## STOUFFVILLE HONORS HER DEAD

The annual memorial service at Stouffviile cemetery was well attended on Sunday afternoon, and the citizens put their stamp of approval on the splendid condition of the grounds. The grass was all nicely cut, and graves were all level and in good condition, while the trees recently planted out were seen to be making headway.

Rev. Gordon Duncan, an old Stouffville boy, acted as chairman and conducted the service in a pleasing manner, making fitting reference to the many loved ones who had passed over the Great Divide and now lie in this sacred acre.

Speaking on "Immortality" Rev. L. E. Atkinson of the United Church delivered a thoughtful and inspira-! tional address, which marked his first appearance at a general public gathering since locating here on July 1st. Owing to so many afternoon church services other ministers of the town were unable to participate.

Stouffville band under direction of Mr. Wm. Dougherty -rendered several selections which were greatly appreciated and were most appropriate for the occasion. The gathering joined in singing several familiar hymns, and a collection of about \$30 was lifted which will be used for cemetery improvement. The Cemetery Commissioners Messrs H. O. Klinck, K. G. Tarr, and L. E. O'Neil are taking a real interest in their work, and the results they are obtaining with the co-operation of the caretaker Mr. Ernie Strong, are such as to draw favorable comment from every quarter.

Many visitors and old friends were present from out of town among whom we noticed Mayor F. W. Mertens, wife and two sons from Weston, Mr. and Mrs. Fred Nightwander and sister-in-law from Toronto, Mr. and Mrs. J. W. Thompson, Newmarket, Alfred Snider and wife of Vandorf, Mrs. Coulson, Toronto.

He was of a family of six sons and six daughters, of whomonly one-now survives, being Mrs. S. B. Lehman, of Almira, mother of Harmon and Willis Lehman. She is 92 years of age.

John R. Hoover, subject of this obituary, upon his marriage to Hannah Purdy of Goodwood by Rev.J.B Moore, of Stouffville, took up land on the place where he died just 59 years ago, his father having procured for him 50 acres as he did for all his sons: To some of them he gave 75 acres, in consideration that they pay a set sum to their sisters. John was a good farmer, and a real type of early settler. His early days in his new home hark back not only to horse and buggy times, but to those days when farmers in this district hit the trail for Toronto, when they need realize cash for their produce. The local store keepers only offered trade. It was his custom to set off at 2 o'clock in the morning for Toronto, transact business and return by midnight. "It was't so bad." exclaimed Mrs. Hoover to The Tribune, "for he had a faithful team and he could sleep much of the way home, and the horses always The first indoor baptism to be brought him back safely. # THE SWIMMING TANK GREAT

Serious consideration is being given to the settlement of a boys camp from Toronto at Stouffville next summer, but the matter of bathing facilities proves the one obstacle to the camp locating here.

The matter is in the hands of the Park Commission, and its members are making an effort to obtain the exact cost of a swimming tank, which must be obtained ere we may know whether it can be financed or not. Al business men should be vitall interested in the question, for camp of 400 or more boys would be a real asset and their visit would be repeated from summer to summer.

Citizens in general should be interested in seeing a swimming tank at the park for the sake of our boys. Every lad should have the opportunity to learn to swim, but friends throughout the district many parents are not willing for attending the funeral. Rev. ### LYMAN HELMKAY, **NEWMARKET, DEAD**

The death of Lyman Helmkay at Newmarket on Monday removes a native son of the lake district just north of Stouffville, where he was born nearly 76 years ago. His demise followed a serious illness, from which he had hopes of recovery until only recently.

Mr. Helmkay as a young man purchased the farm lands on the east shores of Musselman's Lake known to many as the Josh. Hoover place, and the latter purchased i from Mr. Helmkay about 16 years ago. The property has since been sub-divided into lots and numerous cottages occupy the front portion of

Moving to Newmarket when he gave up the farm Mr. Helmkay remained there until his death. He is survived by his wife who was Charlotte Lunau before her marriage a sister to Mrs. Wellington Helmkay of Stouffville. There is an only son William John also living in Newmarket, and three sisters, name ly: Mrs. Sam. Irwin, Island Lake Mrs. L. Lunau of Unionville, and Mrs. Ed. Lewis of Glasgow. Three brothers predeceased him. Interment was made at New

market cemetery on Wednesday afternoon.

# **AREA IS LOCATED**

Ancient River Bed 5 to 6 Miles Wide, From Wasaga to Toronto - May be Source of Stouffville Water Supply.

A survey of Ontario wells undertaken by the provincial mines department, in conjunction with federal geologists and the Ontario Agricultural College, has revealed the existence of a giant artesian area stretching from Wasaga Beach to Toronto, Col. R. B. Harkness, natural gas commissioner, an nounced at Queen's Park, Tuesday.

Estimated to be between five and six miles wide, the area follows the course of an ancient river bed, since filled in by glaciers, Col. Harkness stated. It has known tributaries, one at Dundas, and Col. Harkness was confindent that compilation of mine drilling data will reveal other branches. It may be that the area reaches far enough east to be the source of the Stouffville water supply.

The spring at Sherwood Park, Toronto, and York Springs are pose-after filtration. It was his fed by the artesian area, Col. Harkness said.

> "Knowledge of the location and depth of this large artesian field should solve the water problem for farmers and municipalities between Toronto and Wasaga," Hon. Paul Leduc, minister of mines, stated. Under the 1935 legislation al

Ontario well drillers are required to submit to the department of mines information regarding the depth at which they struck water and the geological formation of the earth through which they bored. A word of reassurance to farmers was given by Col. Harkness. "We don't intend to bother the Study.
