HIS BACK-ACHED FOR 4 YEARS

Kruschen Put Him Right For four years, this man's back ached almost continuously. Now, at 57, he starts the day fresh as a daisy, and his back aches no more. Read his story:-

"I had continuous backache for four years. I looked on the black side of everything. Now, I write with extreme gratitude for what Kruschen Salts has done for me. The freshness with which I start my day's work is perfectly marvellous. After seven days of Kruschen, I felt better and could get up immediately, without any special effort. I am 57, and my early morning dose of Kruschen is my salvation."-J.T.

The kidneys are the filters of the human machine. If they become sluggish, impurities find their way into the blood-stream and produce troublesome symptoms - backache, rheu-

matism, and depression. The numerous salts in Kruschen quickly coax your kidneys back to healthy normal action. As an immediate result, you experience relief from those old dragging pains. As you persevere, you lose your pains altogether.

Ontario's Tobacco Crop Was Sold Within Ten Days

Canada's Newest Large Agricultural Crop Unique on This Continent - Growers and Buyers Budget Production.

SIMCOE: ONT .- With the final curtain rung down today on the 1937 tobacco market, growers of Canada's newest large agricultural crop were able to reckon their profits in excess of \$100 per acre.

This year's market, which saw 56 million pounds of flue-cured tobacco snapped up by buyers in less than ten days, realized in excess of fifteen million dollars for the 1,700 producers who this spring planted 50,500 acres to the crop. Available figures show that tobacco produced a return of approximately \$300 per acre.

'Chief problem until 1934 was marketing. Today Ontario's flue-cured tobacco growers belong to a marketing association which rigidly controls price and acreage. Each year, with the co-operation of the prospective buyers of the crop, the tobacco production is "budgeted" and the planting is-done purely on a basis of the available market for that year's crop, taking into consideration, of course, growing export prospects. The growers who comprise the association are allotted certain acreages to plant to tobacco.

Growers' Agreement When the crop is harvested, representatives of growers and buyersall joint members of the marketing association—meet and agree on an average minimum price for the crop. In 1936, for instance, the average minimum was set at 25 cents per pound, but the price actually paid was 29 cents. This year the average minimum was 241/2 cents and the price paid will probably exceed 27

With the co-operation of the farmer and the buyer, a crop of 56 million pounds-more than twice the 1936 production - was moved this year at a price which sets a new high record for returns.

Today the tobacco industry in Canada is unique on the North Amcrican continent in that growers and buyers budget the annual production months ahead of time, amicably agree upon a fixed price which permits a substantial profit for all branches, and work hand in hand for future

Sun at Noon Only

Cut through the solid rock of the Adirondack Mountains in New York State, is a mile-long gorge known as Indian Pass, and the bottom of the gorge is only lit by the sun for a-

few minutes every day, at noon. The walls of the gorge are absolutely perpend'cular, and on one side the rock rises sheer to 1,300 feet. Indian Pass is considered to be one ofthis continent's scenic wonders.

Smiles and Chuckles

JUST BEING HAPPY Just being happy is a fine thing to do, Look on the bright side rather than

the blue. Sad or sunny musing Is largely in your choosing, And just being happy is a brave work and true.

Just being happy helps other souls Their burdens may be heavy and they

not strong. Your own skies will lighten If others' skies you brighten By just being happy with a heart full of song.

It wouldn't matter greatly what people did in following the dictation of their consciences if they were not so insistent upon everybody else following them too.

It is bad to be absent-minded:

"It is funny I do not remember limping when I left home," said the absent-minded professor as he walked down the street, with one foot on the curb and the other in the gutter.

A woman who formerly resided here comes back after many years to see her friends - finds what, to her, is an embarrassing condition, to wit: A few of these friends are not on speaking terms and she has to exercise care in making social engagements - That is what's usually termed small town stuff, though it can be duplicated everywhere, since cities are only aggregations of small burgs - Nevertheless it is a deplorable condition. It can be remedied materially by cultivating a greater toleration and a wider viewpoint. Trouble with most of us is this: Our minds are local - they don't reach out beyond neighborhood limits and if they did they would be slower in making harsh judgments on the human units around them. High auworld. And good citizenship consists mainly in being charitable and getting along with imperfect folks like our-

Some experiences which appear to be disasters become, in retrospect, a veritable life-saver.

The prosecuting attorney had encountered a rather difficult witness. At length, exasperated by the man's evasive answers, he asked him whether he was acquainted with any of the jury.

"Yes, sir," replied the witness; "more than half of them." "Are you willing to swear that you

know more than half of them?" demanded the man of the law. The other thought quickly. "If it comes to that," he replied, "I

am willing to swear that I know more than all of 'em put 'together!" Colored Parson - "Brother Jones, that was the best chicken ah evah et.

Whereat did you all obtain such a deectable fowl?" Brother Jones - "Pahson, when yo' preaches a good sermon does Ah ask whereat yo' obtained it? Ah craves de

same fo-bearance from you."

A young flying officer, stationed somewhere in Egypt, while flying near the Great Pyramids, carrying out exercises in navigation, and working with a sextant to discover his exact position, suddenly turned to the pilot, and said, "Take off your hat!"

