

TOWN TOPICS

The annual Hoover re-union will be held at Harry Ralph's Farm, on the 8th concession of Markham just below that village on Wednesday, July 3rd.

Mr. and Mrs. George Stewart of Milverton motored here and spent the weekend with Mr. and Mrs. Jess Cook. Mr. Stewart is manager of the Bank of Nova Scotia in the busy Perth county village.

The engagement is announced at Almira of Elva Dorene, daughter of Mr. and Mrs. Willis Lehman to John T., only son of Mr. and Mrs. Teller Wagg of Cashel, the marriage to take place quietly the latter part of June.

The local tennis club which re-organized a couple of weeks ago has placed the Memorial Park courts in condition, and they are now open to all members. Fees this year are \$1.00 and all former members and others desirous of joining the club are asked to make remittance to the sec'y-treas. as soon as possible. Chas. Nolan, Secretary.

In large double column head an evening paper tells that an Oakville lady 95, boasts of living under five crowns. Queen Victoria died in 1901 then we had Edward VII, George V, Edward VIII, and George VI, five in all, so what is remarkable about that. It is wonderful to be 95, but a person 41 has lived under five crowns.

Two of our mail couriers have recently received renewal contracts for carrying the mail on their respective routes. Lloyd Moyer on rural route No. 2 out of town, a distance of 19 miles has received his renewal. Also Jake Reesor on route No. 3, a distance of 27 miles, has been given a renewal contract. These men have been giving good satisfaction, and accepted renewals at the old contract price in each case. Where a courier has rendered satisfaction, and is worthy of a new contract he should be granted an increase in pay of say 10 per cent until he reaches a certain amount per mile. This paper has no quarrel with the tender system of giving contracts, but the job would be greatly improved with some system of giving a worthy official increased pay with a renewal of his contract.

Messrs. E. R. Sinclair and J. L. Barrett visited in Woodbridge on Sunday.

Among those who graduated last week from the Training School for Nurses at the Toronto General Hospital, College Street, was Miss Janet Guthrie Lott. Janet is a daughter of Mr. and Mrs. Ira W. Lott, of Milton, Ontario, and a granddaughter of the late Mr. and Mrs. Nelson E. Smith, former residents of this town.

Mrs. Carleton Baker of Toronto has rented the Samuel Hoover residence on O'Brien Avenue recently purchased by Mrs. N. W. Byer. It is now some years since Mrs. Baker lived in the country, but many recall Mrs. Baker and the late Mr. Baker as among our popular farmers on the 8th con. at Baker Hill. The numerous friends of the family will be pleased to learn that she is coming back to the old town to reside.

The incessant rains of the last week almost caused disaster to the trenches dug at the east end in preparation for laying 500 feet of water mains from Montreal street west on the north side of Main street. Just when the digging was nearing completion, rain came down and ever since the men have been forced off the job. In the meantime the trenches are filling with water, but on Tuesday afternoon they were pumped out and work resumed.

Applications for the position of constable for the village of Stouffville will close this Friday. The job is only a part time one. While it paid a remuneration of \$125 for long years, the retiring incumbent received \$400, although he was expected to perform other duties. The position of constable is largely one of directing traffic, and seeing that the village bylaws are obeyed. The officer is seldom required to go outside the corporation, and then usually at the request of another officer who requires assistance. Back in the so-called "good old days" a dozen or more men would have appreciated this opportunity of earning a few extra dollars while carrying on their regular employment, but today men are more indifferent about such undertakings. Constable H. Quibel recently resigned to take up his old job as a despatcher on the C.N.R.

Whitechurch Council Saturday.

Mr. and Mrs. Archie Stover of Milverton were visitors in town over the weekend.

Mrs. D. McMullen of Uxbridge has been spending a week at the home of Mr. and Mrs. Hugh Anderson.

Mrs. Mila Hoover of Toronto spent the holiday with her sister here, Mrs. Jos. Mowder.

Mr. and Mrs. J. Coates, Mrs. Geo. Lee, Stouffville, and Mrs. R. E. Forsyth, Claremont, attended the Baptist Woman's Convention held in Hamilton last week.

Next Monday evening the June meeting of the village council is expected to deal with the problem of securing a new constable.

Baby Patricia Boake, youngest child of Mr. and Mrs. Albert Boake who live over the Standard Garage in town, is recovering from a mastoid operation performed last week at the Sick Children's Hospital in Toronto. The baby is expected to be sufficiently recovered as to enable the child to be brought home in a few days.

