

# HER HANDS WERE ALL OUT OF SHAPE

## In Grip of Rheumatism for 15 Years

Here is a letter which shows the value of persevering with Kruschen:—  
"For about two years I hardly went out, it was such a painful effort to walk owing to rheumatism. My hands and feet were the worst affected. I was unable to walk without a cane. I read so much about Kruschen, I decided to try it. I was three months before I felt any better, but I kept on and since then I have been fine and never used the cane. My hands were all out of shape, but they are almost normal now. Of course I could not expect to get better all at once, as I had suffered 15 years before I started on Kruschen."—(Miss A. L.)  
Rheumatism is frequently caused by an excess of uric acid in the blood. If you could see how Kruschen dissolves these uric acid deposits, then dissolves them away altogether, you would agree that the Kruschen treatment should bring relief in cases of rheumatism.

## Queer World

**Book Hospital:** Ancient manuscripts from all over the world are sent to the monks of the Greek Abbey at Grotteferata, near Rome. In this 1,000-year-old building every weapon of modern science has been mobilized to fight insects, decay, mildew, and the ravages caused by time in ancient scrolls.

**One Copy Newspaper:** In a Canadian nursing home the wife of a man arrested in connection with a murder lay with her day-old baby wondering why the hospital authorities kept the newspapers from her. The Toronto Daily Star, to save the mother from the serious relapse that would occur if the truth were learned, republished its main edition, carefully expurgating all reference to the murder and replacing it with a copy of the making over of several pages, the re-casting of the plates, and a scene of the huge press.

**Stowaway Romantic:** A woman who saved the life of her fiancé, a Danish sailor, who fell ill on a North Sea trading vessel. The skipper was astonished to find the sick sailor being nursed by a woman, but when the man was put ashore at Saaby, the stowaway was allowed to remain at his bedside after his operation for appendicitis.

**"The man with steel hands,"** Mr. Andrew Gawley, of Menford, Ont., has bravely overcome the terrible result of an accident in which both his forearms were amputated by a buzz saw. When the arms healed young Gawley and his blind father made a pair of steel hands, which have served him ever since. To-day Mr. Gawley is a machinist. He can write, ride a bicycle, tie his shoe laces, chop wood, thread a needle, and eat and dress without assistance. He is an expert rifle shot and a keen fisherman.

**Power of Love**—Milosh Prigle-vich, an eight-year-old Serbian, walked 250 miles in 23 days in order to get married to a widow with whom he had fallen in love.

I.O.U.: Dating from 109 B.C., an

## Here's that Fast "Phillips" Way

### To Alkalize Stomach Quickly

On all sides, people are learning that the way to gain almost incredibly quick relief from stomach condition arising from overacidity, is to alkalinize the stomach quickly with Phillips' Milk of Magnesia.

You take either two teaspoons of the liquid Phillips' after meals; or two Phillips' Milk of Magnesia Tablets. Almost instantly "acid indigestion," goes, gas from hyperacidity, "acid-headaches"—from over-indulgence in food or smoking—and nausea are relieved.

Try this Phillips' way if you have any acid stomach upsets. You will be surprised at results. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Only 25¢ for a big box of tablets at drug stores.

**ALSO IN TABLET FORM:** Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

MADE IN CANADA  
**PHILLIPS' MILK OF MAGNESIA**

# SCOUTING

## Here There Everywhere

A brother to every other Scout, without regard to race or creed.

"Mystery Land" in the Laurentian hills of Quebec, which has had considerable newspaper mention during recent years, has been finally relinquished by the Canadian General Council of the Boy Scouts Association.

The island, was developed and fostered by the late Mr. Noulan Cauchon of Ottawa, internationally famous town planning engineer, as a project to angling interest in virgin country camping by Boy Scouts, and with the hope that the camp some day would be used by parties of Scouts coming from all parts of the Dominion.

