CHILDREN PLY SHOVELS IN DEFENCE OF WARSAW

Three weeks to a day the German siege of Warsaw began, but the Poles still hold their city. While Canadian children are attending school the boys and girls of Warsaw are living under a hail of bombs. Children like those pictured above were conscripted to dig trenches, pile sandbags, put out fires and run supplies to their fathers and mothers who are fighting for their homes against the German invader. The rule of might over right in the world would be the end of civilization, and the return to barbarism. Britain says the policy shall not prevail, and is setting about the business of disposing of the perpetrator and his supporters.

The farm stock sale on the Walker farm on the 8th last Friday saw Auctioneer Farmer dispose of all the goods and chattles in double quick time. Prices for live stock were very good but farm implements did not sell so hot. A seven acre field of buckwheat went for \$10. It had been touched with frost and didn't look very promising. Mr. and Mrs. Walker are leaving the farm and will take up residence in Richmond Hill. This place was once the home of Mr. and Mrs. W. A. Quantz of Stouffville who left the farm 21 years ago. The property is now owned by Mr. Herb Mitchell. We wish the Walkers every success in their new home.