"Tortured with Liver Trouble and Rheumatic Pains"

There is nothing like deep-seated liver trouble and rheumatic pains to pull you down. Here is a letter from a man who was enduring pain and misery, unnecessarily. He writes: "I have distributed a supply of Fynnon Salt-to a few friends who were suffering from kidney trouble, gout, etc. They have now said good-bye to their complaints. As for myself—I was practically born with liver trouble and rheumatism. Since taking Fynnon Salt I feel like a new man and my only complaint seems to be 'a grand appetite' and a body full of energy".

Fynnon Salt neutralizes the Uric Acid that causes rheumatic pains, gout, lumbago, sciatica, etc. Fynnon Salt brings quick relief from pain—limbs feel supple and free once again. A 14 teaspoonful of Fynnon Salt in a tumblerful of vater every morning equals in medicinal effect three large glasses of the mineral spring waters found at famous British spas.

Now, in your own home, you can obtain similar benefits from a large 75c package of Fynnon Salt. Get it from your druggist, today. If you have any difficulty getting supplies, write: Laurentian Agencies, St. Gabriel Street.

that the population of India is nearing 400,000,000 and it is expected that this total will be exceeded by has been sold since nostrils—never put in ears! 1907. Read "Care Relieves calarrh. Stops head noises. Easy to use. \$1.25 every package. at your druggist's. 1941. There could be no better proof of the efficiency of British medical services in India than the figures Distributors in Canada: given in the latest statistics. LAURENTIAN AGENCIES, MONTREAL

Since 1931, there has been an increase in population of 5 per cent and this, has been achieved in spite of epidemics and outbreaks of malaria

which, in : 1935, caused 1,680,000 deaths. The total deaths in that year were 6,578,711 and the births 9,698,

Tropical Fish Fanciers Fewer

As a Hobby, the Aquarium Is On The Decline

The tropical fish aquarium as a hobby is or the decline in the Eastern part of North America, but on the rise in California - and .. England, .. claims William I. Innes, of Philadelphia, an outstanding authority as a tropicalfish fancier.

Mr. Innes, who is a naturalist, a collector, editor of an aquarium magazine and publisher of standard works on aquarium matter was in Toronto for the purpose of judging the exhibit of tropical fish displayed at the Royal Winter Fair. Addressing the Toronto Aquarium Society, Mr. Innes congratulated the members of the organization on the Royal Winter Fair exhibit. It was one of the best exhibits he had seen, as far as aquarium planting is concerned, he stated.

"We find we are able to breed tropical fish much faster than we can develop farciers," he explained. "But, however the true aquarist will stick to the hobby whether the fish are low or high in price. As soon as you start to cut-throat the price, you kill a hob-

City Unemployed Will Get Farms

SANDY, Bedfordshire, England. -Twenty unemployed families from London's east end are to move to new farms in this district in an experiment of the Land Settlement Association.

. Houses with three or four bedrooms, equipped with electric lights and bathrooms, are being built for them. They will have four acres for land, two greenhouses, a piggery, pigs and 100 laying hens.

For 15 months they will pay no rent. The stock and seed and plants for their greenhouses will be provided free. If they make good like the trial settlers on an adjoining estate did, they will become tenants of the association and pay a \$150 annual One man on the original estate, a

former Durham miner, made a year's profit of \$1,275.

California Raises Karakul Sheep

California \ industries, which already, include a wide variety, have added a ranks-karakul sheep rais-

State Senator D. Jack Metzger, rancher and sheep raiser, is proprietor of the karakul ranch. Last year he marketed 1,600 pelts from newborn furbearing lambs, ranging in value from \$15 to \$50 each. That is the wholesale price. However, in terms of a karakul, broadtail, astrakhan or Persian lamb coat there is

quite a difference. Metzger's herd descended from a few Bokhara sheep spirited out of their country by Dr. C. C. Young. years ago. Import laws and the aversion of herdsmen to permitting their sheep to leave Bokhara served for a long time as insurmountable:

Finally, the sheep were carried across the line on the backs of camels travelling at night.

Ontario's Annual Accident Epidemic

Has Brought Total of Mishaps in Industry to One Million Since 1914 - 6600 Fatalities

One million accidents have been recorded in the Province of Ontario since Jan. 1, 1915, with a total of 6,600 listed as fatal. In making this statement, T. Norman Dean, for many years statistician of the Workmen's Compensation Board of Ontario addressing a luncheon meeting of the Toronto-York Division of the Industrial Accident Prevention Association, commented that those who stood aghast at the blood-price of war should also stand aghast at the blood-price of accident casualties.

"Every year we have an epidemic of accidents which is equal to the epidemic of 'polio' experienced this year in Ontario," stated Mr. Dean.

The speaker struck a more optimistic note when he said that statistics indicate a reduction in mechanical accidents despite the increase in the use of machinery.

People For Hire!

The two hiring fairs at Aberystwyth, Wales, on November 18th and 25th were preceded in the mountain villages by a festival known as the Parting of the Ways.

This terminated the -yearly contracts between farmers and their hired hands, and young men and boys dress as girls and girls as men, Faces were blackened and there was much merrymaking and feasting. Later, at the Hiring Fairs which are held beneath the Aberystwyth town clock, new contracts are entered into. Wages are not always based on current coin of the realm, but on factors such as porklings, swedes, and potatoes-an old custom which has survived for centuries.
