Percy, Mrs. John Beckett, Mrs. Frank Wright, Miss Mary Postill, Mr. Fred Wright, Mrs. Melville Draper, Mr. Alfred Michell and George Williams. Don't look now, but none of these are showing signs of any extra years yet. Well happy birthday anyway, and many of them.

The recent snow storms are keeping our men folk busy shovelling snow from the road and it seems as if the weather man is trying to keep one step ahead, for just as the men put up their shovels and admire their work, a few snowflakes to fall, followed by many more and next day down come the shovels again.

Did you read the poem in last week's issue entitled, "People Will Talk". It had some fine philosophy in it. There was one very comforting thought about it folks, for while you and I are being talked about, somebody else's good name is being preserved.

Some of our folk who have been feeding the birds this winter, have found that not only our feathered friends are hungry, for on the feed board have been found saucy squirrels, mice, and even the family cat.
