

TOWN TOPICS

Potatoes are bringing the Goodwood farmers \$1 per bag at the farm, or delivered in Goodwood.

June may be the month for strawberries, but good old October is the time for hot fowl suppers.

Milk is advancing to nine and ten cents a quart in various towns according to announcement in our exchange papers. Here in Stouffville we are treated to pasteurized milk at only 8 cents a quart all the year through.

"Who was doing that terrible swearing at your house this morning, Henry?" asked the old lady. "I do hope it wasn't you," "No indeed," protested Henry, "that was Pop. You see, he was late for church and couldn't find his hymn-book."

Since day school has resumed up on the hill, after the summer holidays, the windows of the school are again most attractive-looking, filled with beautiful flowers, and paper decorations. The teachers are to be commended for their co-operation with the caretaker in making the Stouffville school building second to none in the province from the point of being well cared for, and from the artistic side.

The Tribune is indebted to William Tyler, young minister who had charge of Christian Churches at Stouffville and Churchill for a year prior to leaving for China, for an interesting account of his trip and arrival in the East. It will be read with interest on another page of this issue. Mr. Tyler was born in China, hence entering the Celestial domain was not quite the same to him as to most missionaries who leave our shores. His parents, who have served for years in the foreign field were there to greet him, hence his return to China was somewhat of a home-going.

Don't fail to take advantage of the sale of "Blue Ribbon" Union Paint at Goudie's Hardware.

BOARDWAY'S
Stouffville Ontario

Mr. Allan Gray and Norman Neal, left Saturday morning, on a trip to Sudbury, to visit Allan's brother.

There was sufficient frost one night last week to form ice a quarter inch thick over a pall of water.

The big price reduction sale in Monarch Paint is being continued at Brathwaite's Hardware. Your attention is directed to our display announcement in this issue.

"The Great Rangovas," palm reader, will be at L. E. O'Neill's furniture store this Thursday. Free reading with every 30c purchase of Aulcraft paint, enamel or varnish.

Mr. and Mrs. Harvey Real and daughter of Greenbank, Mr. and Mrs. Wilmot Walker and daughter, of Manchester, and Mr. and Mrs. Langmaid of Oshawa, spent Sunday at the home of Mr. George Winn.

There will be some rare old pieces in glassware sold at W. J. McConnochie's auction sale on Wednesday of next week at the farm just west of Ringwood a mile and a half. It is another large furniture sale to clear everything in the spacious home, and those wishing odd pieces in either dishes or furniture should attend this sale Wednesday, October 7.

Last week Mr. John Ratcliff arrived home from his two and a half months' visit in Western Canada. He is looking fine, and was delighted with the holiday, which gave him an opportunity to make a side trip of 1500 miles from the home of his daughter at Midnapore, near Calgary, up into the Peace River country with his son Fred, a report of which Mr. Ratcliff so graphically described in these columns some weeks ago in a letter which he sent The Tribune. In all Mr. Ratcliff covered some 6,500 miles from the time he left Stouffville until his return, and that's no small journey for a man over seventy years of age. Mixed opinion says Mr. Ratcliff, "is encountered all through Alberta on the Aberhart social credit scheme. Those that are getting from under their load of debt are delighted, and those who are stuck are not so enthusiastic." Mr. Ratcliff showed us the first Alberta scrip money we have seen, and it is possibly the first to reach Stouffville. The paper content and size of the bill, and its general appearance closely resembles an ordinary Canadian dollar. There is this difference, the back of the bill provides for the weekly stamp to be affixed, but the bill has every appearance of any legal tender.

The next regular meeting of Stouffville Municipal Council will be held on Friday evening of this week, instead of on the regular date.

The North York plowing match will be held at Ringwood, on October 21, and many enquiries are coming in for prize lists, indicating a big interest in this event.

Mr. and Mrs. Art Fisher and son Thos. of Elk Lake, Northern Ont., accompanied by Mrs. Nelson Watt, and Miss Billie, of Claremont spent a day last week with the former's aunts, Mrs. T. Smales and Mrs. E. Tarr.

Rev. H. M. Manning who died at Brampton last week preached in the Methodist church at Uxbridge back in 1835 on a four year term. During this time he visited Stouffville on many occasions as district chairman, Stouffville being part of the Uxbridge district at that time. The late Mr. Manning was one of the first ministers of the Methodist church to preach near Edmonton over half a century ago.

