While about 1500 meals were served in the Mennonite Church from Tuesday until Saturday evening last week during the time of the conference there, the feat wasn't accomplished quite as easily as on a similar occasion. 2000 years ago, wherein the Bible tells us of a certain well known incident. On this occasion the folks of the congregation had every opportunity to prepare for the event, and prepare they did. There was always enough and to spare after every meal, and the delegates expressed themselves in high terms of the hospitality accorded them. While the ladies come in for most of the credit, there was a man in the case and he is none other than our Noah Baker who for 15 years has acted as purchasing agent whenever the church undertakes to "feed the multitudes," be it a conference or summer camp meeting. Mr. Baker just got straightened up this time on Saturday in time to celebrate his 78th birthday which fell on Monday.

As there seems to be an uncertainty in the minds of some people about the weekly half-holiday in Stouffville, we have been asked to make an announcement so that the situation will be clear. The holiday, according to the petition some years ago, calls for the business places to remain closed every afternoon right through the month of October, so that there is no change whatever at the end of September. The fine fall days will be appreciated by the business people who are glad of the half day in the open air after pretty close confinement every other day.

Growers in the local district are complaining about the mean price being paid for cauliflower. The market is glutted and the 'caulies' have grown so fast that some of them are too open for pickling use, so that there is a loss one way or other. A trucker took a load to North Bay as a speculation, and only got the cost of gasoline and meals for his trouble, losing heavily for having paid the grower what he believed was a fair price at the field.

Mr. Deeds Goes To Town

GARY COOPER and JEAN ARTHUR

DON'T fail to see this outstanding production. You'll roll with laughter at GARY COOPER in this really human role—a gangling small town poet who chases fires and plays the tuba when he concentrates, who inherits twenty million and is whirled to New York to take charge of the fortune he didn't want in the first place. JEAN ARTHUR as a Manhattan newspaper's best sob sister, falls in love with him—this leads to a crashing finish which brings the lovers together and solves his problem in a most timely manner.
