

What is Bread?

We all know it's a staple food, but there's a wide difference in breads. If you want the best demand Stover's. We make Soya Bean, Whole Wheat and Health Breads in addition to our finer quality white bread. A Stover Wagon calls on your street.

three of his winning Saanen goats at the C.N.E. this year. Left to right, first prize yearling, champion grade and champion pure bred does. Only two breed-

Case Not as Bad as Feared

A representative of the Canadian Pension Commission was in town last week with the idea of giving any assistance necessary to the family of seven children of Mrs. Rose Crumb who is confined to the Toronto General Hospital for six weeks. It was found that everything necessary is being done for the family who live on Stouffer street. In fact the Tribune also looked into this case because we had said the family was in receipt of only "a meagre pension," but we find that all the family really needed was guardianship during the mother's absence. A pension which we deem as ample even for seven children is being paid to the mother, and this will take care of the physical needs. Guardianship of the home is also being attended to. Mrs. Crumb, we understand, is making satisfactory recovery from her recent operation.

About a hundred of our young people staged a double chiviravi last week, calling on the newly-weds, Mr. and Mrs. James Oldham who have only recently returned from their honeymoon, and then on to the home of Mrs. Fred Clark (nee Jennie Oldham) our former school teacher. The Clarks have just returned from a wedding trip in the north country.

Mr. and Mrs. Herb. Mitchell returned on Saturday from a three week's motor trip to the Peace River district which journey they covered some 6,500 miles, and only struck one wet day in all their travels. In the Peace River district the farmers were threshing the poorest crop in nineteen years. In fact every crop up to this year has been good in that period. At Eureka River near Fairview Mr. Mitchell has two nephews who located there nineteen years ago when they went in with a wagon and a little live stock. An excellent sample of Peace River potatoes is left at The Tribune office which shows they can grow good tubers in the far north. Ready markets are the great draw back to this new country, & where Mr. Mitchell's nephews are it is 40 miles from a railway.