Considerations bringing about the island's relinquishment were the difficulty of ready access, or ready ingress in case of serious accident or illness, and possibility of younger Scouts losing their way in the thick undergrowth or falling from the steep rocky cliffs which formed 90 per cent. of the shore line. A financial consideration was the fact that the Canadian General Council of the Scout Association lacked funds which might properly be applied to the maintenance of the campsite available only to Scouts from a limited area of Quebec and Ontario.

Egyptian promissory note has been discovered. It shows that interest was 100 per cent., with no extension of time.

**Luck:** Theatre manager George Stevens entered a busy American restaurant, was given oysters, another customer had ordered — and found in one a pearl worth \$130.

**It Pays to be Fined!** For months past a Glasgow man has been paying a fine of £2 every week because he refuses to close his cafe at eight o'clock on Sunday evenings. He says the profit he makes from patrons after the legal time for closing amounts to much more than the £2 fine, which is the maximum penalty.

**Rat-Shy Cats:** Because they were lazy, and refused to catch rats, the Polish city of Bialystok has ordered that "all cats are to be kept without food for twenty-four hours every week." For some time the city has been over-run by rats, and all means of fighting the plague have failed. The Town Council has now decided to fine every cat owner for having overfed their pets.

**Names Changed While You Wait:** Mrs. Leota Berg obtained a divorce at Mattoon, Illinois. The judge gave her permission to resume her maiden name of Leota Fulk. She then obtained a special marriage licence. Later the same day she married again and became Mrs. Charles Wilson.

## Eternity

Ambition binds the sons of toil to arrows  
And skyward speeds them, helpless,  
From her bow;  
But arrows turn as fame's long  
highway narrows,  
And none may choose the way that  
he would go.

Each mounting shaft a transient  
moment borrows,  
The child of dust, of numbered  
flocks of foam;  
But all are weighed and fall with  
binding sorrows,  
And earth, their mother, calls her  
children home.

Yet fallen far beyond life's dark-  
ening river,  
In flowering seas of sleep that know  
no short,  
Each restless waif shall find, and be  
her giver,  
Whom each one called his god—  
and myth no more.

— J. W. Rief.

Aluminum first was isolated in 1833 by scientists Davy and Wohler. In 1886, Hamilton V. Castner, of New York perfected a method of manufacturing aluminum as a sheet metal.

## Ryders' SEEDS

they're right!

### No name stands higher amongst gardening experts

To make certain of results buy seeds with a reputation — Ryders'. Then you will get double-tested seeds at reasonable prices from a firm with a 70 years' reputation.

**Great Coronation Year SEED BOOK!** Write today for a FREE copy of Ryders' latest and greatest seed book. 122 pages. Unique novelties. Old favourites. Practical advice.

Dept. WP 2, P.O. Box 2154, Montreal. Orders for seeds must be sent direct to Ryders & Son (1920) Ltd., Seed Specialists, St. Albans, England.

## Smiles and Chuckles

First Hobo — "Whad-deya --y, lets go to the college and get a free share"  
Second Hobo — "No, thanks, I'm afraid that tells who shaved me last time hasn't graduated, yet."

Minster — "I have never threatened a child who has behaved so well as yours."  
Mother (beaming) — "I have been getting him used to it with the watering can for the past week."

The way of the transgressor is very rough and rocky. But he will never be lonesome for lack of company.

If a sedentary worker spends his leisure time in walking he will need an additional fifty-seven calories per mile; half a pint of milk will provide him with that amount of energy twice over. — Dr. W. F. Christie in "The Practitioner." But it does not follow that if you drink ten pints you'll be able to walk forty miles.

The exciting feature about marriage is that every day holds forth the possibility of some new disagreement.

**THANKFULNESS**  
I'm thankful for the dawn of day,  
For useful work and buoyant play;  
For thankful for the faith of friends,  
For humble heart that condescends,  
I'm thankful for the trees and the flowers,  
For sapphire seas and cooling showers.

