PRICES GIVEN FOR VARIOUS GRADES AT STOUFFVILLE.

Ontario seed men and farmers share a new problem this year with the application of the federal government's wheat marketing plan to eastern farmers.

The government guarantees the farmers a certain price, varying with the location, which brings in the freight charges. Prices vary, too, according to grade. And here is where the trouble comes in. For few Ontario farmers can boast of more than a scanty knowledge of grading.

There are three grades specified by the government, and these apply to mixed winter wheat, red wheat and white wheat.

Grade No. 1, the government bulletin states, should weigh over 60 pounds to the bushel; must be sweet and clean, with very little chaff; no sprouts or smut; and must be under 14 per cent in moisture content.

Grade No. 2 must weigh over 58 pounds to the bushel, and allows for a little chaff, some sprouts and very little smut.

Grade No. 3 must weigh over 56 pounds and may have "a little smell and some smut."

Seed men will be interested only in the first two grades, it is expected.

Prices for the three grades are: No. 1, 54½ cents; No. 2, 52½ cents; No. 3, 49 1-2 cents. All prices quoted are at Aurora.

Seed sold to the government under this plan becomes the property of the government, and the seed man, miller or elevator operator cannot sell it or buy it himself. As farmers will want to sell at the higher government price, rather than dispose of it on the market, feed men are wondering, just a little, where they will buy wheat for feed purposes. Some expect to pick up some of last year's wheat, on which the government plan does not apply for feed purposes.

OUR OBLIGATION TO BRITISH BACON CONSUMERS

This fall, for the quarter year, October, November and December, we Canadians are asking the Government of Great Britain to make a place in the British bacon market for 52,000,000 lb. of our bacon. This compares with 37,500,000 lb. shipped in May, June and July.

To do this Britain must shut out of that market a share of the bacon now being supplied by Denmark, Holland, Sweden

and other countries.

Denmark particularly supplies the London area markets (which pay the best prices) with bacon of which 80 per cent or more is No. 1 sizeable. This means that the Wiltshire side is of leanest selection and weighs within the range 55 to 65 lbs. It is made from hogs which are highly bred, properly fed and which yield carcasses weighing from 143 to 168 lb. warm weight ("Selection" designates the fatness of the bacon. No. 1 (selection) is known as leanest, No. 2—lean (fairly fat) and No. 3—prime (quite fat.)

Possibly 35 to 40 per cent of Ontario hogs come within the desired weights of No. 1, or leanest selection. Out of the average of the hogs of Canada we are shipping about 30 to 35 per cent of our total shipments of No. 1 selection, sizeable bacon.

Even if we concentrate much of our No. 1 selection, sizeable bacon on the London area markets, what position are we in to give to the consumers of England, (who have been getting from the European countries a very high percentage of No. 1 selection, sizeable bacon), what they want. We could at best only supply them with perhaps 50 per cent No. 1 sizeable. When we go to prospective customers and say we want them to take Canadian bacon instead of Danish, Dutch or Swedish, how can we expect them to be enthusiastic when we have to supply them in a large part with No. 2 selection or with out-weight bacon, or perhaps with No. 3 selection. We must do our part by producing and marketing hogs of proper quality and weight as we are to have a favorable position in the British Market.

rural mail courier on the No. 2 route out of Claremont. Mr. Barber has served in His Majesty's Service for 24 years, a period only equalled by one other carrier in Ontario. During his long years of service Mr. Barber estimates that he has never missed more than three week's work. "I have driven four horses in 22 years, and only had one runaway," he told The Tribune.

GRAHAM—BRAY
Autumn flowers decorated the home of Mr. and Mrs. Walter Bray, Pickering, for the marriage Saturday afternoon of their daughter, Miss Ethel Anne Bray, to Norman Graham son of the late Mr. and Mrs. David Graham, Claremont. Rev. E. G. Robinson officiated and Miss Verna Wice of Barrie played the wedding music.

The bride who was a former school teacher in Claremont was given in marriage by her father and wore a gown of turquoise blue chiffon over taffeta made on Grecian lines, with a shirred jacket of matching material, a wreath of cornflowers and roses in her hair and carried a bouquet of pink roses and lilies of the valley.

Miss Patricia Edmonds of Norwood, the flower girl, was the bride's only attendant and was gowned in a floor length frock of pink organdy and carried a nosegay of cornflowers and rose buds.

At the reception the bride's mother received wearing a gown of blue lace with a corsage of roses. Miss Mary Graham, sister of the groom, also received wearing navy blue crepe dress with white accessories. Later the couple left on a trip to Montreal and Quebec, the bride travelling in a three-piece knit suit of Queen Elizabeth pink with brown coat and accessories. On their return they will reside in Cavan, Ontario.