Henry Miller, one of our consistent advertisers for his line of baby chicks and incubation hatches, expects that when the season winds up he will have put out some 10,000 or 12,000 fluffy babies, that will be marketable birds for his customers this fall. That's quite an army and is no mean production for a farmer to attain as one branch of his industry.

Another big special "Mr. Smith Goes to Washington" is coming to the Stanley Theatre here next weekend. Out of the hearts of the people a master picture-maker creates his most stirring human spectacle of the laughter, the love, the pain and the joy of the everyday business of living, enacted by one of the finest casts ever assembled in one picture with Jean Arthur, James Stewart, Edward Arnold, Guy Kibbee and Thomas Mitchell.

It was forecast in the office of this paper a few days ago by a resident of Uxbridge town, that the proposed domestic water bylaw shortly to be voted on in the neighboring town, is likely to be defeated. This citizen estimated that those who really want a domestic supply now have such a system (private) installed, and that the figures submitted as to cost of the system were too low. It would be unfortunate if the people of Uxbridge should be denied a modern and safe water supply which they so badly need.

A gang of men are working on the C.N.R. levelling up the ends of the rails at the joints which show wear of a fraction of an inch over other parts of the rail. New steel is welded to flush up the surface and about three-quarters of a mile per day is the length of track gone over in this way. This week the gang is working in the Stouffville area. In addition to preserving the heavy rails laid only a few years ago, the operation adds to the riding qualities of the roadbed. Lou Lownsborough and Randolph Spofford are local men who are assisting.

A report circulated on Saturday indicated that gasoline was to add on an additional 6c tax Monday morning. However, the yarn was without truth for no increase was announced of any kind. In a similar way, it was reported in the country that bread was to be advanced one cent a loaf, but this is not a fact either. However, it may be said that bread is likely to go up slightly. All ingredients entering the "staff of life" have gone up, and there is prospect of a tax on flour being imposed which would most certainly advance the cost of bread. After all, when we read of what the Germans are doing to the unfortunate people of Belgium and other countries, all Canadians are ready to dig a little deeper to help win this war against an enemy that carries out a form of cruelty unknown to civilization.

RECEIVES SLIGHT WOUND

Wounded slightly in a German air raid on a French town, the Duke of Gloucester, who returned to London, May 20, expects to be back soon with the British Expeditionary Force to resume his duties as chief liaison officer. On three successive nights in France he was in areas bombed heavily.

Cemetery decoration day for Stouffville, June 23rd.

Rev. Gordon Lapp, Toronto, 34 years of age, has been called to the pastorate of Keswick United Church to follow Rev. C. E. Fockler who goes to Maple.

Miss Enna Heise, Regina, Sask., spent a few days with her mother Mrs. J. A. Heise. Miss Heise came East to attend the Canadian Conference on Social Work held in the King Edward Hotel, Toronto, May 21-23.

Training classes for all young men from 17 years of age will commence on Thursday and Friday, 7 p.m. All men and young men in particular are welcome. Physical training, and small arms will be given. If interested please be on hand and report to G. H. Saunders.

Dr. Colin Campbell of the Medical Arts Building, Toronto, and his son Jack visited with Mr. and Mrs. K.G. Tarr a few days ago. Dr. Campbell was the practitioner who operated on Mr. Tarr for cataracts some years ago. At that time he was practically blind. Today while one eye has completely failed, Mr. Tarr has good use of the remaining eye.

TO-DAY.....
People rely upon
THEIR BANKS

LONG past is the day when a hole in the ground was regarded as the best place in which to keep savings. Modern banking, evolved by man as a convenience to serve his developing needs, now provides the solution. As a depository for his money today the Canadian relies upon his bank. From the days of the old-world goldsmiths of centuries ago, to banks, bank notes and deposit accounts which meet so efficiently the greater business and human needs of today, is a far cry indeed. Canada's chartered banks, with their wide distribution of branches throughout the Dominion, now provide deposit and other banking services in line with up-to-date requirements and in keeping with Canada's position as an important factor in world trade.

[In war, as in peace, Canada's Chartered Banks maintain, uninterrupted, all their services to depositors, farmers, manufacturers, exporters—facilitating the nation's business—looking forward to peace with freedom as the only sure basis for enduring prosperity.]

THE CHARTERED BANKS OF CANADA
