

Romeos and Juliets in Nearby Cemetery

While the youth of the early Victorian era would detour a mile to escape passing through a cemetery at night, so spectral and spooky was the average burial ground considered, yet in this materialistic day and age, many disillusioned gallants are spooning to their sweeties within the shadow of the tombstones by the light of the silvery moon.

Although the gates of this particular cemetery some few miles from here, are shut as a rule, not for the purpose of keeping those within from getting out, as with a view to preventing those without from getting in, yet love so laughs at locksmiths that the gates are most of the time ajar admitting wooing couples who believe the silence of this sanctuary to be moth-proof against local snoopers and sleuths.

Automobile tracks criss-cross throughout the grave-yard show where many Romeos and Juliets have pulled off the beaten path for a little more privacy.

A local gent, who parked his bicycle near the gate inside, on a recent Sunday evening, and who missed it from its moorings when he later went to retrieve it found that he was interrupting so many petting parties in his quest for the wheel that he gave up the search to avoid being taken for an inquisitive intruder in this lovers' bower.

As the saying goes, youth will have its fling, but the last place that one would expect to find joy unconfined is among the gruesome stones of a cemetery in the pale moonlight.

Celebration here Labor Day.

STOUFFVILLE OLD BOY LAUDED FOR WORK

From the Moosomin World-Spectator we take the following article, concerning S. C. Fleury, an old Stouffville boy formerly connected with the Fleury Foundry here in town.

"York County and City of Toronto Old Boys and Girls Association," on Tuesday evening, August 2nd, held a meeting in the office of the Crescent Financial Corporation, Regina, and it was unanimously decided to organize a body under such a name. A committee was formed to arrange for a banquet to be held in Regina the latter part of October, 1938. S. C. Fleury, who for some months has been actively engaged in the formation of this society was present, and is acting on the committee. In recognition of the work he has done in connection with the organization Mr. Fleury has been made a life member of the Association.

WARNING!

Numerous complaints have been received regarding the riding of bicycles on the sidewalks. Notice is hereby given that any individual breaking the law in this manner will be summoned without further notice.
Constable Quibell

SEES 80th BIRTHDAY

Continued from front page 10th, and who died in 1896. Mr. Lapp's present wife was the former Lillian Terry, of Mount Albert.

Our honoured gentleman also participated in the realm of public life, serving on the council five years, during which time he was reeve, in the years 1908 and 1909.

"The only outstanding legislation attempted during my term of office," said Mr. Lapp, "was a vote to abolish statute labor, which was defeated by a small majority." "There have certainly been great changes in the Township, since those days," he continued. "I can remember," he said, "when it took us a good day to drive to Toronto, with a horse and rig."

Lapp's Cider and Vinegar Works, known throughout the countryside, was established by Harry Lapp, his brother George and their father in 1872. This mill with its rather antiquated machinery stood until 1910 when it was rebuilt and considerable new equipment installed. The output to-day is in the neighborhood of 50,000 gal. of cider and a large quantity of apple-butter.

A new cider process of which Mr. Lapp is very proud, is called cold sterilization, and is carried out on a German machine only imported to this country recently. The cider passes through a filter press and into the bottles in contact with the liquid. To crush the apples a hydraulic press is used, exerting a pressure of 100 tons. In vinegar making containers of 2000 gal. capacity are used, each 12 feet high. By means of compressed air the liquid is forced from one container to the other, and each time, up into curled beech shavings, with which the top half of the huge barrels are filled. These shavings are saturated every 12 hours, the process taking 30 days for each batch of vinegar. The liquid must be continually tested until it reaches its highest acidic point.

Mr. Lapp, who has been operating the mill there for over half a century, claimed that in all that period he could not remember business being any better than at present.

Our friend stated that he was amused a few years ago when the government took control of the liquor making, and several agents came out to look over his place. "They were certainly very particular that I should not turn out any liquor," said Mr. Lapp, "while not many miles away, they were sanctioning its production."

The products from the Lapp Mill are confined chiefly to the country trade, with some in Toronto. Before the depression car-load quantities were shipped to Calgary.

from the wallet of John Baker, 75-year-old farmer.

The women have used the same method in all the robberies. They drive about the sideroads until they spot an elderly farmer. They sometimes offer to buy some produce. In this way police say they get into the house.

Once in the house, the two husky women seize him. One grabs his wallet while the second holds him on the floor. They have been described by their victims as being "strong as oxen."

UNIONVILLE ANNUAL FLOWER SHOW

The annual exhibition of the Unionville Horticultural Society held in the Township Hall there last weekend, drew a generous display of blooms. The judge M. Hall remarked on the good quality of the flowers. The T. Eaton Trophy was won by G. C. Murphy, for the highest number of points in the flower section. In the vegetable class Leslie Miller won with 275 points and in the home cooking Mrs. R. L. Stiver led with 195.

THRESHING Roasts

We are prepared to serve you with choice prime beef (roasts) for the big threshing occasion. They range from 12 to 15c per pound.

Golf Week in The Canadian Rockies

The Banff Springs Hotel's annual golf week is set for August 22-27, and the contest for the long-list of cups and prizes will be waged in a mountain setting so beautiful as to make the old adomition, keep your eye on the ball, doubly difficult of fulfillment.
Golf week at the Banff Springs course will see many notable U.S. and Canadian amateurs with a sprinkling of British and European entrants, fighting it out for the Edward Prince of Wales trophy, put up by former King Edward VIII, and the Willingdon cup for men, Associated Screen News cup and the Brewster trophy and a host of other coveted awards for women.
As much a social as a golfing event, Banff's golf week is the signal for a round of informal entertainment centred at the baronial Banff Springs hotel, beneath the terrace of which the great golf course winds down over the Spray River for 6,640 yards of unrivalled fairways and greens. A "golfer's ball" in the big hotel ballroom Saturday night brings the week to a close with presentation of cups and prizes.
The spectacular Banff Springs course has its fairways laid along the valley of the Bow River into which the rushing Spray dumps its green waters beneath the towering first tee. Unmatched for beauty, the course also ranks among the world's best for its length, trickiness and general smartness of design. Pictures above show the Edward Prince of Wales Cup and views of the course.

SENDS WIFE BEATER TO JAIL FOR MONTH

George Matthews, Uxbridge Township, was sentenced to one month in the county jail on a charge of beating his wife when he appeared before Magistrate Col. C. F. Bick in Police Court at Uxbridge recently.

Evidence was given by P.O. W. H. Clark, Oshawa, and Chief Constable Vessey, of Uxbridge, who told of terrible bruises borne by Mrs. Matthews. Accused was also bound over to keep the peace.

OBJECTS TO SUNDAY EVENING ENTERTAINMENT

A Stouffville resident has taken considerable offence at the type of Sunday evening entertainment put on at our summer resorts up and down the country. This particular individual issues a challenge to the ministers to voice their opinion on the matter.

"The songs, are they sacred, to say nothing of the dances exhibited," continues the writer. Let us have your opinion. Signed: Yours for a Constructive Program.

GYPSIES SHAKE-DOWN FARMERS

Two buxon gypsy women, who might possibly have been in the party camped a month ago in Markham Park, have robbed Ontario farmers of more than \$1,000.00 in the past two weeks. The pair have made their escape from at least six farms between here and Toronto in automobile, while their latest escape was at Goderich where they lifted \$300
