**A Slow Sap Run This Week Indicated**

Up until Wednesday farmers report that there has been practically no sap running. Sap has just started to flow in several hundred trees tapped, has not been able to obtain enough for one boiling. However, in Robt. Ratcliff's bush in Whitechurch, about five gallons of syrup were made this week, which of course, is small for the size of the bush. Other farmers who are quite extensive makers, have not tapped this year, and unless conditions improve, they will not be sorry.

The roads are drying up fast in this locality, and everything looks like an early start on the land, but wait and see.

**Mrs. Samuel Dorley**

After an illness of nearly two months Mrs. Dorley one of Markham's oldest citizens passed quietly away at her home on Wilson Ave. on Mar. 3rd. Mrs. Dorley before her marriage was Charlotte Neal and was born on the 2nd concession of Whitechurch near Aurora in 1855 and was a lifelong resident of Whitechurch and Markham townships. She was left a widow 31 years ago living at Mongolla. Since that time Mrs. Dorley has lived in Markham. She was a lifelong member of the Methodist church and later of the United Church. Although Mrs. Dorley was well past the four score years she was a regular attendant at St. Andrews United Church up until sickness overtook her a few weeks ago.

She is survived by one daughter, Mrs. Mabel Hill, and three grandsons Harold, Douglas and Charlie Hill of Limerick, Sask.; also one sister Mrs. J.O. Heise of Stouffville and two brothers George Neal of Aurora and Albert Neal of Mount Pleasant, Mich.

After a short private service at the home, where Mr. Brown of North Markham Mennonite Church spoke very touchingly of his long acquaintance with the deceased, the funeral proceeded to St. Andrews United Church, with the pastor Rev. D. H. Woodhouse in charge. Interment in Aurora cemetery.

Rev. L. C. Whitlaw of the China Inland Mission spoke before the B. Y.P.U. on Thursday evening, delivering an instructive address. Unfortunately it was a very foggy night and those from a distance could not hear him, still the attendance was good. The annual flood menace is at hand and despite the fact there is little snow water is rising in the cellars, and the chickens will soon long to be ducks. J. Ashenburt, W. Cooper and J. F. Reid have their cellars waterproofed, so they feel that they are independent of the floods

**250 ATTEND MILK PRODUCERS BANQUET**

The success of the first annual banquet of divisions 5 and 6 of the Toronto Milk Producers' Association held on Mar. 15 at Agincourt was such as will make it the forerunner of many such delightful occasions to be sponsored by the Producers of the only perfect food. Two hundred and fifty members sat down together and enjoyed an abundance of delicacies such as only the ladies of Knox W.A., Agincourt can prepare.

Duncan Cowan, well known entertainer provided the lighter tones of the evening with song and jest. Mr. J. Darlington of Tomdord-on acted as toastmaster, and with the assistance of Wm. Clark and Wm. Spears proposed the toasts to the King, the Association, and the ladies respectively. Short addresses by the Association's acting secretary, Mr. Bill Wilmot and Ruby Reesor of Markham replied to the toasts to the Association and the ladies.

Jim Hunter of the Toronto Evening Telegram was introduced by Bill Champion and addressed the gathering on the possible effect extensive advertising might have on the further consumption of milk. Mr. Hunter was the lone representative of consumer interests on the program and as such, he extended to the members his best wishes for their success, and his belief that if more perfect understanding could be made to exist between consumer and producer, the interests of both could be better served from the point of view of more definite knowledge concerning the disposal of the apparently over-sufficient spread between the prices received by the producers and the distribution for the same product.

Professor Drummond of the O.A.C. was introduced by Mr. Reynolds, president of the Toronto Producers' Association. As guest speaker, he dealt with the plans in our present system of competitive marketing. Dr. Drummond declared that where as the farmer is forced to sell to and buy from a few powerful concerns who have limitless opportunity for co-operative price setting, he still buys and sells as only one tiny member of a disunited industry composed of many separate units. The only solution he asserted is through co-operation of the farmers on a much vaster scale than is at present promoted by the industry of agriculture.

Auld Lang Syne and the National Anthem completed the success of this first annual banquet.
