The loan originally carried an interest rate of five per cent, but later this was reduced to four, and a half per cent. New loans raised by the Company to pay this off were made at a still lower rate of interest.
