Goodwood

Glad to see Walter Todd out again after his recent operation.
 Quite a number from here attended the Liberal Rally in Gravenhurst. Goodwood young people are holding a weaner roast in Earl Tindall's bush on Sept. 20th. Please pass the weaners.

Mrs. J. G. Holman and two daughters of Parry Sound visited her mother Mrs. S. Ottowell over the weekend.

Miss Gertrude Boyd of Oshawa and her sister Mrs. Stover of Stouffville were with their aunts (Mrs. Wm. Todd) on Sunday.

Miss Edna Mowbray of Gravenhurst is spending a couple of weeks with her sister Mrs. J. F. Reid, also Mrs. Norman Bassett of Whitby with Mrs. Reid for a couple of days.

The Goodwood United Church will hold their anniversary services on October 17th, when the Rev. Madden will preach "morning and evening." Special music is being prepared.

VANDORF

Mr. and Mrs. George Sproxtion spent Monday in Toronto.
 Mr. and Mrs. Wm. Morley visited with Mr. and Mrs. W. H. Sproxtion.

Glad to have a number of our Bethesda friends with us on Sunday. Mr. and Mrs. Archie Dike of Hope had Sunday dinner with Mr. and Mrs. James Oliver.

We were pleased to see our church well attended for both services on Sunday.

Miss Lottie Atkinson of Aurora accompanied her sister Mrs. Roy Morley home from the morning service.

Mr. and Mrs. Morley Andrews and family of Queensville attended the anniversary service having dinner with her parents, Edgar Roses.

Next Sunday will be Rally Service at our Church, and there will be special music, and some of the young people will give short addresses. A good congregation will encourage our young workers.

MELVILLE

The Alhira side road was literally coated with gravel last week. Mr. Harold and Mrs. McKay of Toronto spent the weekend with their parents Mr. and Mrs. W. McKay.

Rev. and Mrs. McEwen attended Presbytery at the Metropolitan Church Toronto on Tuesday.

Guild will be held in the church on Wednesday evening Sept. 22. A weaner roast is being planned for the occasion.

Mrs. S. B. Lehman, H. D., and Mr. and Mrs. J. W. Lehman spent Monday evening with Mr. and Mrs. Thos. Meyers at Zephyr.

The Sunday School will observe Rally Day next Sunday at 10 a.m. Several pupils are in line for regular attendance awards and promotion.

Choir practice was resumed last week and will be held each Thursday evening until further notice. Special music is being prepared by the choir for Peaches and Melville anniversaries.

Many people from this community who annually look forward to a day or more at the Exhibition denied themselves of the pleasure this year in the interests of caution.

Melville friends of Mrs. Clayton Gayman will be glad to know that she is making satisfactory recovery at the Toronto General Hospital. Mrs. N. Gayman is attending to affairs at the home during Dorothy's convalescence.

Mr. and Mrs. J. W. Lehman spent the weekend with relatives in Delhi.

Miss A. Carruthers of New York City, Mrs. Carmichael and Mr. D. Jenkins, grandson of Elder Jenkins the builder of the Carruthers home at Cashel visited the above mentioned homestead last week. This neatly kept property has a rich history dating back to the very roots of the early pioneer life.

END OF DROUGHT SEEN AS FALL RAINS COME TO THE WEST

Winnipeg — With fairly generous August rains all through the West feeling is beginning to prevail that the great cycle of dry years has ended. But hopes for a fair return next year in the really dry areas will be based on moisture received this fall.

It is, of course possible for the West to get a good crop entirely from the rains which fall during a growing season, and without dependence on reserves carried forward. That, in fact, was largely the experience of Manitoba and of a good deal of Alberta this year. But, for such a result, it is necessary not only for rains to be adequate but to be well timed. Large parts of Saskatchewan had sufficient moisture this year to have produced a fair crop, had the distribution of the moisture been different. A complete lack of sub-soil moisture, however, left the crops without ability to hold out from one rain to another.

Nothing better illustrates the reliance of this country on moisture, carried over from one year to another than the practice of summer-fallowing. It is a universal custom to keep a large part of the wheat area, sometimes up to 50 per cent in fallow. The objective is to kill weeds and conserve moisture, the theory being that if there is no growth permitted any moisture that falls will be conserved for crop in the following year. While only a small part of the rain that does fall is actually so conserved, it is usually sufficient to materially improve the crop the season after following.

Summerfallowing done last year in the driest parts of Saskatchewan, however, had little effect because there was so little moisture to conserve. The same applies to summer-fallowing done in 1937, for this summer the sub-soil throughout the greater part of the province reached a degree of dryness hitherto unknown.

Need More Reserve
 The hope of Saskatchewan farmers is that before freeze-up, several inches of rain may fall, and after soaking the ground to a satisfactory depth surplus may be locked in the soil until called on by next year's crop. If that occurs, there is sure to be a great deal of confidence as to next year. If it does not, there will still be hopes, but mingled with a good deal of fear. —Financial Post

TURNIP MARKET OPENS

This week marks the first car load of turnips being shipped from Stouffville station of the 1937 crop. R. E. Brown, shipper is bidding 16c bus. and a nice sample of turnip is coming in. The first car will go direct to Cincinnati.

In answer to a question, Mr. Brown tells us that this is not unduly early for the turnip market to open. This time last year he says several cars had gone forward. In fact Ontario turnips have been shipped to the U.S.A. from other Ontario centres this fall, so that the local shipment does not constitute a record by any means.

COLOSSAL WASTE

One can hardly understand the indifference to waste that goes on in preparation for an election. All governments are equally guilty when it comes to printing unnecessary voters' list. Hanging down the waste goes on. Hanging down in the municipal office is a printed list of the names of all voters in Stouffville, and a similar list is gotten out for every polling division in East York and all the other ridings too, notwithstanding the fact that it is only a duplicate of the municipal voters' lists which the municipal councils are forced to issue.

Why is this extra list gotten out when a perfectly good list in book form is lying in every municipality unused? Prior to the Great War, (which must have turned the heads of all political parties,) the municipal voters' list was used entirely and the judge certified any changes made in that list. For the present election the authorities have taken the printed municipal lists and had them reset in type and this new list is placed before the judge. The old system was thoroughly satisfactory, and it is disappointing to find the wasteful method of past governments continued at this time in rural areas like Stouffville.

Dr. L. J. Simpson
 Minister of Education in the Heppburn government who will have an interesting fight this election for Centre Simcoe where he will be opposed by Hon. Earl Rowe, Conservative leader.

Mrs. W. J. Fennell, Miss Eva Nicholls, Mr. Harold Nicholls, of Winnipeg; Mrs. J. T. Bragg of Bowmanville; Mrs. Sidney Lockhart, Newcastle; Mr. J. H. Nicholls, Port Hope, visited at the home of Mrs. W. T. Byam one day this week.

2 stoves in 1
the Findlay OVAL

—heats while it cooks and cooks while it heats—performing its double duty efficiently and economically. It's the true oval firepot—not an ordinary firebox with rounded corners—that makes this extra service possible. The Oval is designed for extra wood or coal—or both—and is easily adapted for deep or shallow fire which makes it a quick baker and efficient heater. Its modern appearance and attractive lines and finish make it a perfect piece of furniture for any home. Three sizes to fit varying requirements. Two finishes—standard, as illustrated, and full porcelain. Note these features:

Oval firebox, with cast iron linings in upper section and fire brick below. Firebox for wood long and roomy with large end door.
 Triple roller coal grate—easily removed through ash-pen door.
 Special wood grate with slide to retain fire overnight.
 We shall gladly send you without obligation descriptive literature, or give you a demonstration.