The new C.N.R. time-table effective last week, changes the time of going and coming of all passenger trains through Stouffville. The morning mail is not due here now until 10.05, which is 14 minutes later than heretofore, while the evening train from Toronto does not arrive before 6.11, also 14 minutes later than heretofore. The down train to Toronto is due at 10.35 in the morning, (15 minutes earlier) and 7.12 (13 minutes earlier) in the evening.

This week seven students from Stouffville and district left to resume their studies at Toronto University. Sam Foote is entering 4th year in the Civil Engineering course, Don. Closson, Sam Borinsky, Chas. Nolan, G. Murehison, and Miss Agnes Klinck commence their second year in various courses, while Donald Moyer enters his second year at McMaster University, in Hamilton. Miss Helen Hastings enters Toronto University for her first year course. Reg. Button goes to Osgoode Hall, and John Button is pursuing his studies in medicine at U.C. College.

Scores of our readers will join with us in extending good wishes and congratulations to Mr. and Mrs. R. J. Daley of Edmonton on reaching their 61st wedding anniversary, as recorded in the Edmonton Journal and reprinted on the front page of this issue. Mr. Daley was a prominent business man of Stouffville and did much to develop the community from a mere country corners to a humming village. No other man contributed quite so much to the development of the village as did "R. J." as he was so familiarly called. Ever to this day he is actively engaged in business as a rancher of considerable importance and operator of an estate of some 3,000 acres in one of the best mixed farming districts in Alberta.

Gun licenses promptly issued by N. W. Byer, Stouffville.

Mrs. Leslie Hodgson and Miss Sadie Stewart, spent a few days at St. Catharines visiting the former's nephew, Mr. and Mrs. Ross Irwin.

Lou Morden left last week for Western Canada where he will join his brother Preston who recently located at Lloydminster, Alberta. Lou will buy horses for the Montreal market.

Rev. Dr. Mitchell will take part in the Presbyterian church anniversary services at Bradford on Sunday by preaching morning and evening. Most of us would be more at home participating in the Monday evening program which calls for 500 to sit down to a hot fowl supper.

Work has commenced on laying a four-inch water main on Second street from the rear of Dr. Sangster's property to the rear of Alex. Scott's—John Castle is in charge of the spade work and Fletcher Goudie the plumbing. The cost of this work, running over \$1,000, will be met from funds already in hand in the water works account.

A number of local fans journeyed to Sunderland this Wednesday afternoon to see the baseball game between Sunderland and Wingham. At Wingham last Saturday that team won from the Brock boys by a 2-1 score in ten innings, indicating a very close contest for the semi-finals of the O.B.A. Sunderland won the pennant last year and have only two or three teams to meet before reaching the top in the championship race of 1936.

Mrs. Isaac Stouffer left town last week enroute to her home near Greenshields, Alta. Mrs. Stouffer came East three months ago owing to the illness of her father John R. Hoover, east of Altona, and who subsequently passed away. Mr. and Mrs. Isaac Stouffer farm a quarter section, and follow the lines of mixed farming fairly well. Since Mrs. Stouffer's return to the West her mother has gone to live with Mrs. John Watson on the 10th concession—Thus two sisters who were raised near Goodwood under one roof, have returned to the same condition of living after having their own homes separately for about 50 years.

The village is said to be over-run with punch boards, according to one authority who ought to know. Strangers are calling on the school children inducing them to sell these games of chance, but our advice is that the whole thing should be stopped, and that parents forbid their children to accept any more of these boards to sell. Such schemes for raising money may have some place among members of certain societies who are trying to raise money for charitable purposes or some other public need, but it is not proper for private gain. It is also questionable from a legal point of view, and teachers have requested this paper to call the attention of parent or guardian to the matter.

WOMEN'S INSTITUTES OFFER AID

Plans are well under way for the financial campaign and first annual Tag Day to be held on October 17th, in aid of the Children's Aid Society of York County.

There has been a splendid response from the various municipalities in the County. They have given assurance of their co-operation in the proposed drive and are unanimous in expressions of good wishes for the success of the campaign.

Women's Institutes, and Service Clubs in the County are entering into the work of organization with great enthusiasm.

Auction Sale

Farm Stock, Implements, Etc. The undersigned has received instructions to sell by public auction at

EAST HALF LOT 1, CON. 1, UXBRIDGE TOWNSHIP

ALTONA

A. S. FARMER, Auctioneer.

"Blue Ribbon" Union Varnish makes a wonderful finish for your furniture and Woodwork. Get your supply now at Goudie's Hardware.