I'm thankful for the world of books,  
For chanting birds and purring brooks  
I'm thankful for the sun at noon,  
For silent stars and crescent moon,  
I'm thankful for the gift of prayer,  
For blessings I can freely share,  
I'm thankful for the right to live,  
For daily chance to serve and give,  
I'm thankful most to God above  
For His protecting, perfect love.

—Grenville Kleiser.

The difference between a turkey and a tax-payer is that the turkey gets it in the neck only once a year.

Hamilton — "Jim, what did you call your mother-in-law after you got married?"

Jim — "Well, for the first year I addressed her as 'Say,' and after that we called her 'Grandma!'"

Salesman — "Where is the manager's office?"

Stenographer — "Follow the passage until you come to the sign that reads 'No Admittance.' Go upstairs till you see the sign: 'Keep Out.' And then follow the corridor until you see the sign: 'Silence.' Then yell for him."

## Let Yourself Go

LONDON—Lord Dawson of Penn, the physician, gave advice on making love when Cambridge Union Society discussed a motion that all birth control is not in the interests of social welfare.

"There are times for self-control," he declared, "but if there is one time when you should not have self-control it is when you are making love to the opposite sex. There is harm done by lack of self-control when it is needed, but there is almost as much harm done by self-control when it is out of place."

Lord Dawson was defending birth control and so many under-graduates wanted to hear him that many of them could not get into the house, and dozens had to sit on the floor below the president's chair. He won his case, for Dr. Halliday Sutherland's motion was defeated by an overwhelming vote of 466 to 185.

## Some English Humor

It is stated that as stars grow older they decrease in weight. Reports from Hollywood do not confirm this.

"Who has a good word for the rate-collector?" asks a writer. We heard one the other day, but it's not printable.

A writer declares that the future of middle-class family life is in the hands of domestic servants. They will probably let the whole thing drop.

## Along Canada's Mining Highway

One of the best mediums for the conservatively minded, for participation in the developments along Canada's mining highway, is through the holding companies.

Ventures controls excellent mining enterprises in Quebec, Ontario and Manitoba, and has important interests in the North West areas. Premier Gold has, in addition to British Columbia and Ontario interests, a very important investment in Australia.

Towamag Exploration has interests in copper, silver, gold, lead and zinc, through its important holdings in Alderme Copper, Francoeur Gold and Lake Geneva Mines.

Royalty is a safe medium among the oil holding companies.

Market interest, however, is still concentrated on the developing gold properties. The public memory is still fresh with the spectacular movement in Moneta shares, following diamond drilling results. Federal Kirkland, with one drill started and a second ready to begin, is being watched with great interest. The proximity of its adjoining neighbors—Sylvanite, Toburn and Continental Kirkland is the reason. Jellicoe — in the Little Long Lac Camp — has reported what

promises to be a very interesting development, according to diamond drilling indications. Its rich ore discovery is of importance, not only to Jellicoe, but promises much for Bankfield and Magnet Lake.

Hutchison Lake should provide market news at an early date. Shaft sinking is nearing the first level. Smelter Gold should provide news from its diamond drilling campaign already started.

Underground work on the Kerr Addison and Martin Bird properties in the Larder Lake District of Ontario is creating a big public following for these issues.

In the Quebec Field, Francoeur Gold, Astoria Rouyn, Dempsey Cadillac, Powell Rouyn and Rouyn Reward are likely to provide important mining news.

In the Oil fields the important development has been the formation of the Brown Oil Corporation with finances provided by Eastern capital. The Company is financed to drill three wells on the west flank of Turner Valley. The Company's holdings are regarded as proven acreage. Pacalta Oils is expected to start drilling operations in the Wainwright field at an early date. The Company's Alberta Oil leases approximate 17,480 acres.

"The Immaculate Conception," a magnificent work of mosaic done after Murillo's painting, and now in the National Shrine at Washington, required the work of three artists for four years.

