FIND COW HAD THE FALSE TEETH

Plate Given up as Lost After Most Intensive Search Turns Up in Mouth of Cow Some Days Later.

Mr. Alex. Weber, residing on the farm, southwest of Walkerton, and who lost his left hand in a threshing accident a few years ago, was the victim of another threshing incident that occurred on his farm a few weeks ago that was most annoying at the time, but which has since turned out so amusing that his neighbors have only to think of it to laugh all the indignation out of their systems, and have found that it is better than the proverbial apple a day to keep the doctors away.

It seems that Mr. Weber had a cold in the head, a not altogether unheard of thing in these parts, and that while running his threshing machine a huge cough that shook his diaphragm, loosed his false teeth from their moorings and shot them into the chopper of the fast running machine, which was grinding out food for the rapacious cattle on the farm.

After recovering from the surprise and vainly searching for the missing grinders, the dismayed farmer gave them up as lost, and went about his way, sorrowing and sighing like it was "good-bye forever" to his plate.

But fortune had something better in store for him, for some days later he noticed a cow that was chewing something other than her cud, was turning up her nose and rolling back her eyes as if she was going to kick the bucket if something was not done quickly, so hopping to the rescue he did what the Trojans should have done, "looked a gift horse in the mouth," and low and behold, his missing plate, which so helped out his own mastication, was proving so unsuitable for the cattle's jaw as to mark its undoing, and so in recovering it, two wents made happy, the cow over the removal of the obstacle the farmer over the regaining of his teeth. And as Shakespeare would say, "All's well that ends well."

ORDER YOUR METAL ROOFING THIS WEEK and save money

3 YEARS TO PAY!

It is very much to your advantage to put your order in for RIB-ROLL or TITE-LAP metal roofing right away—this week.

In the first place, steel prices are going up. You will have to pay more if you wait. But the Government's Home Improvement Plan now lets you do much-needed roofing and repairing with three years to pay for it! An opportunity you should not miss!

WE COOPERATE TO PRACTICALLY ELIMINATE CARRYING CHARGES

Under the Home Improvement Plan there is a 3 1/2% discount on advances by the banks. Eastern Steel Products Limited is helping its customers to almost wipe out this charge. We have adopted a 3% cash-with-order plan. So buy now. Get a new, durable, non-leaking, thoroughly weather-proof roof on these easy, money-saving terms. Save extra money by ordering before rising steel prices force roofing prices up.

We urge you with all sincerity to take advantage of this remarkable opportunity. Get free cost estimate by simply sending us ridge and rafter measurements. When you get this cost estimate, go to your banker. He will show you how you can get the money for your re-roofing needs under the Home Improvement Plan. The whole transaction can be completed in short order.
