HEALTH or PROFIT Which?

Many pullets will be placed in winter quarters during the next few weeks and which brand of Laying Mash becomes a question of vital importance. Many high priced feeds produce well, and make profits for the feed manufacturer, while cheap low priced feeds frequently benefit no one.

SHUR-GAIN 18 Per Cent LAYING MASH
is a high quality Laying Mash which will give you maximum, continuous production of the kind of eggs you want, and due to our unusual arrangement with Canada Packers, Ltd. You have a feed which is backed by the strongest company in the Dominion, milled where low overhead is a factor, serviced by college trained men and priced where there is a real possibility of making you a real profit.

HALF OR ONE TON ORDERS
May be milled from your own grains under Shur-Gain specifications at our mill at a saving to you. Call for full information.

Stage Set For Labor Day

The stage is all set for the big celebration in Stouffville on Monday next (Labor Day), and with anything like favorable weather there should be one of the largest crowds in town seen here in many a day. The program is the strongest offered for a long time. It starts off with a grand parade at 1.30 and ends in the evening with a grand display of fireworks. In conjunction with the demonstration which is under auspices of the local war veterans, the York County Association will hold their annual day, and co-operate with the program. This will bring hundreds of veterans here for the occasion including prominent officers. Toronto will play hard ball with the locals and there will be a baby show and

children's games in the park. In the evening Billy Hole and his orchestra will conduct the street dance while a grand concert will be given in the arena.

You will be busier than a hive of bees if you can step around fast enough to see all that is going on. The Veterans certainly are putting on variety.