## The Onion

The Christian Science Monitor writes:—Few of the chief intellectual developments in America pass entirely unnoticed among the more thoughtful sections of the British public. It is therefore only natural that the reported establishment in Kalamazoo, Mich., of the Onion Anti-Defamation Society should have provoked considerable comment in those London circles which keep themselves abreast of the main trends of modern thought.

Robert Louis Stevenson, one commentator recalls, maintained that the onion "ranks with the truffle and the nectarine in the chief place of honor amongst the world's fruit." On the other side of the Atlantic, Oliver Wendell Holmes called it "a communicative and companionable vegetable, with a real genius for soup," and Herodotus says that the Pyramids were built on it. Moreover, to "know one's onions" is proverbially a sign of wisdom.

With such authoritative opinion active in its behalf, the onion may ponder at the anxiety which the Kalamazoo society feel for it.

## Idleness Is Termed Work of the Devil

### Lives Spent in Merrymaking Unfit Man for Hereafter

New York.—Termining idleness "the devil's work," the Rev. Dr. Malcolm J. MacLeod, retired pastor of the Collegiate Church of St. Nicholas, urged the members of the Middle Collegiate Reformed Church to give their lives a meaning by purposeful activity and kindness.

"The shortness of human life is the ghost at the banquet of human thought," declared Dr. MacLeod. It haunts men amid their bustle and chatter. Of course, an empty life would seem long enough. If you want to make life slow, and that is the devil's work, there are plenty of people who can show you how."

Belief in man's immortality is incompatible with a life spent in merrymaking, said Dr. MacLeod. Therefore, he added, labor should be regarded as the handmaiden of religion, and the human relationships involved should be tempered with kindness.

"Christ, who was ceaselessly busy, understood this. Today we can see people who pass another day after day without exchanging a single word. If they met abroad they would embrace one another. In rural sections families quarrel bitterly about their fences. With life so short, why can't we be kind and considerate in our dealings with our fellow-men?"

Referring again to his belief in man's immortality, Dr. MacLeod asserted that man's earthly life had added importance because it was a preparation for the hereafter.

"We were born to be launched into great eternity just as a ship is made on land to be launched into the sea," he said. "Perhaps if we would listen we would hear a voice saying there is a haven that is our home."

## Queer World

**Close Shave:**—As a penance, four times a year, Swami Aihlak Panna Lal, a Jain ascetic of Northern India, pulls out every hair of his head and beard.

**Tree Garage:**—In Mariposa Grove, South California, there is a fallen tree trunk which is used as a garage for motor cars. It is 70 yards long, hollow, with an entrance six yards wide, a depth of 20 yards inside, and is estimated to be 2500 years old.

**Civilization!**—A patent for "a bomb-proof four-poster bed" has been registered at the Reich Patent Office, in Germany.

**Death for a Farthing:**—A Bengal dealer sold a pot for a farthing, but his customer demanded a lid without extra charge. There was a struggle when the dealer refused, and he dropped dead—strangled.

**Transparent Teeth:**—Glass is suggested as a base for false teeth by Dr. Frank Lott, of Toronto. To save breakages, splinter-proof glass is recommended.

## Is This a Record?

GLASGOW—Fifty years in one church!

That is the record of the Rev. Dr. David Watson of St. Clement's Parish Church, Mile End, Glasgow, in honor of whom a special service was conducted recently at St. Clement's by the Very Rev. Dr. Marshall B. Lang, a brother of the Archbishop of Canterbury.

Dr. Watson's association with St. Clement's began in 1886 after he had acted for a short time as an assistant at St. George's Parish, Paisley.

He retired from the active charge to become senior minister of St. Clement's in 1928.

A Norwegian scientific expedition is preparing to visit Tristan da Cunha, the lonely British possession in the south Atlantic, to investigate the theory that the island is part of a huge continent connecting South America, Australia, New Zealand, and Africa.