Mrs. W. H. Clark, of Collingwood, was in town for a day or two. Mrs. Clark is a former resident of Church street, and her late husband was the capable clerk of Whitechurch Twp., for many years. Mrs. Clark informs us that her son Hugh is now living in Toronto, where he is employed by the Ontario Department of Agriculture.

Stouffville once had an old mill pond which lay east of the C.N.R. station at the rear of Dr. Ira Free's residence on Main street. There is not even a remnant of the banks nor the willows on which the boys used to hang their clothes when they went swimming. However, we have quite a few citizens who well recollect the old pond. A subscriber in the U.S.A. in writing The Tribune wants to know if the old swimming hole is not good enough for the present generation instead of a specially constructed tank. Trouble with Stouffville is that we have no swimming holes. Those of "the good old days" have dried up and are no more.

The Anniversary Service of St. James Presbyterian Church, Stouffville, will be held Sunday, Oct. 4th, at 3:00 p.m. Special music will be provided by the choir of St. Andrew's Presbyterian Church, Markham. The choir will sing "The Heavens Are Telling" from Haydies "The Creation." The sermon will be delivered by the minister of Bonar Presbyterian Church, Toronto, Rev. G. C. Lamont. St. James Church was open for worship in 1894 under the pastorate of Rev. H.E.A. Reid, B.A., although it was back in 1859, (seventy-seven years ago) that representation was first made to the Presbytery of Toronto, and arrangements were made to send students to supply Stouffville. Services were first held in the temperance halls, and in 1863 the first frame church was built.

According to information received at the local post office, plans are now going forward at the Department in Ottawa for the issue of a series of King Edward stamps, but they will not be on sale until the end of the year. The reason is that it requires several months for the engraving and printing. It is expected that the new stamps will bear an

Betty Beauty Salon

For appointment, Telephone 3206

excellent profile likeness of King Edward VIII. The new series will be part of the annual issue of approximately 2,000,000,000 Canadian postage stamps. In England the first issue of stamps bearing the head of King Edward went on sale last week and continued until Saturday, after which date they were taken off the market, and the present supply of George V. stamps will be sold until exhausted. Another issue of new stamps will follow after the coronation next May 30. The English issue is of the same size and color as the George V. issue but plainer and more vivid. It is said that the head of His Majesty stands out well against a shaded background, while the design as a whole is very simple, yet dignified.

"GOOD NEWS" too for Anker-Holth Owners. Ask Us About It!

CHEAPEST IN ALL THE WORLD!

... because it costs less than half as much PER YEAR to use!

There are really only two kinds of cream separators... (1) the kind that goes "out of balance" and (2) the kind that is SELF-BALANCING.

There is only ONE cream separator built on the whole American continent that has a SELF-BALANCING BOWL. It is the **Anker-Holth**

Bowls hand-balanced by adding "patches of solder" inside the bowl-hood gradually get "out of balance" from the first day of use. At intervals, such bowls must be "re-balanced" or sent back to the factory for re-balancing. All of the time such bowls are "out of balance" they LOSE CREAM.

Not so with the Challenge Anker-Holth. There is no bowl-balancing department at the Anker-Holth factory. The Anker-Holth bowl is SELF-BALANCING and in construction is patented. Anker-Holth users do not suffer "out of balance" cream losses.

SUPPOSE you were to start today with two cream separators—a Challenge Anker-Holth with its SELF-BALANCING bowl and another separator of the solder-patch kind. Assuming both cost the same when new, here is about the way the figures would work out in 25 years:

First cost.....	\$100.00	\$100.00
Bowl-balancing (four).....	100.00	100.00
Out-of-balance cream loss.....	23.50	200.00
New separators bought (two).....	200.00	200.00
Service reconditioning (three).....	65.00	65.00
Total for 25 years.....	\$165.00	\$462.50
Average PER YEAR.....	6.60	18.50

*In above estimate we have figured re-balancing the solder-patch bowl each five years to keep the "out-of-balance" cream losses down to minimum. The "out-of-balance" cream losses were figured at only \$2.50 per YEAR even though tests show that this runs that high per MONTH!

Come in... let us tell you the WHOLE story!

WARNING

There is only ONE self-balancing bowl made in America. It is the Challenge Anker-Holth. It is not to be confused with "other" brands such as "Self-Balancing" etc. Here's how to tell: The bowl can be put together in only one way. It is NOT self-balancing. The bowl can be put together in only one way. It is NOT self-balancing. The bowl can be put together in only one way. It is NOT self-balancing.
