Sir Wilfred Grenfell, who brought hospitals, schools and orphanages to bleak Labrador and Newfoundland, sailed out the the St. Lawrence from Montreal, July 18, for the first visit in four years to the land that hails him as its benefactor. He couldn't remember just how many times he had been there when he discussed the trip before sailing in the liner North Star for St. Anthony, Newfoundland, but decided it was "somewhere" near his 25th. With Sir Wilfred is his daughter.

HOG GRADING

The Dominion Department of Agriculture is responsible for the grading of hogs, but the question as to whether hogs are to be sold on a live or dressed weight basis is not subject to departmental regulations.

BACON IS WHAT YOU MAKE IT

When a Farmer FEEDS Grain to a Hog he SELLS Grain to that Hog

The Hog PAYS in Pork...

AND THE HOG PAYS WELL! Properly fed, 350 lbs. of grain makes 100 lbs. of pork. Rail-grade prices are based on dressed weight... so well-fed hogs when Rail-Graded, pay the highest prices for their feed.

But "well-fed" does not mean over-fed. Good feeding calls for a balanced ration of grains and proteins. Grain, by itself, is not sufficient to develop and bring your hogs to market requirements economically. Proteins of animal origin, such as skim milk and tankage, are of equal importance. Proteins promote growth and save grain.

This representative Feeding Trial, with three lots of 21 pigs each, shows how grain may be saved and cost of production lowered by feeding protein supplement:

	Lot 1 Grain & Protein Supplement "A"	Lot 2 Grain & Protein Supplement "B"	Lot 3 Grain alone
Days on Feed.....	119 1/2	129	214
Daily Gain.....	1.31 lbs.	1.24 lbs.	.74 lbs.
Grain eaten per 100 lbs. gain.....	321.63	392.76	611.84
Cost of Hog per 100 lbs. gain.....	\$6.14	\$5.97	\$7.38

The feeding of Protein Supplements saved 219 to 290 lbs. of Grain, or from \$2.48 to \$2.82 per 200 lb. Hogs.

THE BALANCED RATION GAVE THESE HOGS THE OPPORTUNITY TO PAY THE HIGHEST PRICE FOR FEED—AND THEY PAID IT!

The Dominion Experimental Farms from coast to coast, raise and feed hogs to obtain unbiased breeding and feeding facts. For information on hog feeding and production apply to the Superintendent of the Dominion Experimental Farm serving your district, or direct to: Dominion Department of Agriculture, Ottawa.
